The latest improvement in lantern wicks is to stick a common pin through the wick just above the burner; the flame heats this and it is impossible for the wind to blow out the light as the oil is relighted by the red hot pin as fast as the flame is blown away from the wick.

The bodies of twin babies—boys—were laid to rest in the Reformed cemetery at Aaronsburg, on Monday. The babies were born to Mr. and Mrs. Mach-ermer, at Muncy, a few weeks ago and after their death were removed to the home of W. A. Guisewite, at Aaronsburg.

Postmaster T. M. Zubler today finds himself both postmaster and farmer. He resigned as postmaster at Spring Mills some time ago and on April 1st moved to his farm just west of there, but since his successor has not yet been appointed he is obliged to hold his government post until further notice.

The following Boy Scouts will participate in the play, "The Making of Larry," to be given in Grange hall on Friday evening of this week: John Shultz, Harold Keller, Frederick Moore, Albert Emery, Howard Emery, Paul Schreckengast, William Sweetwood, Daniel Smith, Kryder Miller, Ernest Frank, and Harvey Flink.

Thursday's hard rain came along just at the time when the roof was uncovered on the meat market property, which is undergoing repair, and the result was that the candy and tobacco as well as the other department of the meat market were nearly flooded out. Fortunately little damage resulted, but it had the effect of ruffling the temper of proprietor Dauberman.

The sum of \$100 was asked of the commissioners of Union and Northumberland counties at the regular meeting of the Northumberland board at Sunbury last week, by J. Harter, of Coburn, was a caller at this office one day last week for the express purpose of placing his name before the Democratic voters of the county for the nomination of County Treasurer, through the medium of this paper. Mr. Harter has no opposition as yet, and in the event of his being nominated, he should be placed in the office, for he is fully qualified to handle the affairs of the treasurer's office in a very efficient manner.

As a result of his thoroughly advertised sale, William F. Colyer realized \$7,800 in disposing of his stock and implements at public sale last Wednesday. Mr. Colyer is a firm believer in the efficacy of printer's ink and finds that it pays. At the sale cows sold for \$240, \$205, \$195, \$180, and all over the hundred dollar mark. Young cattle averaged a hundred dollars each. Leghorn chickens sold for \$1.80 each and Rhode Island Reds for \$1.60. He had a lot of choice, thoroughbred registered Poland-China breeders and feeders which sold for from \$124.00 to \$158.00. The best gilts weighed about 125 pounds and sold for \$42.00.

Isn't it true that a good many of the farmer friends with incomes of over \$2000 did not make reports as to revenue? It is a very ordinary farm the income from which, before the deductions are made, will not aggregate \$2000.

Mrs. Ralph C. Boozer and children, Mary Ellen and David, on Saturday, returned to their Chicago home after a stay of several weeks at the D. A. Boozer home in Centre Hall. Miss Elizabeth Boozer accompanied them as far as Pittsburg.

When you throw waste paper or litter of any character out into the open, think where it may find a final lodging place. If you are not quite sure it will stay just where you put it, burn or bury it. None of your neighbors like your litter a bit better than you like theirs although they may be a bit more forbearing.

Neighbors Save Four from Burning House.

Mrs. E. J. Reichley and four small children, of Lewisburg, were found unconscious and their house afire by neighbors Saturday, who rescued them with difficulty. The home was nearly consumed by the flames. A leaking gas pipe was given as the cause. The children are expected to recover, with the exception of the thirteen-month-old son. The mother is critically ill.

Mrs. D. Reiceley, next door neighbor, says she heard an explosion and then saw flames. She rushed over and found the kitchen afire and the family lying around on the floor unconscious. In turn, she dragged each one into the yard. Leaving them lying on the ground she turned in a fire alarm.

SMILE AND FINISH THE JOB!

U. S. A GOOD FINANCIER

Other Nations' Cash Helps to Pay Liberty Loan Interest.

Uncle Sam has done some clever financing in this war. Almost one-half of the interest due to patriotic Americans subscribing to the Liberty Loans, including the Victory Loan, will be paid by interest which Uncle Sam, as a result of judicious credits, will collect from foreign governments.

With the Victory Loan included the United States will face annual interest payments of about \$1,100,000,000. This money goes into the pockets of American investors. But something like \$500,000,000 of it will be offset by the interest payments which the big European powers must make to Uncle Sam.

Great Britain is debtor to the United States in the sum of \$4,175,981,000. She pays about \$205,000,000 a year interest on her loans. France has loans totaling \$2,436,427,000 and her interest payments to Uncle Sam are about \$121,000,000 a year. Italy with loans of \$1,310,000,000 pays us about \$65,000,000 a year in interest. The smaller powers also swell the total.

All of these loans were negotiated, of course, on the best of security and they are doing a big share in lightening the taxation out of which the interest on Uncle Sam's own borrowings must be paid.

GERMANY OWES SOME BILL

Victory Liberty Loan a Trifle by Comparison.

"Germany debtor to the Allied Powers: To one defeat (delivered November 11, 1918) . . . . . \$120,000,000,000. "Please remit."

One hundred and twenty billions. That's the way the bill reads.

People who think victory comes high at six billions—the estimate of the Victory Liberty Loan—will do well to study the above bill. It is the just indemnity which the Peace Conference Committee on Reparations has decided Germany ought to pay.

And a large part of it is to be collected immediately. France alone insists upon an immediate payment of \$5,000,000,000 on account. The other nations which suffered from Germany's method of war making will also present eight drafts for collection. Payment of the total sum is to be made in 25 to 35 years.

Paying off this staggering debt is a job that makes the flotation of a six billion loan seem trifling. The German people will not have the opportunity to pay it through the easy means of popular loans. This is a method of financing war debts reserved for the victors.

And the Allied indemnity is not based on a theory of loot. It is an honest claim for damages suffered.

CENTER OF MANY LEGENDS

Famous Dome of the Rock, in the Holy Land, Has Long Been Held Sacred Place.

The Mussulman's grief at the fall of Jerusalem is largely centered in the fate of the Dome of the Rock. For centuries devout Mohammedans have journeyed to this spot, which they count second only to the holy places of Mecca in religious significance.

Directly under the rounded dome topped with the Turkish crescent is the sacred rock about which a host of traditions—Jewish, Christian and Mohammedan—have been collected. From this rock Mohammed ascended into heaven on his steed El Borak, the lightning. Here also, if tradition is worth anything, rested Noah's ark, and Jacob saw the angelic vision. This spot is 18 miles nearer heaven than any other on the earth, and the Turks accept the old Jewish theory that this is the center of the earth. Here on the judgment day will the angel Gabriel stand when he sounds his trumpet.

There is little room for argument over these statements. You accept or reject them as you will. But long and heated have been the learned dissertations to decide whether this identical spot, already overcrowded with associations, is the site of Solomon's temple or of the tomb of Christ. Science now leans toward the former conclusion and grants that very likely the rock marks the place where stood the altar of the famous Jewish temple.

Even for a confirmed skeptic the place must hold some interest, for the structure protecting the rock is a worthy rival of the Taj Mahal in beauty of design. The building is octagonal like a mosque and popularly called the Mosque of Omar, to the distress of the well informed, who point out that it is only a shrine and that the true Mosque of Omar is a small vault-like building in no way connected with the sacred rock.

Mohammedan worship is as yet undisturbed by the victory of the Christians, the chief difference being that the Mohammedan is now the tenant and the unbeliever the landlord.
