

**LOCAL AND PERSONAL.**

Mrs. (Dr.) W. E. Park of New Milford, is a guest at the D. A. Boozer home.

Miss Helen Sandoe, of Ingram, is the guest of her friend, Miss Margaret Jacobs.

Mr. and Mrs. Elliott Smith visited their parents in and near Centre Hall the past week.

Mrs. Carrie L. McClellan and two daughters, of Georges Valley, were callers at this office on Monday.

John Long, of near Penns Cave, was taken to the Lock Haven hospital, suffering with cancer of the stomach.

Mrs. B. C. Auman and little daughter came to the home of the mother's parents in Centre Hall from Youngstown, Ohio.

Misses Ida and Elizabeth Sweetwood are enjoying a ten days' trip to Lancaster, Mt Holly, Philadelphia and Atlantic City.

Miss Annie Weaver, of Spring Mills, is being treated at the Wills Eye and Ear hospital, Philadelphia, one or her eyes being affected.

James I. Fetterolf is making preparations for building a forty-foot addition to his garage. His growing business has made this step necessary.

Philip Mingle, son of Mr. and Mrs. W. Gross Mingle, of Philadelphia, will come to the home of his grandmother, Mrs. W. B. Mingle, this week, for a vacation.

You make a saving of 20 to 25 per cent. on seasonable merchandise right now by taking advantage of Nieman's reduction sale, at the Millheim store.

Masters George and John Riter, sons of Mr. and Mrs. Edward Riter, are enjoying the summer vacation period on the farm with their uncle and aunt, Mr. and Mrs. John Rishel, near Red Mill.

James McCool is tearing down a house owned by him near Red Mill and will use the lumber in enlarging the property purchased by him from B. H. Arney, in Centre Hall, a few months ago.

Miss Isabel Rowe, recently elected assistant principal of the Centre Hall High school, expects to take the summer course for teachers, at Pennsylvania State College, which begins next week.

Dr. Robert Gearhart has removed from Stroudsburg to Boalsburg and will be at his office on Main street afternoons and evenings until September, when he will be there permanently. If not at office phone J. H. Ross, Linden Hall.

Mrs. Jack McMullen, of Baltimore, Md., is the guest of her sister, Mrs. Samuel Shoop. Mr. and Mrs. Morris Long, of Mattawanna, were also guests at the Shoop home on Sunday. The latter lady is also a sister of Mrs. Shoop.

Misses Elizabeth Royer, Mabelle Sharrer, Renna Wagner, Ruth Shreckengast, and Mary Zerby, students at Central State Normal School, Lock Haven, are at their respective homes, the institution having closed for the summer vacation.

Mr. and Mrs. Harry Hubler, of Lock Haven, are rejoicing over the birth to them of a baby boy. By the way, the Reporter wishes to state here that Mr. Hubler, who had been seriously ill, has again recovered much of his former good health.

A valuable young cow, the property of Mrs. Roy Miller, of Tusseyville, was killed by lightning last Friday. The animal was standing in an open field close by a fence, and it is presumed the lightning struck the fence and was communicated to the animal.

James C. Goodhart, who makes cows and young cattle a specialty and neglects neither hogs, sheep or horses, has about completed a large manure shed. This additional structure will greatly aid him in giving better care for the good animals he keeps.

Among the Reporter's callers on Saturday was Ralph Ruhl, of Millmont, who was a guest at the F. M. Fisher home. For a period of about four years, Mr. Ruhl was a clerk in the Farmer's Bank, Millinburg, but something over a year ago he was appointed postmaster at Millmont, which position he is filling very acceptably to his patrons.

Egg production is a big side line on the farm John H. Burkholder, west of Centre Hill, conducts. The egg crop since January has brought him on an average of one hundred dollars per month. Next season he expects to do even better, and now has four hundred fifty-five half-grown white leghorn chicks of the Kerlin strand that he will put to work.

Numbered among the members of the choir of the Reformed church, during the exercises of the Children's Day service, on Sunday evening, were five who were found in the choir of the old Reformed church of thirty years ago. They were, H. W. Kreamer, almost eighty-three years old; Mrs. D. J. Meyer, Mrs. J. H. Puff, Mrs. Frank M. Fisher, and Samuel J. Rowe.

On Saturday, Mrs. Kate Conley took dinner at the L. L. Smith home, in Centre Hall. This in itself may not arouse particular interest, but the day was one that brought back memories of the long ago to the one, while to the other it was the reaching of the fiftieth milestone in life's journey. Just fifty years ago on Saturday, Mr. Smith first saw the light of day, and it was Mrs. Conley who was present at the event and made the happy announcement to the proud father, "It's a boy."

**LINDEN HALL.**

Dr. Gerhart and wife arrived here last week from Stroudsburg, having previously shipped their goods to Boalsburg where the doctor will locate.

Dr. Woods left Boalsburg last week for Washington where he has accepted a position in a large hospital as consulting physician.

Mr. and Mrs. George Hall spent the week end in Huntingdon. On their return they brought back their daughter, Miss Virginia, who had been visiting for a week in that place.

Miss Ruth Callahan is visiting at Benore this week.

Mr. and Mrs. Curt Musser and Alvin Musser spent a few days last week with Mr. and Mrs. J. H. Ross.

Mr. and Mrs. Robert McClellan motored to Snyder county last week and spent Sunday with friends.

Misses Edwina and Mildred Wieland are spending part of their vacation in Philadelphia and Germantown, having left here last Friday.

**FARM FACTS**

Timely Reminders from The Pennsylvania State College

NOTE.—Through a special arrangement with the Pennsylvania State College School of Agriculture, the Centre Reporter will each week print this column of the brief timely notes that will be of interest to all farmers. They are reasonable reminders or suggestions of things to be done on the farm or in the garden during the current week.

BINDER TWINE should be purchased now. Wheat harvest will start early next month. All machinery used in the harvesting of grain and hay should be in good working order. It is costly to have a machine break down in the harvest rush. Give it an inspection immediately.

SPRAY CALENDAR—(Unless otherwise noted, observe one to two weeks later for northern and mountain counties).

It will be of little or no use to spray for apple blotch after the coming week, in central-eastern counties. Use Bordeaux 4-5-50.

Second late potato spray due (southern and eastern counties). Use Bordeaux 4-5-50. Lime-sulphur in one to 30 mixture should be applied within the next week for apple scab in the north-eastern counties.

Case bearers and bud moths are becoming bad through the western, northern, and eastern counties, and red bugs are reported serious in the southern counties. Arsenate of lead with lime-sulphur, applied two weeks after the pedicels fall, is recommended for their control.

SPECIAL WARNING—The canker worm, commonly known as the "measuring worm" is on a rampage in practically all of the apple growing sections of the state. They can do unlimited harm

if allowed to go unchecked. Five pounds of lead arsenate to 100 gallons of water sprayed heavily and thoroughly, will check the damage.

ORCHARD—Cultivation should be continued, or the first cutting of grass should be made in the sod orchards. Do not let the grass go to seed now; it may in the fall.

GARDEN—Cutworms discourage many gardeners. Large plants may be protected with a collar of stiff paper, while poisoned bran mash will do the work on an extensive scale.

THE BREEDING BULL needs proper care and handling to obtain best results.

ALFALFA SHOULD be gauged carefully for proper cutting. Don't go by the blossoms. Remember that the new sprouts at the top of the root make the next crop. Mow the present crop when these sprouts are not more than two to three inches high and will be missed by the cutting blade. The hay will be

more palatable and nutritious if cut at this stage.

STOCK BEETS OR MANGLES—It is not too late to sow a large or small patch for feeding purposes. Use a well prepared seed bed on rich mellow soil free from stones. Try some half sugar mangles along with your red mangles. They yield from 15 to 25 tons to the acre and have higher sugar content and feeding value.

WANTED.—Two girls for general housework; small family; good wages. Write, Mrs. R. C. Colbaugh, 435 Rose-dale St., Pittsburgh, Pa., Williamsburg Branch.

# Altoona's SUBURBAN DAY

## Wednesday

**June 30th**  
**First**  
**Wednesday**  
**Suburban**  
**Day**

With the idea of bettering its summer merchandising efforts the Altoona Booster Association has decided to make uniform the hot weather half holiday.

This will now be held on Thursday and the famous Suburban day, held for years by these merchants, has been changed to WEDNESDAYS.

Out-of-town customers will find this to their advantage—all stores will be open and ready for their patronage.

Wednesday is market day as well as Suburban Day, and on Friday green goods and other perishables must be brought to Altoona for Saturday buyers, making Wednesday the logical Suburban Day!
