Centre county also has a fine record when it comes to savings in the public schools. One hundred and fourteen schools were enrolled in 1919-1920 in the Savings society section, and the sav-

ings were \$9.472.80. School teachers should at once take up the work of reorganizing these societies for the present school term. The movement is endorsed by state Superintendent Finegan, and he encourages co-operation on the part of all school teachers. The idea is to induce pupils to save enough money to buy at least two W. S. S. during the school year, -one before Christmas and the other after. Parents should interest themselves in their children that there is a better place for their pennies than the slot machines.

DELIBERATE ATTEMPT

TO BUY PRESIDENCY.

Governor Cox Produces Proof of G. O. P. Scheme to Raise Stupendous

Campaign Fund. Quoting from official documents of the Republican National Committee, Governor Cox laid before the country evidence to substantiate his charge that the G. O. P. managers have deliberately set out to buy the Presidency.

Governor Cox produced the quotas assessed at a meeting of the Ways and Means Committee covering fifty-one cities in twenty-six States. The total assessments for these cities alone was

Why should the Republican leaders pretend to be shocked by Governor Cox's charge that they are raising an enormous campaign fund to buy the Presidency? They were not shocked when Senator Newberry was convicted and sentenced to ten years in the penitentiary on the charge of spending a fortune in his campaign; they neither asked him to resign from nor threw him out of the Senate. They were not shocked ling, of Wilkesbarre; L. L. Houtz, of at the millions spent in the primary campaigns of General Wood and Governor Lowden, but this latter was a moral and not legal offense. Only when the offense charged might come within they seem to display a pretense of resentment. What has become of the claim that the G. O. P. is "the party of

Timely Reminders from The Pennsylvania State College

ORCHARD-Plan to follow the harvest with a campaign againt brown rot of peach. All affected fruit should be removed from the ground and either burned or buried. If it is left in the orchard the next season's loss will be much greater than that of this year. The same treatment should be given the

plum and cherry. GARDEN.-In September thrifty gardeners are planting rye in bare spots, or even between rows of crops that are to be harvested soon. The rye holds the surplus plant food over winter.

STOCK .- An early spring pasture for stock feeding can be secured by sowing a field of suitable size to rye during early autumn. This will guarantee the best of early spring feeding.

DAIRY-Improve the dairy herd by using a pure bred sire, but remember that there are scrub pure breds as well as good pure breds. A good sire should increase the production of the offspring over that of the dam,

HOGS-Experiments prove that hogging off corn is one of the best and cheapest methods for quick fattening of hogs. Get the proper fencing ready and plan to turn the hogs in the standing corn when it ripens.

The American Red Cross

The "Greatest Mother" concept which was visualized in the famous art poster used by the American Red Cross in its second war fund campaign has had its symbolism adapted to the Red Cross works of the post-war era and will Illuminate the main poster to be used in the Fourth Roll Call November 11-25. This adaptation will bear the title "Still the Greatest Mother in the World." Everyone is familiar with the original "The Greatest Mother in the World," the effectiveness of which has been shown in part by the fact that it has furnished a synonym for Red Cross that has come to almost a household term. More than any other symbol, except the red cross itself, the public has made it the trademark of the American Red Cross.
