The Old Lady Again.

"Yes," said Mrs. Blunderby, "my nephew is home again, and you should just see his collection of mementos of the war."—Boston Transcript.

Didn't Really Mean It.

An old lady walked into the judge's office.
"Are you the judge of reprobate?" she inquired.
"I am the judge of probate," replied the old lady. "You see," she went on confidentially, "my husband died detested and left several little infidels, and I want to be their executioner!"—Chicago News.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.
For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weakness and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is included in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a swallow of water. The oil stimulates the kidney

action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease.
Do not wait until old age or disease have settled down for good. At the first sign that your kidneys are not working properly, go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

Physicians Recommend Castoria

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you: the doctors with souls and hearts; those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

CASTORIA

Do the People Know?

Do you know why you are asked to call for Fletcher's Castoria when you want a child's remedy: why you must insist on Fletcher's? For years we have been explaining how the popularity of Fletcher's Castoria has brought out innumerable imitations, substitutes and counterfeits.

To protect the babies: to shield the homes and in defense of generations to come we appeal to the better judgment of parents to insist on having Fletcher's Castoria when in need of a child's medicine. And remember above all things that a child's medicine is made for children—a medicine prepared for grown-ups is not interchangeable. A baby's food for a baby. And a baby's medicine is just as essential for the baby.

The Castoria Recipe (it's on every wrapper) has been prepared by the same hands in the same manner for so many years that the signature of Chas. H. Fletcher and perfection in the product are synonymous.

Artificial Warmth.

"What's the idea of the gas stove and the fur overcoat?"
"Isn't it April?" asked Mr. Penwick.

"It is."
"April with the balmy breezes and the skies of blue?"

"That's according to popular fancy."
"There you are. There's no use trying to turn out delicate creations of thought about April unless by some means you can provide a temperature approximately reasonable."

The needless infantile death rate owing to neglect and ignorance costs this country \$3,000,000 a day.

The hand that rules the dyspeptic makes the pie.

Less Wool Used.

Reports from manufacturers as received by the bureau of markets, department of agriculture, show that there was less wool used in February than at any time since such statistics have been compiled. The February consumption amounted to 27,500,000 pounds in the grease, compared with 63,700,000 pounds in February of last year. Strikes which shut down mills and the inability of small mills to secure wool because the wool sold by the government at auction was sold on a cash basis, furnished the reason for the small February consumption.

Apprehension.

"Sir, your talk is a tax upon my patience." "Good heavens! Is even talk going to be taxed?"

On the Job.

"He had a clever way of getting votes."
"So? What was it?"
"Passed out cigars to the women."
"I should think that would have defended them."
"Not at all. Told them to take them home to their husbands, and they all fell for the plan."

Can't Be Done.

"Got any jack with you, matey?" asked the gov. "Split it fifty-fifty with me, will yer?"
"Can't do it, old pal. I ain't got that much."

The man who goes around wishing he had never been born is not the only one who regrets it.

Have you ever heard this?

"My baking powder," says the smooth solicitor, "costs less than Royal."

But he omits to say that it often leaves a bitter taste, that food made with it is likely to stale in a day and that it contains alum, which is condemned by many medical authorities for use in food.

England and France prohibit the sale of alum baking powders.
