THURSDAY, APRIL 3, 1919.

THIRTY-FIVE YEARS AGO.

Paragraphs of News Taken from the Files of the Reporter of 1884.

August 6, 1884. The lecture by General Fisher, at An-ransburg, brought the Reformed con-gregation some \$60.00. Henry Frankenberg, one of the old-est inhabitants of Penn township, died on Tuesday of last week. Dr. G. W. Kline, of Pottery Mills, is lying in a very critical condition from a severe attack of typhoid fever. Dr. Runkle, of Philadelphia, is visit-ing friends in the valley. The school opened at this place by Prof. Houtz, of Rock Springs, was closed the other day, on account of small at-tendance. A number of railroad hands were com-pelled to work last Sunday in order to repair a small bridge on the road, a mile west of here, that had settled and was unfit to run over with the construction train.

AARONSBURG.

Mrs. William Wolfe, who is a sufferer with the flu, is gradually improving. Mr. and Mrs. H. D. Kreamer are on a visit to the homes of their children in Butler, Jeannette and Winburne. David, a son of Walter Orwig, was a very sick boy for several days last week. William George, of Fiedler, sold his property to Arthur Weaver. Consideration \$225. Harry Crouse, of Selingsgrove, visited at his home over Sunday. Mr. and Mrs. John Haines, on Tues-day evening, invited Prof. Gessner and the High school students at their home where their daughter, Miss Marion, en-joyed in making the evening one of enjoyment for the guests. The finest cake and home-made candy served as re-freshments. Mr. and Mrs. Leroy Mensch and three little girls, of Altoona, visited last week at the home of the former's parents. A number of relatives attended the funeral of Allen Kreamer, of Penn Hall, at Woodward, on Monday. Mr. and Mrs. Wilmer Stover autoed to Muncy, on Sunday, to the home of Wil-iam Harter where they met their son, Victor Stover, who recently returned from Akron, Ohio.

State Agricultural Notes.

Is the machinery ready for spring work? If not, better look it over now. Less than five per cent. of the cattle in the United States are pure bred. York ranks first among the counties in Pennsylvania in the number of can-neries. It is estimated that about 98 per cent. of the onions grown for commercial pur-poses in the United States are grown from seed. Never so much plowing done during the month of March as this year; nei-ther were the roads in such good con-dition, is the word that comes from In-diana county. The consensus of opinion this year is that there is plenty of good seed corn. However, the wise farmer will not take it for granted but will test his seed to make doubly sure. All who have an ex-tra supply of good seed should take pains to save it against possible future need. No man knows what Jack Frost and other elements may do to the crop this year and good seed properly taken care of will suffer no deterioration within the next twelve months.

Newspaper Changes Hands.

The Mercersburg Journal, a weekly newspaper which was published at Mer-cersburg, by George A. Fleming prior to his death from influenza several months ago, was purchased by Mrs. Emma Steele, of Mechanicsburg, for her nephew, H. C. Thomas, who will re-sume publication of the paper within a few weeks. Mrs. Steele has been publisher of the Mechanicsburg Journal, at Mechanics-burg, since the death of her father, the late R. H. Thomas, a prominent Grang-er.

Phillipsburg Has Costly Fire.

Phillipsburg was the scene of another costly fire which was discovered shortly before five o'clock Thursday morning in the Grant block, corner Front and Pres-queisle streets, and which, before the flames were controlled, virtually gutted the second and third stories, and spread to the Dunwiddie residence, which was also badly burned and contents damaged by both fire and water.

Tenants on the second floor, where the fire originated, were: Dr. F. K. White, dentist, whose equipment, valued at \$4,000, was destroyed, insurance, \$1200; Bell Telephone Company, \$10,000 loss; Huntington & Clearfield Company, \$6,000; the Misses Adams furniture and personal property, complete loss, insur-ance, \$1,000.

The third story was occupied as a lodge room by the two Masonic organ-izations. All their property, valued at \$6,000 was destroyed. They carried \$3,450 insurance. The Moshabnon chapter of the Red Cross rented a room from the Masons, where it had headquarters and a work room. The Red Cross car-ried no insurance, and among the losses were eight sewing machines, 500 pounds of yarn, 50 sweaters, 100 suits pajamas, 115 kiddy dresses, 200 petticoats, 65 skirts, 60 camelshair convalescent robes, 75,000 yards of sewing cotton, scissors and buttons.

Most or probably all of the damage on the first floor was from water. Trout-man's drug store was deluged. His loss is nearly complete. Ibberson's carried a stock valued at between \$15,000 and \$18,000 in millinery and ladies' furnis-hings, and had \$6,000 insurance. Most of the stock in this store is hopelessly ruined. A. W. Marks' shoe store also suffered from the water. He carried a big stock and it was likely much dam-aged. His insurance was \$6,000.

GIVE INSIGHT TO CHARACTER

Shape of Eyebrows Reveal Vigor, in-sincerity, Lack of Vitality, and Many Other Things.

It is now conceded that the Greek eyebrow is quite in accord with the conception of mere physical beauty in women. Like the rosebud mouth, it does not indicate the highest order of intelligence and the arch is expressive always of greater sensibility and greater sense of character, says London Tit-Bits.

Scant growth of the eyebrows invari-ably denotes lack of vitality; on the contrary, heavy, thick eyebrows indi-cate a strong constitution and great physical endurance. They are not beautiful on a woman's face, however much they may signify either mental or bodily vigor, and when they are not only heavy, but droop and meet at the nose, they are disagreeable and are said to accompany an indolence and prying nature.

Romantic women usually have a very well-defined arch in the center of the eyebrow, while a sense of humor is in-dicated in the arch nearer the nose. Long, drooping eyebrows, lying wide apart, indicate an amiable disposition. Where the eyebrows are lighter in color or than the hair, the indications are lack of vitality and great sensitiveness. Faintly defined eyebrows placed high above the nose are signs of indolence and weakness.

Very black eyebrows give the face an intense and searching expression, when natural, they accompany a pas-sionate temperament. Very light eye-brows rarely are seen on strongly intel-lectual faces, although the color of the eyebrows is not accepted simply as de-noting lack of intelligence; the form gives the key to the faculties and the direction. Red eyebrows denote great fervor and ambition; brown, a medium between red and black.

ONLY NEEDED TO BE FED

Simple Reason Why Imported Engine Could Not Be Percuaded to Do Its Duty.

The first locomotive used on the Champlain & St. Lawrence railroad came from Europe, accompanied by an engineer who, for some unexplained reason, had it caged and secreted from public view. The trial trip was made by moonlight, in the presence of a few interested persons, and it is not de-scribed as a success. Later, the im-porter engineer made several attempts to set the Kitten—for such was the nickname applied to this pioneer loco-motive—in motion toward St. Johns, but in vain; the engine proved refrac-tory, and horses were temporarily sub-stituted for it.

Meanwhile, the railroad officials called in a practical engineer from the United States, who announced that the engine, which was thought to be hope-lessly unmanageable, was in good or-der and required only plenty of wood and water. His opinion proved cor-rect, for after a little practice the en-gine attained the extraordinary speed of 20 miles an hour!—Fruit's Railways of Canada.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was sup-posed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional con-ditions and therefore requires constitu-tional treatment. Hall's Catarrh Medi-cine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the Mucous Surfaces of the System. One Hundred Dollars re-ward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. See Hall's Family Pills for constipation.
