3 Cooties Turn Up 3,000 Miles from Home.

While looking through some old letters received when he was living in the trenches on the battlefields of France, Walter Mingle, of Fermaugh township, Juniata county, had an uncomfortable reminder of some of the hardships that he was compelled to endure while on foreign soil. From the folds of one of the envelopes walked three of as healthy looking specimen of cooties as ever hid in a soldier's garments. There they were, having run the gauntlet of de-lousing stations, turning up in Juniata county, more than 3,000 miles from their point of origin, full of life after leaving their native land many months ago.

WAR NURSE FROM ARMENIA ASKS AMERICA'S AID

Soldier Husband and Battlefield Baby Touring Country With Her for Near East Relief.

A mother, father and daughter, the latter born in a tattered Red Cross tent in the icy Caucasus while guns roared all around and Turkish shells, ignoring the mercy emblem, burst near it, are touring America in behalf of their native Armenia. They are General Mezrop Nerton Azgapatian, his

LADY ANNE AZGAPATIAN.

wife, Lady Anne, and Ireneh Esther Araxie Azgapatian, whose baby eyes opened upon scenes of horror and later through them saw much of the sufferings of the people of Armenia.

The family are making their tour under auspices of the Near East Relief, the big organization which has saved hundreds of thousands of the people in that part of the world from death by hunger and cold and is soon to open a nation wide campaign for funds to complete the work of saving the survivors, more than a half million of whom must perish unless aid comes to them soon. America is their only hope.

General Azgapatian served gallantly in the Russian armies in the Caucasus against the Turks. His wife, who accompanied him to the front, did noble work for the wounded and sick, and it was while in this service that her baby was born in a hospital tent during a battle. An army blanket swung from two poles in one corner of the tent was the baby's crib during the rest of that terrible winter campaign. With the collapse of the Russian armies after the Bolshevik revolution the Azgapatians returned to Armenia for it brief spell and did their best to alleviate the suffering they found on every hand. But with a Turkish price on his head the father finally made his way with his family through Russia to Finland and then to this country. What they tell of conditions and needs in Armenia is first hand evidence.

In the Caucasus, Armenia, Syria, Turkey and Persia are more than 250,000 orphans, helpless little victims of war, massacre and deportation, and for the great majority the only bar between them and absolute starvation is a bowl of hot bean soup every day. This soup is supplied by the Near East Relief now making an appeal to the American people for sufficient funds to increase this dole and to provide these suffering little ones with clothing and give them an education that will help them to become self supporting. It is estimated that more than 1,500,000 in Western Asia will die of starvation unless American aid is continued.

CHURCH COUNCIL ENDORSES N. E. R.

Federal Body Says No More Compelling Need in All the World.

Departing from custom, the Federal Council of Churches has endorsed the work being done by Near East Relief, 1 Madison Avenue, New York City, the former committee for Armenian and Syrian Relief which has essayed the task of caring for 1,250,000 starving people in Western Asia. Resolutions adopted by the executive committee, as announced by Charles S. Macfarland, general secretary, are as follows:

"Your committee recommends that prayers be offered in all our churches for the suffering children throughout the world, especially those who are in distress and peril as the result of the war.

"They further recommend that we reaffirm and emphasize our interest and co-operation in the plans of 'Near East Relief.' We know of no need in the world that is more compelling than that of the Armenian, Syrian and other peoples in the Levant who have already received and must still receive the generous sympathy of the American people."

THRIFT OF SCHOOLS JUMPS 500% IN NOV.

Multiplying Their Savings, Children Teach Parents.

8990 Philadelphia Kiddies, Twelve Years Old, Save \$11,371.27 in November.

The lessons of waste and extravagance which men and women, whose wages were boosted far above their peacetime income by the sudden artificial prosperity, learned to their cost, are fast being unlearned by their children in Pennsylvania, New Jersey and Delaware schools.

In many homes parents are figuratively sitting at the feet of their children and receiving instruction in thrift which the little tots learn in the schoolroom.

Thanks to the enthusiasm and tireless efforts of the teachers, the month of November shows an increase of 500 per cent in savings and investment in Thrift and Savings Stamps, over any previous month.

Many of these schools are already 100 per cent organized into the Government Savings Societies for the purpose of studying and practicing of saving. The study comes in regular lessons based on text books supplied by the Savings Division, Philadelphia. The practice consists in systematic buying of stamps through miniature banks in connection with each savings society in charge of a teacher.

Lycoming, Tioga, Cameron, Bucks, McKean and Centre Counties, in Pennsylvania, and Gloucester County in New Jersey, lead the Third Federal Reserve District in a 100 per cent enrollment of all their schools. The government realized substantial returns from the youthful bankers and concrete proof of this success is abundant. During November 8508 pupils, members of Philadelphia Savings Societies, saved \$11,371.27. It is to be remembered that this saving comes out of the tiny earnings and scant allowances of youngsters whose average age runs hardly above twelve years.

The reports from all the districts are splendid. A school in Carney's Point, N. J., with 106 pupil-savers produced \$117.00 in Stamps in November. One thousand nine hundred and fifty-five scholars, members of the War Savings Societies in schools of McKean County saved through stamps \$1,025.95 in November and \$3,010.31 to date. The Jersey Shore schools, with 1284 savers and depositors, saved \$2,717.70 to date. These are only a few among many striking examples of real saving.

PATRIOTS' CREED TO CURE ECONOMIC ILLS

I believe in the United States of America. My opportunity and hope depend upon her future. I believe that her stability and progress rest upon the thrift and industry of her people. Therefore I will work hard and live simply. I will spend less than I earn. I will use my earnings with care. I will save consistently. I will invest thoughtfully. To increase the financial strength of my country and myself I will buy government securities. I will hold above barrier the obligations my country thus incurs. I will do these things to insure the greatness of America's future.

Face the New Year confidently and cheerfully, with a firm resolution that you will save each day, each week, and each month to the end that at this time next year you will have money. Take advantage of what your government offers you; buy its securities, such as Thrift and War Savings Stamps and Treasury Savings Certificates. Do this, and hang on to your Liberty Bonds and you will have a happy New Year.

To save is imperative. Some people are v-r-n thrifty, some achieve thrift, but most of us have thrift thrust upon us by high prices and restricted incomes. To all the budget is the universal help, and as a safe investment for small savings, Thrift and War Savings Stamps should be the first consideration after the necessities.

Extravagance rots character, train youth away from it. On the other hand, the habit of saving money, while it stiffens the will, also brightens the energies. If you would be sure that you are beginning right, begin to save—Theodore Roosevelt. Begin right today. Buy Thrift or a War Savings Stamp and keep up the habit regularly.

The \$4.12 you put in a Savings Stamp this month will not only give you \$50.00 in cash when it is redeemed by the government on January 1st, 1925, but the \$5.00 then probably will buy nearly twice what it does now. Thrift beats the profiteer and brings down high prices.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.
