Is a Safe, Honest, Reliable, Fortune-Making Investment.
NOT A GAMBLE—YOU POSITIVELY CANNOT LOSE A CENT

THE REASON WHY
Every share is accompanied by a refund certificate. After the first 3 wells are completed and the shareholder surrenders his refund certificate, regardless of success or failure of the wells, will receive immediately 60 per cent of his investment. This, however, will not interfere with the dividends, will not lower them and if he was getting 300 dollars in dividends, will get the same after the refund too.
If the shareholder will not surrender the refund certificate, in a short time he will receive, regardless of success or failure of the wells, the whole amount invested with the Company.
