**U.S. NAVY**  
With the Fleet

When you can look out over the stern of a big dreadnaught and see a line of regular he-ships following in battle formation, you just can't help swelling up and letting out a couple of man-sized roars.

A fair sea, a good breeze, and a line of battleships making fifteen to twenty knots, present the most inspiring sight any man can ask on this earth.

Living with such experiences turns boys into men, gives them a grip of life, makes real stuff of them. They work hard, they play hard, and we know that, if necessary, they can fight hard.

Learn about your wonderful Navy. Be proud of it. It is respected by every country in the world. And it is yours; every bit your Navy.
