The Reporter is pleased to note that Mr. Robertson has practically recuperated his somewhat impaired health. During his enforced absence from his drug business, Mrs. Robertson has very capably taken care of the business.

In last week's issue of the Reporter appeared an item relating to a lost fisherman in the Seven Mountains, close to Walter Garry's headquarters. We were unable at the time to learn the name of the man who spent a night in the open, but the Bellefonte (Mifflin county) Times states that the party was D. S. Smucker and that he was so interested in taking game fish until late in the afternoon that in making an effort to find Garry's headquarters, he lost his bearing and wandered about ten miles in the wrong direction. Realizing his position he cleaned a place for the night between two large rocks and to kill the chilly air he started a fire where he spent the night with no companions but a bunch of deer and several stray dogs.

At the present time Mr. Kerr is a traveling accountant in the dining car and hotel department of the Union Pacific System, with headquarters at Ogden, Utah. He is constantly traveling and covers that great expanse of territory west of his established headquarters to the Pacific coast. While in Centre Hall he was the guest of his aunt, Mrs. M. E. Strohm. He left on Wednesday morning for Philadelphia and other points in the east.

**DEPARTMENT OF LABOR
OFFICE OF THE SECRETARY
WASHINGTON**

The Victory Liberty loan is the biggest, most definite step toward reconstruction taken by the United States. Without it, all the plans for putting industry and labor on a basis of permanent prosperity would be unavailing.

This is labor's Loan. It will do much more than pay war bills. For every dollar of this Loan will flow back into American pockets. It will do its part in promoting unexampled prosperity—neither temporary nor inflated, but built on the bedrock foundation of legitimate, necessary expansion.

Industry is counting upon final payments of war contracts to provide the working capital for top-notch peace production. The money to make these payments must come from the Victory Liberty Loan.

Every working man who does his level best in this Loan is taking out job insurance.

W. B. Wilson
Secretary of Labor.

**WORKERS AND FARMERS
RALLY TO LOAN**

Leaders Pledge Aid to Last Campaign.

Organized labor, farmers and others, in the Third Federal Reserve District have rallied to the support of the Victory Liberty Loan in answer to the call issued by William B. Wilson, Secretary of Labor.

Labor unions, as a whole, and the working men as individuals, fully realize the situation in which the government is placed by the war, and are willing to do all in their power to provide the necessary remedy—finance.

"Labor is going to give its utmost endeavor toward the success of the Victory Liberty Loan campaign," said Frank Feeney, national president of the Elevator Constructors' Union.

"Any statements alleged to have been made by labor leaders in any part of the country purporting to say that labor is not in sympathy with the final war loan are untrue.

"Labor is behind the loan to the limit. Such alleged statements are merely Bolshevik propaganda and by no means express the sentiments of any one connected with an accredited labor organization."

In speaking to the farmers of the nation, Oliver Wilson, Master National Grange, said:

"For the fifth time the government is appealing to the people for financial aid. On the four previous occasions money was needed to win the war and people of all classes liberally responded. Now the call comes for a Victory Liberty Loan, a loan which, now that the fight is won, is necessary to aid in finishing the great task of assuring to all peoples Liberty and democracy, that our struggles and sacrifices of the past few years may not have been in vain.

"I desire to appeal to our entire Grange membership and farmers generally to maintain the proud record we have made in the previous loans. Not only subscribe what you can, but give the matter prominence at your Grange meetings and encourage neighbors and friends to do their part toward fulfilling this our great national responsibility."

Labor Backs Loan.

Just as in the preceding loan campaigns, labor organizations in this district have formed a campaign committee of which William Tracy, former Magistrate, is secretary. Joseph Richie, of the American Federation of Labor, who is chairman, said:

SPRING MILLS.

H. Rossman Smith, of Johnstown, who returned recently from France, spent a few days with his uncle, John and William Smith.

Word has been received that Mrs. W. M. Grove, who has been in poor health for some time, is not improving.

Dean Braucht and John Corman attended the graduation exercises of the nurses, at Bellefonte hospital, Friday.

Mrs. Hendershot's sister spent Sunday with the Hendershot family.

Allison Brothers have sold their flour mill, grain house, coal yard, etc., to Messrs. Dennis and Fetterolf.

William Steel and family spent Sunday with Harry Allison and wife.

Master Walter Shook, a lad of five years, is suffering from rheumatism.

Robert Musser has returned from Altoona, where he spent the winter.

This place was well represented at the Sunday-school convention at Penn Hall on Friday evening.

Mrs. Orvis Winkleblech is visiting relatives in Maryland.

Do not forget the Liberty Loan meeting on Saturday evening.

Quite a number of our school teachers expect to go to the Lock Haven Normal for the spring term.

"This committee is active in urging all organizations as a whole and the individuals connected with them to do their utmost in paying their share, and more than their share, of the bills of the war. Every meeting of labor men held in this district gives a portion of its time to discussing payment of the government's just debts through the medium of the Victory Liberty Loan.

"Literature, too, urging every working man to do his best for the campaign will be sent by the committee to every organization.

"There are not enough words in the English language to express my approval of the Victory Liberty Loan campaign and the liberal terms on the securities, as announced by Secretary of the Treasury Carter G. Cass. This, too, is the attitude of every working man. We are going the limit and then some."

Mr. Tracy expressed a similar opinion and pointed out that labor is supporting the loan through patriotic motives and because it is good business.

"A great portion of the moneys derived from the loan," Mr. Tracy said, "will be used for work of reconstruction, which means that it will revert to the working man. Expenditures for reconstruction work will provide employment for thousands and any person who failed to support the loan would be merely hurting himself."

Mr. Richie declared that there is no doubt that union labor will support the new loan.

"The men realize that the war cost a great deal of money, and that there are many bills still to be paid by the nation. We all know that if the money is not secured through the Victory Liberty Loan the government will be forced to tax the people more heavily. To offset the heavy taxes that we know would result if the new loan should fail, we will invest in the government securities."

TROPHIES FOR DISTRICT

Nearly seven hundred captured German helmets, taken principally in the Argonne Forest, were distributed among the nine New Jersey counties in the Third Federal District, and 210 in the three counties of Delaware, as follows:

New Jersey	Mercer county	144
Atlantic county	Ocean	38
Burlington	Salem	45
Camden	Delaware	38
Cape May	Kent County	36
Cumberland	New Castle	144
Gloucester	Sussex	36

Under the rules of the Treasury Department, they are to be distributed to subscribers in competitions, such as auctions; and to organizations, such as schools and Boy Scouts, in competition with similar organizations.

Bees.

Let the bees build your bank account. They work for nothing and actually increase the crops they forage amongst. The poor bee's only shortcoming is its sting. That one thing has prejudiced the world against it almost to the exclusion of its fine qualities for a long time.

The Pennsylvania Department of Agriculture reports that the honey and wax produced in this State during 1918 was worth over a half million dollars.

If you will try out a few colonies and handle them efficiently, they will pile up honey and money for you and prove a 100 per cent investment.

Information relative to the bee industry may be obtained from the Bureau of Zoology, Department of Agriculture, Harrisburg, Pa.

'Reasons Why'
(Continued from first page.)
National Credit, and lower prices.
First National Bank, Howard, Matthew Rodgers, Jr., cashier.—First: This bond is a good investment because it has more than one hundred and ten million good endorsers. Second: Four-fifths of this good investment is already paid in; to fall on the fifth installment is to lose out. Third: It is good Americanism to finish the job and bring the boys home.
