SAMUEL SMILEY'S SAYINGS.

The Retired Statesman Discourses

On "Boys, Get the Money."

Question: What do I think of Governor Cox's exposure of the Republican scheme for a \$15,000,000 campaign fund?

Answer: Well, sir, it looks as if the party had revised Lincoln's famous saying by leaving out a "government of the people, for the people," and going it alone on a government of BUY the people.

I think they might revise another saying of Lincoln's to the effect that while "you can fool all the people some of the time" you can't buy all the people any of the time.

While Governor Cox presented the documentary proof which amounted to a written confession by the Republican financiers, I do not know whether or not he was first to get hold of it, especially that letter of instruction to collectors, "Boys, get the money." I would not be surprised to hear that an advance copy of that fell into the hands of the Hon. William Barnes, Jr.

In any event, he was the first of the Old Guard to return to "normalcy."

Republican Treasurer Upham says that Governor Cox's figures are only quotas and that the Governor doesn't know the difference between a quota and a budget. I think he does, and I think everybody else does—it's graft.

Chairman Hays says the financial plan of his party is based on the Red Cross plan. Bill Barnes must have known this in advance, too. Before the Republican national army took the field, Barnes was out getting first aid.

In calling his plan the Red Cross plan, I trust Chairman Hays hasn't forgotten that all the Red Cross quotas were filled. I hear that Boston will exceed its quota brush, Ariz., and Devil's Hole, Idaho, the boys who want to go back to "normalcy" are digging. Out there they think that "normalcy" means the old price, two for a quarter.

Speaking of Boston reminds me of that local financial genius who started out with a budget and a quota. His budget is what came in and his quota was the sky.

In one way I tell sorry for Ponzl. He started too soon and in the wrong game. He might have had a grand political career as financial director of "the party of great moral ideas."

Under the Harding-Old Guard plan for a Syndicated Presidency, he would make a fine candidate for Secretary of the Treasury. If the "Big Interests" could break up the Federal Reserve Bank act, I believe they would be liberal and be satisfied with 50 per cent.

Poor Ponzl! He was only a piker, but of course he couldn't know what kind of competition he was going to have. He probably knows by this time, however, that he didn't get all the "quack-re money."
