

THIRTY-FIVE YEARS AGO.

Paragraphs of News Taken from the Files of the Reporter of 1884.

December 10, 1884.
Major Fisher, of Penn Hall, intends refitting his mill at Farmers Mills with improved machinery.

[The editor says, a quarter of good beef will be taken by us on subscription. No wonder, the next item states that dressed pork sells at 5 1/2 to 6 cents per pound.]

Houses are scarce here—no doubt a dozen or more could find renters between this and spring. Lots can be had at reasonable figures in the direction of the railroad, and with houses erected on them the investment would undoubtedly pay.

A man by the name of Kite, from Hecla, killed two bears in Greens Valley, north of Centre Hall, last week.

Willis Rishel, of near Centre Hall, lost one of his horses. It got loose in the stable a few nights ago and had a leg broken from a kick by another horse and had to be shot.

Yony From, Perry Krise and two other hunters brought four deer from the Clearfield woods last week.

Another improvement has been staked off at the station and work begun on it. I. J. Grenoble will erect a building for a store and dwelling 70 by 35 feet. Mr. Bartholomew, we understand, will occupy it when finished for store and dwelling.

Mr. Camp has purchased the house, lot and shop, belonging to John Hoffer, at the lower end of town and will erect additional buildings for dwelling and furniture shops in the spring.

Died.—Near Tusseyville, Dec. 5, Michael Ulrich, aged 81 years and 4 months.

U. S. Food Stocks Offered Direct to Public.

First steps in the federal government's attempt to reduce the high cost of living were taken a few days ago with the inauguration of a plan for the sale of \$125,000,000 worth of army food stocks direct to the people with every postmaster and mail carrier over the country acting as a salesman.

A price list covering the entire available surplus will be prepared at once by the war department.

By the adoption of this plan for the sale of the foodstuffs direct to the consumers it is expected that a great saving will result. The postmasters and carriers, under the arrangements made at Washington, will act as government salesmen, informing interesting consumers of the prices and methods of sale and taking orders for the foodstuffs. The shipment to each city or borough can be made to include all the orders from that place, after which distribution can be decided on.

Fighters Paid Heavy Tax.

Taxes levied by the government on the \$100,000 which Jess Willard received when he lost his heavyweight boxing title to Jack Dempsey, decreased the amount to \$58,500, according to figures just announced by E. J. Lynch, an internal revenue agent of New York city. Dempsey actually received \$23,970 of the \$27,000 called for in his contract. The former champion paid a normal tax of \$7,840 and a surtax of \$23,570, in all \$31,410, according to the figures, while Dempsey's normal tax was \$2,040, with a surtax of \$1,490.

GEORGES VALLEY.

Mr. and Mrs. J. W. Gobbie and Mr. and Mrs. S. E. Gobbie were visitors at the home of John Ilgen, at Farmers Mills, on Sunday.

John Auman and family spent Sunday with Mr. and Mrs. George Breen.

Mrs. Smith, of Lock Haven, and Miss Mattie Williams, of New York, are spending this week at the D. D. Decker home.

Mrs. Wenzel returned to her home in Johnstown on Tuesday after spending two weeks with her aunt and uncle, Mr. and Mrs. F. M. Ackerman.

P. A. Auman spent a few days last week with friends in Centre Hall.

State Agricultural Notes.

When farming prospers the world prospers; and conversely, when farming suffers everybody is unfavorably affected.

Custodians of the law are sometimes found as offenders of the laws that they are charged to enforce.

Legal advice from laymen is sometimes expensive. It is advisable to secure legal information from the proper source.

Some Justices of the Peace and Constables, are offenders of the "Dog Law of 1917," and occasionally get caught in the Department of Agriculture's dragnet.

"Bob White" is an extremely useful bird to the farmer through its weed-seed eating habits in the winter and insect-eating habits during the summer.

Eight hundred million dollars is the annual loss to agriculture and forestry in United States through the depredations of insect pests.

"The abundant capacity of Republican leadership to make mistakes." No, the quotation is not from a Democrat. It is from Senator Kenyon of Iowa. Surely, Senator, you didn't have Senator Lodge or Chairman Hays in mind?

NEW GAME LAWS.

Regulations Changed By Last Legislature and Now in Force.

With the exception of a change in the open season for woodcock from October 20-November 30 to October 1-November 30, removing red squirrels from the protected list, making the open season for blackbirds August 1-November 30, and decreasing the season's bag for rabbits from 60 to 40 and the daily bag for woodcock from ten to six, the closed seasons and the bag regulations have been unaffected by the game measures so far signed by the governor.

A series of amendments to the fish code that have been approved by the governor take the size limit off the brook and brown trout and limit the catch to 25 a day. The size limit is also taken off of yellow perch, which is now unlawful to take by any legal device during any season of the year.
