Sugar Famine Nears End.

The sugar situation will probably be normal by the end of this week, according to an announcement made at New York a few days ago by Federal Food Administrator Williams. He said that 168 million pounds of sugar are now being unloaded from ships at New York and Philadelphia.

Jurors for the December court will receive \$3.00 a day instead of \$2.50 as heretofore. The latest legislature increased the pay.

Electric Lights for School Building.

At a regular meeting of the Centre Hall Board of Education, held last week, it was decided to wire the school building for electric lights. The dark, cloudy days that prevailed throughout the month of October made school work difficult without the aid of artificial light, and the small expense that will be incurred in wiring the building will be nothing compared with the benefits derived by the teachers and scholars alike on days when dark clouds obscure the sun and make school rooms unfit for efficient work. The work of wiring is going on this week while the teachers are attending Institute and the scholars are enjoying a vacation. The board fixed the Thanksgiving and Christmas vacation periods, the former being for Thanksgiving Day only while the Christmas vacation will begin on Christmas day and extend until Monday morning, January 5th, a total of seven school days.

High School Students in Debate.

Some very timely subjects have been debated within the past few weeks by members of the Centre Hall High school. On last Friday afternoon the debate was on the subject, "Resolved that the railroads should be owned and operated by the government." The affirmative side of the question was taken by Gertrude Ruble, Grace Fye, and Beatrice Kreamer, while the negative was defended by Ruth Bartges, Hazel Ripka and Ruth Ripka. The judges favored the negative debaters in rendering their decision. Recently the subjects of woman suffrage and the League of Nations were debated by the students and aroused great interest.

Enrolling Red Cross Members.

Various members of the local Red Cross are soliciting citizens to again enroll as members of the Red Cross, and are meeting with good success. Of course, there are some persons who can see good only in movement in which they are the chief beneficiaries, and these do not unite. With rare exception those having the smallest incomes are again enrolling, the conspicuous refusals being among those who would not miss the "dollar" if they had a "heart". The public schools are coming up fine, and will no doubt finish at 100 per cent.

The names of the 1920 Red Cross members will be printed in these columns as soon as the drive is completed.

Triplets Born in Rush Twp.

Hundreds of persons have visited the home of Phi Lamancusa, of Newtown, Rush township, to see three bright little strangers which arrived there recently. The triplets are boys and weigh between five and six pounds each. The mother and three babies are getting along fine. Dr. Lynn, of Philipsburg, was the attending physician.

Fined for Calling Turkey.

Walter Lane, of Newton Hamilton, Mifflin county, was arrested last week by traveling Game Protector John J. Slutterback, of Lewistown, on the charge of calling a wild turkey. Lane paid a fine of \$25 and the costs of prosecution. The hearing was held before Justice of the Peace D. S. Norton, of Newton Hamilton.

You can't always judge a feed by its analysis ; the only real test is the milk pail test. Larro Dairy Feed will prove efficient in this test. Car just in.—R. D. Foreman.

Letter from Subscriber.

Sayre, Pa.,
November 5, 1919.

Editor Reporter:

Inclosed please find subscription for Centre Hall Reporter for one year. We all look forward eagerly for the mail on Friday which brings us the paper from our old home town.

Mrs. Lee and myself and our daughter have recently returned from a visit to our son who is chief draftsman of experimental work in the Denby Motor Truck & Tractor Company of Detroit, Mich.

While there, accompanied by our son and his wife, we visited many interesting places in the city, also visited several in Canada.

Upon our return trip we had the pleasure of a short visit with Mr. and Mrs. W. M. Finkle who now live in Buffalo. Mr. Finkle was formerly employed by W. M. Allison at Spring Mills but is now head miller for a large concern in Buffalo.

We returned home after a week's trip greatly refreshed in body and spirits ready again to take up the duties of our daily life.

Wishing you all prosperity for the coming year, I am,

Very sincerely yours,
F. A. LEE.

Rev. Barber Accepts Call.

Rev. Louis V. Barber, of Lemont, has given notice of his acceptance of the call to the pastorate of the Presbyterian churches of Mill Hall and Beech Creek. It is likely that he will be able to make the change about December 1.

Marketing Pennsylvania Potatoes.

The Bureau of Markets of the Pennsylvania Department of Agriculture has men in the potato sections of the State studying the marketing of the Pennsylvania potato crop.

Pennsylvania is one of the largest potato producing states, her crop last year being over 24,000,000 bushels which had an estimated value of about \$37,000,000. A large number of these potatoes are shipped to Philadelphia and New York markets, and at the same time many Pennsylvania cides draw a part of their supply for winter consumption from other distant states. Whether or not these Pennsylvania markets can be more completely supplied by Pennsylvania potatoes, on a basis that will be advantageous to both producer and consumers, is one of the problems being studied by the Bureau of Market representatives.

Next season, the Bureau of Markets plans to inaugurate a Market Reporting Service on several of the Pennsylvania markets which will be designed to keep all parties interested in close touch with prices and quotations of various farm products. These reports will include potatoes and the present work is laying the foundation for such service.

Director Smith says "The Pennsylvania Bureau of Markets is cooperating in this work with the United States Bureau of Markets, the County Agents and representatives of State College, and we believe such a service will be valuable marketing information to the growers of the State. We hope that the growers will cooperate with us by telling us what their needs are along these lines."

Fine Degree Work.

On Thursday evening of last week about ninety members of the P. O. S. of A. assembled in the local camp room to witness degree work by the Bellefonte team, which indeed was pleasing to the members gathered from the various camps throughout the valley. The work was conferred on a class of nine, which addition brings the membership well above one hundred.

After the degree work had been conferred, speeches were made by the various members, notably among which was a talk by Milton Johnson, of Bellefonte, who recently attended a session of the national convention at Jacksonville, Florida. At the close light refreshments were served.

At a recess period the work of the Red Cross was brought to the attention of the members by Prof. N. L. Bartges, with the result that quite a number of the local members renewed their membership for 1920.

Pomona Grange Meets Nov. 20.

The Centre County Pomona Grange will meet in regular session at Centre Hall Thursday, November 20. The regular two sessions will be held—forenoon and afternoon. One of the various important items to come before the body is the election of officers. The noon luncheon will be served in the usual way.

Illian—Yearick.

Homer L. Illian and Miss Florence C. Yearick, the former of Georges Valley and the latter of Spring Mills, were united in marriage last Thursday evening by Rev. R. R. Jones. The wedding took place at the home of John D. Horner where the bride has made her home for some time past. The couple were treated to a rousing serenading following the ceremony.

A Centre County Boy Married.

Rossan G. Warren, a grandson of Mr. and Mrs. Henry Gingerich, of Linden Hall, was united in marriage to Corna M. Duke, in Detroit, Mich., Nov. 1st by Rev. H. Lester Smith, pastor of the Central M. E. church, of Detroit. The bride is a daughter of Mr. and Mrs. Charles Duke, of Akron, Ohio. The groom left for Akron about a year ago and is an expert rubber worker in the Miller rubber plant.

They expect to make their future home in Akron.

The Vote in Potter Township.

The voters of Potter township elected Democrats for every office with the exception of judge of election in the south precinct. Here M. A. Sankey, republican, defeated Aaron O. Detwiler, democrat, by only one vote, the vote being 55 to 54.

The following shows the vote in the two precincts of Potter township. In each instance the first named is republican and the second democrat.

The "Unloaded" Gun Kills Child.

John Hammel, accompanied by his son, Edwin J. Hammel, stopped in front of a country store near Westover, Clearfield county, on last Friday afternoon. The elder Rummel left his son in the buggy to hold the horse while he made some purchases. During his absence, a young son of Blair Westover was demonstrating to the Rummel boy a shot gun. A loud report followed the demonstration and the Rummel lad received the full contents of a heavily loaded shell in the shoulder. The lad was rushed to the Spangler hospital but died from the effects of the terrible wound several hours later. As usual, in such shooting, he did not know the gun was loaded. The innocent victim is one of triplets born to Mr. and Mrs. John Rummel and was aged 9 years.

TOWN AND COUNTY NEWS.

HAPPENINGS OF LOCAL INTEREST FROM ALL PARTS

E. S. Ripka and family motored to Franklin county, on Saturday, to visit relatives.

Many farmers state that corn fodder has rotted by reason of the continual rain during October.

Cleveland Mitterling expects to ship a carload of milch cows to the eastern market this week.

We have just unloaded a car of winter wheat bran. Get your supply now.—Bradford & Son, Centre Hall.

This is the week of the teachers' institute, at Bellefonte, and all of the borough teachers are in attendance.

Dr. H. S. Braucht made a medical inspection of the school children in the Centre Hall public schools last Wednesday.

H. F. Confer, of Rebersburg, was in town on Monday, buying up horses and mules. He shipped a carload from Centre Hall last week.

Saturday of this week the season for legally hunting and killing wild turkeys opens. A flock has been seen on the mountain close to town recently.

Mrs. Henry Swabb, of Centre Hall, who has been seriously ill for some time past, this week was removed to State College where she will be taken care of by relatives.

Lewistown has prospects of landing a big factory that will give employment to 1500 people, at the start. The concern would build most of the houses needed for its workmen.

Mrs. Mary M. Hubler, widow of W. Cook Hubler, advertises public sale of household goods for Saturday, December 6th, following which she will remove to Lock Haven and live with her son, Harry F. Hubler, and family.

While hunting rabbits a short time ago Earl Schreckengast, of Old Fort, had a narrow escape from painful injury when he stopped a load of shot sent by James Showers, of Farmers Mills, after a rabbit. Fortunately Mr. Schreckengast was too far away to be hurt by the shot though a number of them penetrated his clothing.

A. E. Mingle, a native of Aaronsburg and a graduate of the Millheim high school, has leased the J. W. Kerstetter store room at Coburn, recently vacated by Martin A. Stover. He will purchase a full line of general merchandise and expects to open November 15th. Since graduating from the local high school, Mr. Mingle spent three years in Akron, O., and served eight months in Uncle Sam's navy.

Lewisburg voters defeated the proposed bond issue of \$95,000 for the erection of a new high school building, at the election last week, by 105 votes. Just what the school board will do remains to be seen. The Department of Labor and Industry has condemned the present school building and it may be necessary to close the schools until something definite can be done. The school board also has the privilege of building another building without asking the consent of the voters, and in that case a tax of 25 mills might be placed upon the taxpayers of the town.

Two hundred thousand Christmas Red Cross seals have been ordered from State Headquarters by the Clinton County Seal Committee and will be sold at a cent each in the drive beginning December 1st in Clinton county. The sale of this large quota will provide \$2,000, three-fourths of which remains in Clinton county for the enlargement of the fight against the white plague there. This will mean much more work toward improving the public health, especially among school children, by the Clinton county branches of the Pennsylvania Society for the Prevention of Tuberculosis. The seal chairman for the Renovo section is Mrs. F. M. Noeker. The Renovo Committee for the Prevention of Tuberculosis has taken 100,000 seals for the upper end of the county and the Lock Haven Tuberculosis branch has made a requisition for 100,000 for Lock Haven and vicinity.

Yesterday was Live Stock Day at Pennsylvania State College. An especially good lot of show animals were on exhibition, also the feeders which will be used for experimental feeding this winter. The show animals are the ones which will be shown at the International next month at Chicago. Those who took advantage of the opportunity offered by Livestock Day at State College had a chance to see what kind of animals led to the greatest livestock show in the world. They could also compare the feeders at the beginning of the period with the same animals when the experimentation is finished next spring. Last year Livestock Day was counted a success. This year a much larger crowd was present. The program began at the livestock barns at 10:30 in the forenoon. Visitors brought their lunch. Hot coffee was served at noon by the girls of the Home Economics Extension Department.

Land Once Worth \$200—Now Worth \$2. Severely Burned Over.

Our Public Recreation Ground.

The State forests are becoming more and more popular as recreation centres. Hundreds of health seeker and nature lovers flock to them each year. Within the memory of middle aged men such recreation was held somewhat as a disrepute. It was simply "loafing in the woods". The most hopeful sign of it all, is that we are going back to nature for the cure of ills created by too much civilization. Now it is even respectable

and proper to anticipate and head off sickness by taking the woods treatment as a preventative.

We were slow to recognize that for our own red-blooded men who hear a loud wilderness call every autumn, or oftener, the woods are a necessity, but we now understand that a man cannot long endure in the trades and professions without outdoor exercise.

The Pennsylvania State Forestry Department not only invites but urges the

public to use the State forests for hunting, fishing and general recreation, but, in order to preserve the aesthetic beauty, to protect wild life and insure healthy and vigorous growing trees, forest fires must be suppressed. Everyone who goes into the woods should have this thought constantly before him so that he will not be responsible for starting a forest fire which may burn over hundreds of acres and destroy the recreation ground of his friends.
