

Hunters, Do You Want More Game?

When you are planning that annual two weeks hunting trip or considering the best place to hunt when you can get away for only a day, you do not count on going to that section that has been burned black by forest fires, you seek a country with a good forest cover. We can have the forest cover in Centre county, if everyone who goes into the woods will help us to prevent forest fires.

If you wish more game you must stop throwing away lighted matches, cigars, cigarettes and pipe ashes and be sure your camp fire is out before you leave it. Forest fires kill more game than all the hunters combined. Preventing a fire is better than extinguishing it after it has burned over hundreds of acres, killing the game that would furnish you sport and destroying the forest growth that protected it.

If you discover a forest fire put it out if you can; if you cannot, get help and notify the nearest forest fire warden. We want the forests in Centre county to be well stocked with game and the only way this is possible to protect the tree growth which furnishes their shelter by preventing forest fires.

# The Whole Secret of A Better Tire

## Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.
