

"FAKE" ASPIRIN WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer which later proved to be composed mainly of Talcum Powder. "Bayer Tablets of Aspirin" the true, genuine, American made and American owned Tablets are marked with the safety "Bayer Cross."

Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package which contains proper directions and dosage.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

A Bit Slow.

"Do you know that my daughter is an extravagant young woman, sir?" "I have—surmised that she is," replied the suitor, hesitatingly.

"By George, sir! If you've been unning around with my daughter for a twelvemonth and haven't got any further than a mere surmise, you lack the perspicacity I would like for my son-in-law to possess."—Birmingham Age-Herald.

PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit. The kidneys are the most over-worked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes, look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, loss of appetite, indigestion or rheumatism. Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Get a trial box of GOLD MEDAL Haaslem Oil Capsules, imported direct from the laboratories in Holland. They will give almost immediate relief. If for any cause they should not, your money will be refunded. But be sure to get GOLD MEDAL. None other is genuine. In sealed boxes, three sizes.—Adv.

MANNER OF TRIMMING

Demand for Decorations Is Grati-fied With Novelties.

Difficult to Turn Frivolous and Many Still Dress on a War-Reduced Income.

It is the way of fashion to be forever elusive, as it is the way of women to be forever in search of something new. If she does not find charm of new interest in the silhouette, then she looks for novelty in material or in the manner of trimming. This season finds the slender silhouette still holding first place in the fashion world. It remains slim, perhaps slimmer, but the whims of woman must be gratified by the vast variety and novelty of trimmings, materials and accessories for this season.

Fashion has grown very serious during the last four years, and it is difficult to turn frivolous "over night." For the woman who is still dressing on a war-reduced income, it is wise to choose fashions that are established, gowns and suits fashioned after those most favored by the conservative woman, says Vogue.

The top coat or motor coat is perhaps the most important piece in her wardrobe. To a woman who travels, this coat is invaluable, and its uses are many.

When dull copper tricolette is made up into a two-piece dress of simple becoming lines, it immediately becomes a garment of service, and is quite as appropriate for town as for country, as appears in a gown of this material which was seen recently. The top part of the dress is made like an over-dress. The straight lines and unbroken simplicity made it a model suited to either matron or debutante. Four straight panels of the blouse fall over the straight skirt.

Oyster white pussy-willow taffeta makes another country suit. The original idea of quilting and embroidering it in navy blue silk comes from Lanvin. The straight box coat is embroidered all over and has a deep rolling collar ending where two large navy blue buttons fasten the coat. The crocheted girdle is finished with weight-like tassels of blue silk. The deep hem of the skirt is marked with the quilting and outlined with embroidery, an effect which is very new. The skirt is very smart worn as a separate sports coat, and may be used with a sports skirt of white silk or navy blue pussy-willow taffeta.

EMBROIDERY ADDS TO BEAUTY

Lavish embroidery on the side of this attractive coat makes it a creation of exquisite beauty. The coat is of navy blue satin. The embroidery is of blue chenille. The same motif at the side of the dress is carried out on the sleeves and the collar. The blue and maroon silk belt and straps on the coat are all in one piece.

CHEMISE OF DIFFERENT TYPE

Undergarment of Days Gone By Not Like the Abbreviated Style of Today.

Underlines follows the fashion like every item of dress, and of late, says a writer in the London Gentlewoman, there has been a decided curtailing of an undergarment that once reached the ankles. Nowadays it starts at the bust, has narrow satin ribbons upon the shoulders to keep it in place, and stops above the knees. How our grandmothers would have opened—or shut—their eyes! But these short chemises have their practical side. Let me explain. As everybody knows, it is always the bottom of the chemise that

BEAUTIFUL SUMMER GOWN

This lovely gown for summer occasions is mouse color with white beads and red and orange embroidered flowers. The hat is brown and navy flowered chiffon, brown glazed milan and little chestnut burrs as trimming.

lasts longer than the top, and when the latter begins to show signs of wear beneath the arms, as is the nature of fine fabric or linen undergarments, economy that has been practiced in so many forms during the war, has taught us to cut away the worn portion and join the embroidery or lace, or whatever the trimming at the bust may be, to the lower part and thus make a new short chemise out of an old long one.

Silk chemises are very general in Paris, as linen is such a scarce article in France since the disasters in the North. Pale pink is to be seen in the leading atteliers, with natter blue embroidered and the same blue shade in ribbons.

TO MAKE A PRETTY PARASOL

Little Flowers With Camouflage Leaves Add to the Beauty of the Sunshade.

One of a new collection of lovely parasols can very easily be copied by the girl who is only moderately clever with her needle. She may either buy a plain silk one in any of the pastel shades, and decorate it, or she may even dress up last year's one to look like new. The idea is this: At intervals about the edge is a little flower with two camouflage leaves. The flower is made of little shirtings of georgette crepe and there is a little loop of the same material on either side of the little round group of shirtings to suggest the leaves. Those applied flowers may be of the same color as the parasol or they may all be of different pale shades. A Dresden color scheme would be lovely indeed. Whatever colors you choose, however, you will find that your parasol to carry when you wear summer things is quite the daintiest you have ever seen.

COPYING THE BRAID DESIGNS

Quick Method of Tracing Better Than Use of Transparent Paper and Pencil.

Often, in planning a new dress, there is an especially pretty piece of braided design on some old gown that takes your fancy and which you would like to repeat, if possible, as trimming for the new. Unless you are unusually expert in freehand it is out of the question to reproduce the graceful curves and proportions of the original in making your transfer upon the new goods. A quick method of tracing, better even than the use of transparent paper and pencil and tracing the design as the map at school was traced, is to cover the design with fine tissue paper and then rub over the entire area below the paper lightly with a heavy crayon. As the crayon strikes the braid below the paper it leaves a darker impression which faintly reproduces the design.

Rub the crayon in one direction only.

Hats on Suits.

At this time of the year there is always a tremendous showing of sports hats and delightful drooping brims with trailing ribbons and pretty pale flowers. Many models are made up in pale pink, blue or white silk. The prettiest fad of the moment is that of having sweaters, hat and parasol to match. The hats with very wide brims are charming when made up in suits in this way, and many of these hats were exhibited early in the season for the benefit of Southland visitors.

"CALLUS CORNS" LIFT RIGHT OFF

Apply a few drops of "Freezone"—No pain!

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

Weak From Pain

Mrs. Gibbert Was in Misery, But Doan's Brought Her Splendid Health.

"About 15 years ago my kidneys were in bad condition," says Mrs. Lucy Gibbert, 1219 Columbia Ave., Harvey, Ill. "There was a constant, dull, bearing-down pain in the small of my back. I couldn't turn over in bed without such pain I could hardly breathe. Mornings I was stiff, sore and lame all over; my back was like a rusty hinge. "Inflammation of the bladder nearly drove me wild. The kidney secretions passed every little while, day and night, a little at a time, and burned like fire. Great sacs of water formed under my eyes. "I was in such misery I would become weak and so nervous I would scream. I had nerve-racking headaches and the back of my neck pained me. I was so dizzy I didn't dare bend over for fear of falling on my face. My sight became blurred. I was sick all over. "Five boxes of Doan's Kidney Pills cured me of kidney trouble. Since then I have enjoyed splendid health and I owe it all to Doan's. Sworn to before me. SAMUEL DANICK, Notary Public.
