ASPIRIN
Name "Bayer" on Genuine

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions and prescribed by physicians for over twenty years. Accept only an unbroken "Bayer package" which contains proper directions to relieve Headache, Toothache, Earache, Neuralgia, Rheumatism, Colds and Pain. Handy tin boxes of 12 tablets cost few cents. Druggists also sell larger "Bayer packages." Aspirin is trade mark Bayer Manufacture Monocetate of acetyl of Salicylic acid.—Adv.

COULDN'T LEAVE DEAR DADDY
Sweet Girl's Affection Must Have Been Very Comforting to the Old Gentleman, Yes!

The blushing girl leaned over her father's chair and put her arm around his neck.
"You dear old papa!" she cooed. "You've been very good to your little girl since her engagement."

"I'm always glad to make my sun-beam happy," murmured father fondly. "I want you to think sometimes of your foolish old father and remember that he did everything he could to make home pleasant for you before you left him in his lonely old age."

"Oh, you dear, sweet man! What would you say, if I didn't leave you, after all?"

"Eh!" exclaimed the startled old man.
"How can I be so selfish after you have been so good to me, and done everything for me?" said the girl tenderly. "I don't care so very very very much for George. I'm going to tell him it was all a mistake, and that he can find somebody else, for I'm always going to stay at home with you. . . And then you can always give me nice things!"

Naturally.
"The color rose in her face."
"Of course, it did. Its price went up with everything else and there was the war tax—44ed."

Food For A July Morning
—and every morning when the thought of health enters into the meal time preparation—
Grape-Nuts
This easily digested food needs no sugar, yet it has a most pleasing sweet flavor, and is full of the sound goodness of wheat and malted barley.
"There's a Reason"

STABLE FLY NOW SERIOUS MENACE

Bite of This Insect Is Far Different From That of Other Little Pests.

IS CAUSE OF HEAVY LOSS

It Breeds in Accumulations of Various Kinds of Vegetable Matter and Also in Manure—Spraying Is Not Satisfactory.

(Prepared by the United States Department of Agriculture.)

The acute pain produced by the bite of the stable fly brings to any man a sudden realization that this biting insect is pointedly different from the house fly or typhoid fly, although hitherto his opinion may have been that the two were identical.

Cause Heavy Losses.

At times this fly becomes excessively abundant and occasions heavy losses among nearly all classes of live stock. Year in and year out it is a source of great annoyance, especially to horses and cattle, and is an all-too-common and persistent pest.

The adult stable fly resembles the house fly, but is slightly broader and feels principally on the blood of animals, which it draws with its long, piercing mouth parts. It breeds in accumulations of various kinds of vegetable matter and also in manure, especially when the latter is mixed with straw. When straw stacks become wet

Adult Female Stable Fly, Showing Body Enlarged With Blood.

soon after thrashing the flies breed in the decaying straw, and it is this set of conditions which produces the severe outbreaks.

Spraying Not Satisfactory.

Spraying animals with repellents is not very satisfactory, but the numbers of stable flies can be kept down by caring properly for stable refuse and by stacking or otherwise disposing of straw. The United States department of agriculture, Washington, D. C., has prepared a bulletin "The Stable Fly," which will be sent on request. It gives complete instructions for the control or prevention of this pest.

RAISE SUCCESSION OF CROPS

It Is Possible to Have Several Good Crops for Table Use During Summer and Autumn.

By keeping all the garden space stirred and fresh for seeding it is possible to make a succession of plantings of several good crops to have them for use for a long season. By planting sweet corn, for example, early in the spring and then a couple of short rows about every two weeks till the middle of summer, it is possible to have sweet corn for table use for several months during the summer and fall. Sweet corn may be planted at intervals from April to the last of July, and bunch beans during the same time. Radishes may be sown and coming on for use in a fresh state from March till the first of September in central latitudes. It is impossible here to enumerate all of the good things that can be had fresh from the garden during the middle of the summer and through the fall months by keeping all the vacant spaces seeded and through seeding or setting out plants between rows of crops that will soon be out of the way.

SUMMER SPRAY AIDS APPLES

Iowa Farmers Make Profit of \$10.75 From an Investment of 60 Cents on Each Tree.

A profit of \$10.75 from an investment of 60 cents is the sum made by the Iowa farmers who co-operated with the Iowa experiment station and their county agents in the summer spraying demonstrations. In each of 11 orchards in 10 counties representing every section of the state, there were 19 trees sprayed.

A yield of 7 bushels was received from the sprayed trees while the unsprayed trees from the same orchards yielded only 2 1/2 bushels each. The sprayed apples brought from \$2 to \$3 a bushel and the unsprayed ones brought only \$1. The trees were sprayed four times during the year at a cost of 60 cents apiece for material, labor, and depreciation on the spray outfits.

SORE SHOULDERS OF HORSES

One of Common Ailments While Animals Are at Work—Fitting Collar Is Cause.

One of the common ailments of horses when they are at work is sore shoulders. Sores on the points of the shoulders are usually caused by the collar being too wide or too long. The remedy is to put on a different collar or use a pad.

HIGH PRICES FOR EGGS

Here are some of the ways: Select pure breeds that lay more or larger eggs, such as the White Leghorns, Wyandottes, Plymouth Rocks, Rhode Island Reds or Orpingtons. Give better care, food and shelter, with dry, clean, vermin-proof nests. Confine males except in breeding season. Collect eggs frequently, especially in hot or muggy weather. Store eggs in a dry, clean, cool place. Use small and dirty eggs at home. Market frequently, with protection at all times from heat. Sell for cash on a basis of size and quality, "loss off," instead of "case count." Use an attractive package. Combine shipments as a matter of economy.

SCIENTISTS HELPING BLUEBERRY INDUSTRY

New Jersey Grower Obtains Most Luscious Berries.

Instance of What Is Being Done Commercially by Men Who Utilize Information Given Out by Department of Agriculture.

Luscious blueberries—many of which are three-fourths of an inch in diameter—that sell for \$10 a bushel! Such is the product secured by a New Jersey grower, whose principal business has been growing cranberries but who more recently took up the cultivation of blueberries. At present he has 29 acres which he planted, in part, with carefully selected wild blueberry stock and, in part, with hybrids furnished by the bureau of plant industry of the United States department of agriculture. Not only are the berries on this tract of very high quality but the yield is prolific, the older plants producing at the rate of nearly 100 bushels to the acre. The plantation is situated at Witesbog, near Browns Mills.

The success of this grower is but one instance of what is being done commercially by men who are utilizing the information supplied by the department of agriculture scientists. The latter have made a study of blueberry culture for several years, and are able to furnish data regarding the best varieties and the most suitable soils. Of particular significance is the fact that blueberries thrive best on peat and sand soils, so acid as to be considered worthless for ordinary agriculture. Thus through blueberry culture it is possible to utilize many tracts which have been regarded as especially hard and unpromising.

FEEDING TROUGH FOR SWINE

Farmer Can Pour Slops Into Receptacle Without Having Pigs Climbing His Legs.

The feeder can pour slops into this trough without having an earnest and overhungry litter of pigs climbing his boot legs and spilling the feed from the bucket. It extends possibly a foot on the outside of the pen and makes feeding easy and simple. The two up-

Trough for Pigs.

rights will be needed to hold the trough in place. That common accident of having part of the slop spilled by the hogs or having them thrust head and shoulders under the stream from the pail will be prevented by this.

ALL STOCK LIKE SOY BEANS

Crop Takes No More Moisture When Planted With Corn Than Do Weeds—Leaves Make Silage.

Soy beans take no more moisture when planted with corn than do weeds and the leaves make rich silage. The labor of caring for soy beans with corn is no greater than for corn alone. Properly cured, the crop is relished by all stock.

RAPE EXCELLENT FOR SWINE

Leaves Contain High Percentage of Protein—Little Tankage Needed to Balance Ration.

Leaves of rape are high in percentage of protein to dry matter, and pigs fed corn or barley or rape pasture do not need more than one-twentieth tankage or its equivalent in oilmeal, buttermilk or skim milk to balance the grain.

Simply Worn Out

How Many Women Are Like This?

Can anything be more wearing for women than the ceaseless round of household duties? Oh! the monotony of it all—work and drudge; no time to be sick; tired, ailing, yet cannot stop. There comes a time when something "snaps" and they find themselves "simply worn out," and to make matters worse, have contracted serious feminine disorder which almost always follows the constant overtaxing of a woman's strength. Then they should remember that there is no remedy like Lydia E. Pinkham's Vegetable Compound—the experience of these two women establishes that fact!

Cedar Rapids, Ia.—"After the birth of my last child I had such painful spells that would unfit me entirely for my household. I suffered for months and the doctor said that my trouble was organic disease and I would have to have an operation. That was an awful thing to me, with a young baby and four other children, so one day I thought of Lydia E. Pinkham's Vegetable Compound and how it had helped me years before and I decided to try it again. I took five bottles of Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and since then I have been a well woman, able to take care of my house and family without any trouble or a day's pain. I am ready and thankful to swear by your medicine any time. I am forty-four years old and have not had a day's illness of any kind for three years."
—Mrs. H. Kozzo, 617 Ellis Blvd., Cedar Rapids, Iowa.

Sandusky, Ohio.—"After the birth of my baby I had organic trouble. My doctor said it was caused by too heavy lifting and I would have to have an operation. I would not consent to an operation and let it go for over a year, having my sister do my work for me as I was not able to walk. One day my aunt came to see me and told me about your medicine—said it cured her of the same thing. I took Lydia E. Pinkham's Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and they have cured me. Now I do my own housework, washing and ironing and sewing for my family and also do sewing for other people. I still take a bottle of Vegetable Compound every spring for a tonic. I recommend your medicine to others who have troubles similar to mine and you can use my letter if you wish."
—Mrs. PAUL PAREKRUSS, 1325 Stone St., Sandusky, Ohio.

All Worn Out Women Should Take

Lydia E. Pinkham's Vegetable Compound

SMALL COMFORT FOR TITUS

Mr. Titmouse Might Have Felt Better Had He Not Called on Newspaper Editor.

Titus Titmouse was infuriated, but the editor of the Western Wind shut him up in two seconds.
"Is this the newspaper office?" inquired Mr. Titmouse.
"It is," responded the man at the desk.
"Didn't this paper say I was a liar?"
"It did not."
"Didn't it say I was a scoundrel?"
"It did not."
"Well, some paper said it."
"Possibly it was our contemporary down the street," suggested the editor, as he picked up a paperweight. "This paper never prints stale news."—Los Angeles Times.

SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys, liver and bladder.
Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.
Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large.
However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

He Knew.

A western youngster who attends an eastern college came home recently for a few days. His mother, of course, cooked up all his special dishes and the youngster rejoiced as he sat down to the well-furnished table. "I'll tell you, John," began his father, beaming at the boy, "the happiest time in most people's lives is right when they are eating, isn't it?"
John looked at mother, who had acted as cook, and then at the rest of his family. "Yes, it is," he agreed, "provided that they are eating with some people for whom they actually care."

Harvest 20 to 45 Bushel to Acre Wheat in Western Canada

Think what that means to you in good hard dollars with the great demand for wheat at high prices. Many farmers in Western Canada have paid for their land from a single crop. The same success may still be yours. For you can buy on easy terms.

Farm Land at \$15 to \$30 an Acre

located near thriving towns, good markets, railways—land of a kind which grows 20 to 45 bushels of wheat to the acre. Good grazing lands at low prices convenient to your grain farm enable you to reap the profits from stock raising and dairying.

Learn the Facts About Western Canada

—low taxation (none on improvements), healthy climate, good schools, churches, pleasant social relationships, a prosperous and industrious people. For illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan, and Alberta, reduced railway rates, etc., write Department of Immigration, Ottawa, Can. or

"Can't Cut Off My Leg" Says Railroad Engineer

"I am a railroad engineer; about 20 years ago my leg was seriously injured in an accident out West. Upon my refusing to allow the doctor to amputate it I was told it would be impossible to heal the wound. I have tried all kinds of salves and had many doctors in the past 20 years, but to no avail. Finally I resolved to use PETERSON'S OINTMENT on my leg. You cannot imagine my astonishment when I found it was doing what over 100 things had failed to do. My leg is now completely cured."—Gus Haut, 78 Myrtle avenue, Brooklyn, N. Y. Great for piles, eczema, old sores and all skin diseases. 25 cents. Mail orders filled. Peterson Ointment Co. Inc., Buffalo, N. Y.
