

NOW FREE FROM PAIN

Lydia E. Pinkham's Vegetable Compound Frees Another Woman From Suffering.

Bayonne, N. J.—"Before I was married I suffered a great deal with periodical pains. I had pains in my side and back and also headaches, and got so weak I could not do anything. I took Lydia E. Pinkham's Vegetable Compound and soon felt better. Now I am married and have two little boys. Before the first one came I was weak and nervous, could not eat and was dizzy. After I took the Vegetable Compound I could work and eat. Now I am strong and recommend your medicine to my friends."—Mrs. ANNA SLEVA, 25 East 17th Street, Bayonne, N. J.

Women who recover their health, naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.

If you need a medicine for women's ailments, try that well known and successful remedy Lydia E. Pinkham's Vegetable Compound. Write Lydia E. Pinkham Medicine Co. (confidential) for anything you need to know about these troubles.

No Wonder. "That lawyer came a lame conclusion." "Naturally, when he had such a halting argument."

Constipation generally indicates disordered stomach, liver and bowels. Wright's Indian Vegetable Pills restore regularity without griping.—Adv.

Further Off the Better. "Distance lends enchantment to the view, you know." "Yes, especially to our view of bores and borers."

LADIES CAN WEAR SHOES One size smaller and shoes last longer after using Allen's Foot-Ease, the antiseptic powder for the feet. Shaken into the shoes and sprinkled in the foot-bath, Allen's Foot-Ease makes tight or new shoes feel easy; gives instant relief to corns and bunions; prevents blisters, calluses and sore spots. It's the greatest comfort discovery of the age. Try it to-day. Sold everywhere.

Probably the happiest man in the world is the one who has just purchased his first wedding ring.

FAVOR PROJECTS FOR GOOD ROADS

Remarkable Increase Shown in Statement Issued by Bureau of Public Roads.

MANY AGREEMENTS EXECUTED

Great Reduction Made in Time for Preliminary Work Before Actual Construction Is Begun—Few Projects Completed.

The remarkable rate at which the number of federal-aid road-building projects has increased since the war is shown in a summary relating to all such work from September 30, 1916, to April 30, 1920, which has been prepared by the bureau of public roads, United States department of agriculture. On the later date the states had filed with the bureau 2,885 project statements of which 2,790 had been approved, representing 27,796 miles of highway.

Work in Progress. Up to May 1 of this year 1,974 projects had proceeded to the stage at which plans, specifications, and estimates had been delivered to the bureau of public roads. The plans, specifications and estimates of 1,827 of these had been recommended for approval, representing 13,845 miles. Project agreements had actually been executed and construction work was in progress on 1,503 projects, totalling 11,987 miles. In addition, work had been begun on about 100 projects for which agreements had not actually been signed, thus expediting the progress of the work and bringing the total mileage under construction up to 13,540. The summary shows that a great reduction has been made in the time required for preliminary work before actual construction is begun.

Agreements Made. On the average the states have submitted project statements for nearly 95 per cent of their respective allotments and have entered into agreement to construct highways which call for about one-half of their federal-aid money. The projects actually completed and paid for are comparatively few, but they are materially exceeded in number by those which are practically completed. California, Delaware, Illinois, Idaho, Indiana, Iowa, Kansas, Louisiana, Maine, Maryland, Minnesota, Nebraska, New Hampshire, New Jersey, North Carolina, Ohio, Oregon, Pennsylvania, Rhode Island, Utah, Washington, West Virginia and Wyoming have each submitted approved project statements for all or nearly all of their allotments.

PROTECTION FOR WATER PAN

Slatted Cage Attached to Wall is High Enough to Keep Out Fowls' Scratchings.

To protect the water pan in the poultry house or outdoors, make a cage with a hinged top, as shown. The fowls can readily reach inside and get a drink, and as the cage is fastened to the wall, several inches

Water Pan Protected.

from the floor, there is little danger of having dirt scratched into the pan, writes B. Frank Boyer in Farm Journal. When placed outdoors, the top of the cage protects the water from the rays of the sun.

COLORADO BEETLE BAD PEST

Insects May Be Killed by Spraying With Strong Solution of Bordeaux Mixture.

The Colorado potato beetle is the worst pest which potato growers have to fight. They may be killed by spraying with a strong arsenic such as paris green, using at the rate of half pound to 50 gallons of bordeaux mixture.

IN MAKING BEET-TOP SILAGE

Same Fundamental Factors Involved as With Corn—Thorough Packing Is Required.

The fundamental factors that are involved in making good corn silage also apply in making beet-top silage. Pack the mass thoroughly to exclude the free air and then seal tight. Good silage requires thorough packing.

MOISTURE INJURIOUS TO HAY

It Should Not Be Raked, Bunched or Put Into Stacks While It is Wet With Dew or Rain.

The hay maker must ever keep in mind that hay is always more likely to be injured by moisture that is in it than by moisture that is in it. Therefore it should not be raked, bunched or put into stacks when it is wet with dew or rain.

ONE DIP NOT ENOUGH TO CURE SHEEP SCAB

One Reason Is That All Eggs Have Not Been Killed.

Important—That Second Treatment Be Made Before Mites Which May Hatch Out Have Had Chance to Deposit More Eggs.

A single dipping usually fails to rid a flock of sheep from scab, according to findings of specialists of the United States department of agriculture reported in Farmers' Bulletin 713.

The apparent reason is either that all the females in the course of depositing eggs, at which time they appear especially tenacious of life, or all the eggs already deposited have not been destroyed by the dipping; consequently, after the eggs which may have escaped the first dipping have had an opportunity to complete their incubation, it is essential to dip the sheep again.

It is also essential that the second dipping take place before any mites which may hatch out after the first

Dipping Sheep in Cement Vat.

dipping have had time to become mature and deposit more eggs. As the eggs on the body of the host usually require 4 days' incubation, sometimes a week, and probably never more than 10 days, and as 10 to 12 days are necessary for the young mites after hatching to grow to maturity, mate, and deposit their eggs, it would appear that the best time for the second dipping is about 10 days after the first, as all the eggs will have hatched, while practically none of the new generation of mites will have developed sufficiently to deposit eggs. Practical experience has shown that the second dipping may be delayed until the fourteenth day without unfavorably affecting the results of the treatment, but wherever possible it is preferable to follow the 10-day rule.

Copies of Bulletin 713 will be furnished, upon request, by the department at Washington, D. C.

PLANTING ENDIVE IN AUGUST

Is King of Winter Salads and There is Plenty of Room at This Time of Year.

Ordinary endive is the king of all winter salads that are in reach of the ordinary gardener. It should be planted from the first to the middle of August. The green curled varieties are best. There is always plenty of room in the gardens at this time of year, therefore sow the rows wide enough apart to allow banking with earth. Thin the plants to stand about four inches apart. Having it that close together will not produce large heads, but they will be finer in texture and more tender.

By the time the first freeze is expected this will be a headzerow. Lift the outer leaves, pressing boards against the sides of the row and hold them in place with stakes. Leave it until in danger from freezing weather, then draw earth against the boards and add straw covering.

GETTING RID OF QUACK GRASS

Three-Year Crop Rotation, Including Grain, Clover and Corn, is Excellent Plan.

A three-year crop rotation—small grain, clover and corn—and a two-year-crop rotation—corn and rye or early potatoes and rye—also afford an excellent opportunity for getting rid of quack grass. Extra expense required by extra tillage will in most cases be largely made up by increased yields.

INVESTING IN FOREST CROP

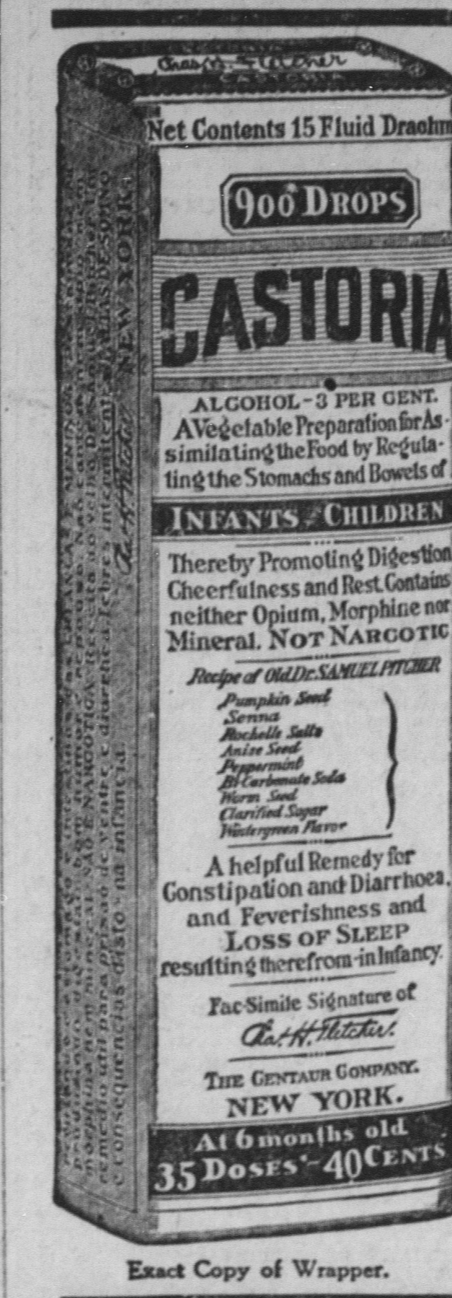

Less Actual Cash Called for Than in Any Other Form of Enterprise on Many Farms.

A forest crop calls for less actual outlay of cash in proportion to the final income than any other form of enterprise. An investment of \$10 to \$15 an acre, with a small annual carrying charge, in 40 to 50 years will produce a return equivalent to from 4 to 6 per cent compound interest for the period involved.

GAPS GIVE GOOD PROTECTION

Weights to Hold Down Covers on Hay Crop Can Be Made of Concrete—How They Are Made.

To secure sweet, mold-free hay, cover the haystacks with a canvas or muslin cover. Good weights to hold down the covers can be made of concrete. Mix one part cement to two parts sand; mold them like doughnuts or cakes, embed a galvanized wire loop in each, and set them inside in a damp place for seven days before using.

Exact Copy of Wrapper.

LIME-MARL

Is the best form of agricultural lime the farmer can use. Guaranteed analysis 90% Carbonate of Lime; practically 100% soluble in soil water; in nice condition for drilling or spreading. LIME-MARL gives quick results but is not caustic. Write for prices, literature and the freight rate to your depot. Order early before the rush season.

CONSTABLE WRONG FOR ONCE

Sleuth Had to Admit That He Had Slipped Up a Little on His "Calkerations."

"I don't often make a mistake in my official calkerations," admitted Constable Slackpitter, the redoubtable sleuth, "but I'll have to own up that yesterday evening I pretty nigh done so. A stranger, that looked like he represented a fair-sized fine and a nice little fee, came along in his motorcar, sorter wabbling in his progress and singing, 'My Irene is the Village Queen. Run-tum-tiddy! Er-rum-tiddy-tum!' and so forth.

"Halt, there!" says I. "Consider yourself under arrest!"

"And b'gashed if he didn't stop and cuss me for everything he could lay his tongue to!"

"What are you trying to arrest me for, you blankety-busted, lop-eared, red-necked hick?" says he.

"For being so bone-dry drunk," says I, "that you don't know what you're doing!"

"Like torment, I don't," says he. "I'm cussing out a blankety-blanked, mutton-headed, tin-starred boob!" says he. "That's what I'm doing!"

"Well, of course, I seen he did know. So all the action I could take was to haul in my horns and wave him onward with as much dignity as I could manage to assume on the spur of the moment."—Kansas City Star.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

The occasional use of Roman Eye Balsam at night upon retiring will prevent and relieve tired, watery eyes, and eye strain.—Adv.

If a man ever feels religion it's when he finds himself in a tight place.

Cuticura Soothes Itching Scalp On retiring gently rub spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with Cuticura Soap and hot water. Make them your every-day toilet preparations and have a clear skin and soft, white hands.—Adv.

HE WANTED IT RUBBED IN

Congressman Evidently Was Not Satisfied With Knowing Himself to Be a Fool.

A wealthy western congressman, says the Argonaut, much against his will, erected a magnificent mansion in Washington to please his wife and daughter. The congressman was of plain tastes and had no liking for the social activities of the national capital. One day an old friend visited him. Wearing a face of the deepest gloom, the owner of the stately home escorted his caller throughout the place. The visitor was admiring and enthusiastic, but the host said little or nothing. When the inspection was finished and the two had returned to the library on the first floor, the visitor said:

"Well, Jim, you certainly can't say that you haven't everything that you want."

"Yes, I can," replied the millionaire soberly; "I want a parrot."

"Why a parrot?"

"I should like to hang him over the front door, so that every time I enter this place he can yell out, 'There comes that old fool again!'"—Youth's Companion.

Its Condition.

"Why do they allude to a baseball as a sphere?" "I suppose because it is the whirled."

Take Sulphur Baths at home for RHEUMATISM

Gout, Eczema, Hives, etc. Right in your own home and at trifling cost, you can enjoy the benefit of healing sulphur baths.

HANCOCK

Acid Stomach Makes the Body Sour

Nine Out of Ten People Suffer From It

It sends its harmful acids and gases all over the body, instead of health and strength. Day and night this ceaseless damage goes on. No matter how strong, its victim cannot long withstand the health-destroying effects of an acid stomach.

Good news for millions of sufferers. Chemists have found a sure remedy—one that takes the acid up and carries it out of the body; of course, when the cause is removed, the sufferer gets well.

Bloating, indigestion, sour, acid, gassy stomach miseries all removed. This is proven by over half a million ailing folk who have taken EATONIC with wonderful benefits. It can be obtained from any druggist, who will cheerfully refund its trifling cost if not entirely satisfactory. Everyone should enjoy its benefits. Frequently the first tablet gives relief.

PARKER'S HAIR BALSAM

Restores Color and Beauty to Gray and Faded Hair. Sold by all druggists.

HINDERCORNS

Removes Corns, Calluses, etc. from all parts of the feet. Makes walking easy. Sold by all druggists.
