"Before and After" in the Near East

From misery to comfort and self-respect in five days' time, simply through the magic of an American ten dollar bill, is a transformation that is being wrought daily in Western Asia by the Near East Relief of 1 Madison Avenue, New York City. The group of five Armenian children shown in two pictures here have reason to bless the American donor of that ten dollar bill. With this money, the expert workers of Near East Relief in Armenia were able to rid the poor children of their leathesome rags and to clothe them with new garments of alash cloth, woven in a Near East Relief Industrial plant and sewed into garments by the mother of the children. The mother was also paid a small fee for her services in making the garments.

This was a lucky family. There are thousands of others not so lucky in the Near East simply because of a lack of other ten dollar bills. Near East Relief is asking the American people to contribute funds to save the starving in the Bible lands. It is estimated that over 1,250,000 adults are in desperate need, and 250,000 children are orphans and must be cared for. For the sum of \$180 a year Near East Relief can not only feed and clothe and shelter an orphan child, but can also give a course in education towards ultimate self-support and independence. Many of these orphans are being "adopted" by Americans, who are providing funds for the support of one or more over a given period.

Better than Pills

YOU WILL NEVER wish to take another dose of pills after having once used Chamberlain's Tablets. They are easier and more pleasant to take, more gentle and mild in their action and more reliable. They leave the bowels in a natural condition, while the use of pills is often followed by severe constipation, requiring a constant increase in the dose. Every bottle guaranteed by your druggist.

Chamberlain's Tablets

Poster Tells Dramatic Story

This picture, painted especially for the Near East Relief by M. Leone Bracker, vividly portrays what words fail to express—the horrible suffering of the women and children of Armenia and adjacent countries. Peace has blessed Europe and America for more than a year but in Western Asia conditions more frightful than any war time experiences of the martyred populations of Belgium and France still exist. Thousands of women and children escaped massacre by the Turkish soldiers only to face the terrible agonies of death by starvation. At the present time it is estimated that 1,250,000 adults and fully 250,000 orphaned children are completely destitute and in imminent danger of death by starvation and exposure.

The Near East Relief, 1 Madison Avenue, New York, is at present the only organization giving aid to these suffering people and lack of funds still prevents the reaching of more than a small part of the stricken people.
