WASHINGTON WEEKLY CHAT.

What does a Congressman do with his leisure hours in summer in Washington after a hard day's grind of work at the Capitol and around the government departments? He must have some recreation and relaxation, the same as other busy people, and he finds it in many ways.

Many members of Congress brought their automobiles with them when they came from their homes in the States, and they are parked in great numbers in the wide plaza fronting the Capitol Building, and when Congress adjourns for the day, Mr. Congressman can be seen scooting down the Capitol steps and drives away to seek a cooling swim in the Potomac River.

Many frequent the roof gardens atop the big hotels, where they enjoy dinner in the open air and listen to the music of the jazz bands. Attractive country clubs claim many of them as members; boat trips down the Potomac River, excursions to Chesapeake Bay, open-air picture shows and long trolley rides—all come in to help Mr. Congressman refresh mind and body and keep him fit for his arduous daily tasks.

Put it in the Bill. The habitual customer, Mr. Feedwell, would often condescend to chat with the head waiter. One day he said very seriously:

"Look here, I don't often complain, but this pepper of yours is half peas!" "Oh, no!" said the head waiter indignantly. "I see that that myself. We grind our own pepper."

"But I tell you it's half peas," said the customer. "and I'll prove it! P-e-p-p-e-r—half 'p's. You see!"

And he laughed until the tears came. The head waiter smiled weakly, and went to get the customer's change. He returned still smiling. The customer glanced through his change.

"Threepence short," he said. "I think not, sir," said the waiter. "Sixpence for peas, sir. Now—half peas!"—London Tit-Bits.

Helgoland. Helgoland lies in the North sea, 40 miles northwest from the mouth of the Elbe. It consists of a steep, rocky plateau, 184 feet high, with a strip of firm sand at its southerly foot. Its area is about 123 acres. Kaiser Wilhelm is said to have expended \$50,000,000 on the practical reconstruction of the island; it is fortified against sea and cannon alike with great granite buttresses 16 feet thick and 240 feet high on all sides. Even the fissures in its cliffs have been filled up and bound together with ferro-concrete—thousands of tons of it. The little island is wholly incased with a cemented belt of armor, fortified with modern ordnance.

That Silk Mill.

On Saturday, F. Q. Hartman, of Danville, a gentleman of wealth and owner of a number of silk mills in small towns throughout the state, was in Centre Hall looking for a site on which to locate a similar industry.

Mr. Hartman is the same gentleman who purchased a site for a mill in Millheim. He is not asking concessions or subscriptions from citizens, but the Reporter presumes he will not wish to pay more than a fair price for the acre of land he is in quest of.

Lad Breaks Arm.

Richard Slack, eight-year-old son of Mrs. George B. Slack, had the misfortune to fall on Monday afternoon while at play at the home of his grandparents, Mr. and Mrs. J. W. Tressler, west of Centre Hall, and fracture his arm above the wrist. The little fellow was at once taken to Dr. H. H. Longwell who reduced the fracture.

Marriage Licenses.

Frederick W. Seibert, Munson; Clare Dunzik, Munson; Angus Wellers, Julian; Maggie Burd, Unionville; Taylor Martin Pogman, Runville; Gertrude J. Erb, Runville; Andrew Adams, Belson; Nellie Marsh, Nicktown; Edgar W. Sommers, Altoona; Carrie M. Gettig, Pleasant Gap; John H. Mac Indoe, Arcadia; M. Marie Lucas, Unionville.

New System of Rewards.

To take the place of the bonuses of 50 per cent of the amount expended by townships for road work, not exceeding \$20.00 per mile, a new system of rewards will be allowed townships under a law just now operative.

The rewards equal one-third of the cost of improvements, but the improvements must be of a character defined by the state, and include grading and draining a section of road; graveling or cindering a graded and drained section; macadamizing or for constructing a Telford macadam section; for constructing a concrete, brick or bituminous surfaced section; all sections of road constructed must be at least one-half mile in length. Bridges are also included in the new law but must be built as provided by the state.

The new measure will not permit recovery of any part of the expense of the construction of roads, where the former haphazard methods are employed. It is therefore the townships that build road systematically and according to the better methods that will profit by this change of the road law.

Lightning Destroys Two Union County Barns.

The barn on the farm of Daniel Miller near the dam northeast of Millinburg, was struck by lightning and completely destroyed. There were no cattle or horses in the building at the time, only a few hogs and chickens.

On the William Eberhart farm, just west of Rand, and tenanted by Edwin Robenolt, lightning struck and destroyed a large barn including this year's hay crop with the exception of two loads which were still in the field. All the stock was saved.

Boys Playing Cowboy, Kill Small Companion.

Three year old Paul Woodling, son of Mr. and Mrs. George Woodling, Jr., of Freeburg, was shot and instantly killed, last Friday when with a couple of boy companions they were playing cowboy in true western style. The companions of the Woodling chap were Wesley and Kenneth Fonastuck, aged 8 and 12 years respectively.

The boys took the shotgun from the Woodling wood shed and not knowing it was loaded proceeded to play cowboy, with the Woodling boy being the "bad man". The accident followed.

Attention, veterans! The 45th annual basket picnic of the C. C. V. C. will be held in the Miles grove near Martha, on Saturday, August 23, all day, with the Williams reunion. As this is the first meeting of the veterans in 39 years in Bald Eagle valley (last held at Unionville, 1880) let there be a good turnout. Posters out later.

State Agricultural Notes.

Sell your grain crops in the form of beef, mutton, pork and dairy products. No modern farmer can afford to have a grade sire in use. It means delay in improvement and loss in herd value and production. A breeder will win out only in choosing high grade pure bred sires.

China and Japan are shipping eggs to the Pacific coast states. The Chinese eggs are small and brown resembling a guinea egg. Japanese eggs are larger in size, white and brown, with the colors separated and the cases marked as to the color.
