

WAS IN MISERY

Mrs. Jobes Was in Serious Condition From Dropsy. Doan's Made Her Well.

"I don't think many have gone through such misery as I," says Mrs. C. Jobes, 139 Federal St., Burlington, N. J. "That awful pain in my back felt as though my spine were crushed. My head ached and I had reeling and falling sensations when everything would turn black, though the kidney secretions passed ten or fifteen times in an hour, only a few drops came at a time and they felt like boiling water. I soon found I had dropsy. I bloated all over. My face was so swollen I could hardly see out of my eyes. My ankles and feet felt as though they would burst if I put any weight on them. My night clothes became wringing wet with sweat and I would get chilly and shake all over. Doan's Kidney Pills soon had me feeling like a different woman. My kidneys were regulated and all the swelling went away. The aches and pains left me and after I had finished my eighth box of Doan's, I was as well as ever. My kidneys have never bothered me since Doan's Kidney Pills cured me."

Subscribed and sworn to before me, J. LEEDOM SMITH, Notary Public.

RED FLAG BILL WILL BE PRESSED

Congress to Deal With the Bomb Senders

LAWS AGAINST ANARCHISM

Penalties For The Use Of Infernal Machines Also To Be Increased—New York Authorities Work On Clues.

Washington.—Immediately upon the convening of Congress laws providing for more drastic treatment of anarchistic citizens in this country will be enacted. Democrats and Republicans, favor important amendments to existing statutes dealing with bomb makers and bomb senders.

"Congress should pass without delay," said Senator Harry New, of Indiana, "my bill to declare unlawful the exhibition of a red flag and couple with it a provision that will cover the sending of infernal machines through the mails to persons picked for slaughter. The bomb incidents of the last few days will hasten action on these measures in Congress."

Four separate propositions will be presented to Congress by proper Government officials:

1. The New-Walsh bill, which was reported to the last Senate, but died on the calendar, will be urged to prevent riots over the red flag.

2. A recommendation that the penalty for sending infernal machines through the mails be greatly increased will be made.

3. Some form of license for the sale of materials that can be made into bombs will be required.

4. Amendments to the law providing for the deportation of aliens will be requested by the Department of Labor.

If the person or persons who sent bombs to Mayor Hanson, former Senator Hardwick, Representative John L. Burnett, Senator Overman and others are detected and presented they will be prosecuted under the postal law.

The proposed amendment to the postal law will deal specially with infernal machines, and the penalties will be materially increased.

A provision covering conspiracies to kill will be considered. In many of the States there are covering conspiracies to kill, and these will be invoked against the bomb senders.

The new bill will make it unlawful for any person to advocate the overthrow, by force or violence, or by physical injury to any person or property, or by general cessation of industry, of the Government of the United States or of all governments.

The display of any flag or emblem symbolizing a purpose to overthrow the Government of the United States or any government will be declared to be unlawful. The penalty is to be \$5,000 fine or five years' imprisonment, or both.

ALL HOME BY SEPTEMBER.

Europe Soon To See Last Of American Expeditionary Force.

Washington.—Determination of President Wilson that no American troops shall continue on German soil for a longer period after the signing of the peace treaty than may be necessary to embark them for home, is borne out by present plans of the War Department, which contemplate the return of the entire American Expeditionary Forces by September.

Because of this General March, chief of staff, is making every effort to speed up the demobilization in this country.

The September date represents estimates by embarkation officials as to the maximum possible speed in withdrawing the entire force in Europe, including the troops holding the Coblenz bridgehead sector on the Rhine.

If anything, officers anticipate that the movement will be accelerated rather than retarded. The schedule has been exceeded recently and is increasing measure from week to week, and with an indicated monthly movement of 450,000 men, the best predictions of General March and his aids bid fair, it was said, to be more than realized.

CHINESE ISSUE STATEMENT.

Declare Japan Has Virtually Been Substituted For Germany.

Paris.—The Chinese delegation to the Peace Conference issued a statement with regard to the decision of the Council of Three concerning Kiao-chau. The statement explains that the decision of the conference virtually substitutes Japan for Germany in Shantung, and adds to the Japanese railway rights in Southern Manchuria. The decision, the statement says, gives Japan practical control of Northern China.

WITH AN EYE TO THE FUTURE. Prima Donna Had Good Business Reasons for Asking for Slight Change in Contract.

Senator Lodge sounded the warning that the articles of the league of nation should be weighed carefully before being adopted. He asserted that too many ties might well jeopardize our future.

"Indeed," we may well follow the example of the prima donna who was reading a rough draft of her new contract.

"When she came to the paragraph providing that she should have transportation for herself, her maid, her dog and Sig. Gazibeni, her husband, she drew a line through the singer's name.

"Just make that husband," she said. "Yes, madam," assented the manager, "but may I ask why?"

"The diva blushed and coyly fingered her hair. 'I might wish to make a change,' she answered."

Nothing Like Education. An ostrich stood with stuffed rigidity in a store window, with two small boys looking in: "Gee, look what a great big swan." "The boy with him knew better. "That isn't a swan. That's an old he-buzzard."

Which shows what a fine thing it is for some boys to live where they can have the advantage of public education and a zoo.—Washington Star.

Seamen the world over entertain the belief that renamed ships are unlucky.
