The Usual Thing.

"Eh-yah! Spring is almost at hand," admitted the landlord of the Petunia tavern. "Those gents over yonder on the sunny side of the court house are engaged in garden talk. They are advising each other as to what vegetables are the most profitable and the surest to yield abundantly, those that are the least affected by dry weather or long wet spells, and those which will soonest produce food for the table."

"Ah! Then there will be a great deal of gardening done this spring?" commented the spectacled guest.

"No. They will do a great deal of talking about doing a great deal of gardening until it is too late to do any gardening this spring, and then reluctantly put it off until next spring."—Kansas City Star.

acid-stomach is the real cause of the trouble. Naturally, the sensible thing to do is to strike right at the very cause of this trouble and clean the excess acid out of the stomach. There is a quick, easy way to do this. A wonderful new remedy quickly removes the excess acid without the slightest discomfort. It is EATONIC. Made in the form of tablets—they are good to eat—just like a bit of candy. They literally absorb the injurious excess acid and carry it away through the intestines. If EATONIC does not relieve you, it will not cost you one penny. You can return it to your druggist and get your money back. So if you have the slightest question about your health—if you feel you are not getting all the strength out of your food—if you are not feeling tip-top, ready for your work, full of vim and vigor—do give EATONIC a fair trial this very day and see how much better you will feel.

In 1905 the alliance was further extended to provide for the defense of British interests in India and Afghanistan, while England agreed to give Japan a free hand in Korea. In 1911 it was again modified by the agreement that Great Britain should not be bound to aid Japan against any power with whom she had a treaty of arbitration—thus excluding the United States as a possible enemy. The alliance has been extended to 1921.
