MEXICAN PLANT MAY CONQUER BRIGHT'S DISEASE

New York.—Physicians who have tested the sap of the Mexican mayague plant in the treatment of diseases of the kidneys believe that an important discovery has been made. Writing in La Escuela de Medicina, the leading Mexican medicine journal, the editor says: "It is the only substance known up to the present time, in the whole world, having the power to radically and permanently overcome Bright's Disease."
Reports of definite results in a large number of chronic and long standing cases of kidney trouble have created a persistent demand for this sap, which is popularly known under the name of AGMEL, and considerable quantities are being imported into the United States.
The Arrow Chemical Co., 31 Union Square, New York City, will mail to those interested a free descriptive booklet; or upon receipt of \$1.00 a full sized bottle of AGMEL, containing 336 cubic centimeters of pure concentrated sap, will be sent to any address in the U. S. A. or Canada, all charges prepaid.

MARRIED IN BATHING SUITS

Ceremony Certainly Saved Bride and Groom Considerable Expense in Wedding Finery.

The funniest wedding I ever saw was when camping last summer, writes a correspondent of the Chicago Tribune. A girl friend and her father were there and she met a young man whom she grew fond of in a short time. One night he asked her father for her hand, but father objected because of the short acquaintance. The next morning the couple met and planned to elope, but somehow father "got wise," so this was spoiled. When swimming that afternoon they met again and the girl happened to mention that her father had gone to the village and would not return until evening. The boy said: "This is our time." A minister was on the shore and they went to him and asked to be married at once. The ceremony was performed on the beach, the couple attired in their bathing suits.

COULD NOT SLEEP

Mr. Schlessner in Misery From Kidney Complaint. Doan's Gave Complete Relief.

"Heavy work brought on my kidney complaint," says Wm. Schlessner, 6608 Suburban Ave., Wellston, Mo. "One morning when shoeing a horse I was taken with a sudden pain in my back and fell flat on the floor. If I had been hit with a trip hammer, I couldn't have suffered more. I stayed in the house for five weeks and the pain was wearing the life out of me. At times, I couldn't get a wink of sleep because of the misery and I had to get up every few moments to pass the secretions that were highly colored, of foul odor, filled with sandy sediment and terribly scalding. My bladder felt as though it were a fire. The pain brought stupor and a reeling sensation in my head; the torture of it cannot be described. If I got onto my feet I couldn't walk but felt dizzy and all in a flutter and everything would turn black. My head ached so it seemed as though my eyes were being scratched out. I started using Doan's Kidney Pills and I was soon rid of all the trouble."

DUEL INDEFINITELY PUT OFF

How Wisconsin Congressman Turned Challenge to Deadly Combat Into Matter of Ridicule.

The story of the Potter-Pryor duel, the famous challenge of Civil war times whereby a Wisconsin congressman by ridicule put dueling in disrepute, recalled by the death of one of the participants, is told in interesting style in the June number of the Wisconsin Magazine of History, quarterly publication of the State Historical society.

Roger A. Pryor, the Virginia congressman who figured in the episode, died a few months ago in New York city. It was he upon whom John Fox Potter of East Troy, Walworth county, then representative of the First Congressional district of Wisconsin, during April, 1890, brought nation-wide ridicule in answer to a challenge to a duel. Congressman Potter offered to fight with bowie knives at a distance of four feet, but Pryor refused because they were "so demitition vulgar."

Most of Mr. Potter's bowie knives, including the one he purchased for the duel and others sent to him after the affair, are now on exhibit in the State Historical museum, Madison.

Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.

One Drawback.

Washington is a colored man and he follows the profession of cleaning up back yards. Also he was the first man to think of wrapping a horse's forelegs with fly paper, keeping the flies off their legs and catching Mr. Fly at the same time.

One of the women he was working for said to him: "Washington, your fly-paper is a success. I see that by the great number of flies there are on the paper."

GREEN'S AUGUST FLOWER

In the good old summer time when fruits of all kinds are getting ripe and tempting, when cucumbers, radishes and vegetables fresh from the garden are too good to resist, when the festive picnic prevails and everybody overcasts and your stomach goes back on you, then is the time for "August Flower," the sovereign remedy for tired, overworked and disordered stomachs, a panacea for indigestion, fermentation of food, sour stomach, sick headache and constipation. It gently stimulates the liver, cleanses the intestines and alimentary canal, making life worth living. Sold everywhere. Adv.

Parthened Leather Valuable. Parthened leather has greater strength while lacking the elasticity of tanned leather, and the belting of M. Felice Giarfieri of Turin is designed to combine these special qualities. The hide being impressed deeply with a trelliswork pattern, the compressed portions are unaffected by tanning agents, while the interior of the meshes is tanned in the usual way. The product has the required elasticity and is claimed to be so strong that belts may be much narrower than the ordinary.

Newfoundland's Memorial Day.

Newfoundland celebrated July 1 this year, but not as Canada does. It was observed throughout the island as Memorial day, in honor of those who laid down their lives during the war. Next year it is proposed to hold the commemoration earlier in the season.

Mrs. Smiley—Oh, no; that is better than being brought home by a couple of friends after dinner.

Birds Have Right of Way.

Fowl have the right of way in sky, warns the director of military aeronautics. This is justice indeed, since birds flew first.

But this is not all. Recently many towns along the Atlantic coast have been visited with dead bird showers. Aviators flying by a town would see a flock of wild fowl coming their way. They would set their machine guns and let the bullets fly.

Presently a prominent citizen walking below would be hit with a large bloody bird. He complained to the town, and the town complained to the department of agriculture. Then the federal migratory bird law between the United States and Great Britain was referred to, and it was found that shooting birds from airplanes is unlawful.

Golf Bugs.

His father had taken him out on the golf course. That evening he seemed to be ill-at-ease.

"Willie," said his mother, "what for the matter with you? I wish you'd stop scratching yourself."

"I don't know what's the matter, but I guess I must have got some of those golf bugs on me," was Willie's reply.
