The Flavor Lasts So Does the Price!

FEARED IT WAS FOR SPITE

Mrs. Green Considerably Relieved When Husband Explained His Reasons for Singing.

Mr. Green fancied his voice, and hardly ever failed to attend any musical evenings that were given in his neighborhood.

On this occasion, however, he was rather nervous, for his wife was going with him for the first time, and she had never heard him sing in public; in fact, she didn't know he had ever done so.

When the meeting was drawing to a close the chairman stood up and asked if any gentleman would oblige with a song. Green at once climbed upon the platform and obliged—much to his wife's annoyance, if one could accept her expression as a criterion of her feelings.

"George," she whispered, when the pair were on their way home, "what ever made you sing?"

"Why, my dear," said her husband, "to give pleasure to the other guests." "Oh, I'm so glad!" sighed Mrs. Green, with great relief. "I thought you were taking vengeance on me for making you wait 20 minutes for your dinner this evening!"—London Tit-Bits.

Your body is a delicate machine. Take care of it.

Good Angels.

Good angels do not of necessity operate from a motive of helping certain individuals. Often they are moved by the thing to be done more than they are by the idea of helping a person. This big, promising, panting world needs help. In it lie untold possibilities. Only a small fraction of its benefits are being received by men. So the good angel helps. When it sees man struggling to advance good angels help for it is thus they advance the world. So in proportion as you try to benefit your fellowmen you will be coming under the observation of good angels.—Grit.

Better Stay in France.

According to a clerk in the vital statistics office, a certain doughboy, still "over there," is going to get a warm reception when he gets home.

It seems his wife went to register her new baby. After answering all the necessary questions she put down \$1. "There is no charge," said the register.

"What," answered the mother, and after thinking, murmured: "Wait till he comes home. It has cost me a dollar every time he has registered our six children."—Los Angeles Times.

"Try, try again," is the motto of many an actress who finds marriage a failure.

TRACTORS ARE DISPLACING HORSES

One Man and Tractor Doing the Work of One Man and Four Horses.

Tractor investigations, with special reference to the influence of the tractor on horse labor, were made in the summer and fall of 1918 on 191 corn-belt farms. The operators of these farms, all tractor owners, were visited by a representative of the United States department of agriculture, and detailed information on all farm operations was gathered. The inquiry covered a full year's work, so that the part played by the tractor might be noted in all its relations.

The investigation was carried on in Ohio, Indiana, Illinois, Iowa, Missouri, Kansas and Nebraska. In each of these states localities were visited in which a large number of tractors were in operation. The information obtained, while perhaps strictly and fully applicable only to the farms visited, may be taken as a general guide as to the results which might be obtained in using a tractor on any corn-belt farm of like type and organization.

The statements here made and conclusions drawn are not advanced as being final, but simply as additions to the available information regarding farm tractors.

Range of Conditions.

To obtain results which would give as near a representative average as possible, an effort was made to get reports covering tractor operations under as many different conditions as possible, and hence the conditions represented range from adverse to ideal. The farms visited ranged from flat to hilly. The soils varied from the heaviest gumbo through all the various loams to light, drifting, sandy soils. Some of the gumbo soils now under cultivation on these farms were formerly unproductive, owing to the inability of horses to plow the soils. With the introduction of the tractor, this land has come under cultivation and is now yielding big returns. It

Four Horses and One Man Doing the Work of a Tractor.

was found that tractors were operated successfully in what would be termed unfavorable as well as favorable seasons, which would tend to show their general adaptability.

While the section covered is roughly called the corn belt, farm practices are not uniform throughout the region. In most parts of the eastern corn-belt states commercial fertilizers and lime are used, these being applied by horse-pulled distributors. In preparing the land for crops all the ground may be plowed, or the small grain may be seeded on the previous year's corn ground by disking or harrowing, without plowing. The latter practice reduces work for horses or tractor in the busy season. Whether most of the plowing is done in the fall or only a small part, and the rest in the spring, depends largely on location. Where fall and spring plowing are done in about equal amounts on individual farms, the tractor is used more in the fall than in the spring, and horses vice versa. It was found that when all the reports obtained were grouped together only five more operators plowed in the fall than in the spring, but the number of acres plowed in the fall averaged 23.7 more per farm. The number of men using horses as an auxiliary source of power was practically the same in each case.

Tractor Saves Labor.

Many farms have woodlands, and as these are cleared the tractor is used for sawing wood for market, thus increasing the days of belt operation. The scarcity of labor in 1918 hampered the gathering of crops, and in the states on the eastern edge of the corn belt the tractor was used to a considerable extent in the hay field, to the exclusion of horses.

As corn is the principal crop in this region, the effect of the tractor on

horse labor will be more noticeable in the case of this crop than that of any other crop grown, the average acreage of corn per farm of those visited being 83.5 acres, which is 32 per cent of the tillable area of these farms. The remaining crops grown on these farms, in order of crop acreage, are: Wheat, hay, oats, barley and rye.

Only the physical relationship of tractor power to horsepower has been considered, and no attempt is made here to compare the relative costs of doing work by these sources of power. The number of horses displaced on these farms is also shown, but no inference has been drawn as to whether the work is being done more cheaply as a result of the change.

Summary of Results.

Briefly summarized, these are the principal facts brought out or emphasized by this study:

1. The number of horses disposed of on 141 farms averaging 346½ acres, on which tractors had been used for a year or over, was 2½ per farm.
2. The average number of tillable acres per horse increased from 29½ to 38½ after the purchase of the tractor.
3. Nine operators out of 191 displaced horses entirely on plowing, disking and harrowing.
4. Only 16 operators allowed their horses to stand idle while the tractor was in use.
5. The number of horses displaced by the tractors on these farms was governed by the number it was necessary to retain for corn cultivation and other work current at the same time, which the tractor could not do.
6. The horses remaining on these farms are doing about 75 per cent of the tractive work and tractors the remainder.
7. The tractor was used for an average of 29 ten-hour days per year on the home farm. No record of the amount of custom work done was obtained.
8. A three-plow tractor on these farms does the work of 8½ horses in plowing, disking, harrowing and harvesting.
9. After purchasing the tractor, the average size of the farms was increased by 22 acres, or 0.13 per cent.
10. The principal advantage of a tractor is its ability to do heavy work in a shorter time than it can be done with horses.

INCREASE PROFITS BY GRADING ALL PRODUCE

Farmer Should Sort According to Size and Quality.

Grade Specifications Recommended by Bureau of Markets Have Benefited Farmers Materially Where Practiced.

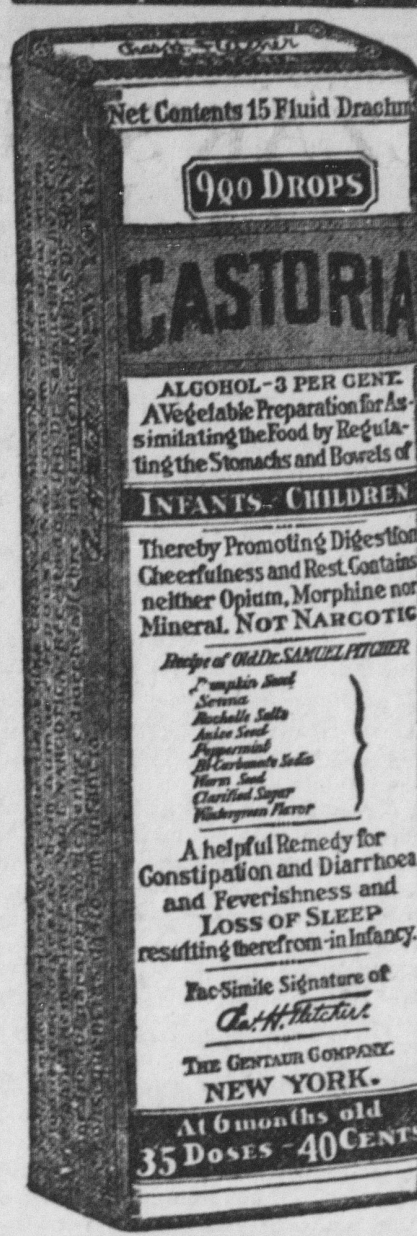

When a farmer orders a box of bolts of a certain make and size he does not expect to find a thin layer of the bolts specified on the top of the box and assorted bolts underneath. In the world of commerce a manufacturer who pursued such practices would soon be bankrupt.

The same principle applies to the sale of farm products, say specialists of the bureau of markets, United States department of agriculture. Before sending produce to market the farmer should sort it as to quality and size. The bureau of markets from time to time has recommended grade specifications for various products, and wherever these recommendations have been followed satisfaction and increased monetary returns have generally resulted. For instance, it is estimated that in 1919 the potato growers in Virginia increased their profit a half million dollars by grading their produce. Similar results are being obtained in other states.

PLOWING FOR WINTER WHEAT

Decided Advantage in Preparing Land Early is Shown by Experiments in Kansas.

In Kansas experiments, wheat planted on land plowed in late July or early August yields on the average of 15 bushels per acre, whereas, wheat planted on land plowed in September has yielded only 11 bushels per acre.

CASTORIA

For Infants and Children.

Mothers Know That Genuine Castoria

Always Bears the Signature of

Charles H. Fletcher

In Use For Over Thirty Years CASTORIA

"FREEZONE"

Lift Off Corns! No Pain!

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Out of Babe's Mouths.

"Children often enunciate profound truths unconsciously," said Senator Hiram Johnson. "I once asked a tiny tot what a demagogue was. The tot thought a moment, and then answered: 'A demagogue is a vessel containing beer and other drinks.'"

USE "DIAMOND DYES"

Dye right! Don't risk your material in a poor dye. Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into old garments, draperies, coverings, everything, whether wool, silk, linen, cotton or mixed goods.

Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed. Druggist has "Diamond Dyes Color Card"—16 rich colors. Adv.

Steady Decline.

"Some men seem to reach the zenith of their powers early in life."

"Yes?"

"There's Henry Butterbean, for instance, whose wife runs a boarding house. When Henry was a boy he was captain of our baseball team and had the largest library of dime novels in town, but he hasn't been prominent since."—Birmingham Age-Herald.

"Cold in the Head"

is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh.

HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.

All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Well Acquainted.

Mrs. Bacon—How long since your new neighbor moved in?
Mrs. Egbert—Two months.
"And do you know them yet?"
"Oh, my, yes. They began borrowing things the first week they moved in!"

Dr. Peery's "Dead Shot" not only expels worms or tapeworm but cleans out the mucus in which they breed and tones up the digestion. One dose sufficient.—Adv.

No city in the nation is removed from starvation more than two weeks.—Asbury F. Lever.

EATONIC Users —Do This—Get the Greatest Benefits

Chicago, Ill.—Thousands of reports from people all over the U. S. who have tested eatonic, show the greatest benefits are obtained by using it for a few weeks, taking one or two tablets after each meal.

Eatonic users know that it stops Belching, Bloating, Heartburn, and Stomach Miseries quickly, but the really lasting benefits are obtained by using eatonic long enough to take the harmful excess acids and gases entirely out of the system. This requires a little time, for eatonic takes up the excess acidity and poisons and carries them out of the body and of course, when it is all removed, the sufferer gets well, feels fine—full of life and pep.

If you have been taking an eatonic now and then, be sure and take it regularly for a time and obtain all of these wonderful benefits. Please speak to your druggist about this, so that he can tell others that need this help. Adv.

FRECKLES

Let's Go to Durham. In the county of Durham, England, it is an old custom to give fruit cake and cheese to the first person met on the way to the church by a christening party.

INVENTIVE GENIUS ROBS CALOMEL OF NAUSEA AND DANGER

Doctors' Favorite Medicine Now Purified and Refined from All Objectionable Effects. "Calotabs"—the New Name.

What will human ingenuity do next? Smokeless powder, wireless telegraphy, horseless carriages, colorless iodine, tasteless quinine,—now comes nauseless calomel. The new improvement called "Calotabs" is now on sale at druggists.

For biliousness, constipation and indigestion the new calomel tablet is a practically perfect remedy, as evidenced by the fact that the manufacturers have authorized all druggists to refund the price if the customer is not "perfectly delighted" with Calotabs. One tablet at bedtime with a swallow of water—that's all. No taste, no nausea, no griping, no salts. By morning your liver is thoroughly cleansed and you are feeling fine, with a hearty appetite. Eat what you please—no danger—about your business.

Calotabs are not sold in bulk. Get an original package, sealed. Price, thirty-five cents.—(adv.)

Husband and Wife. "You never take me anywhere. I never see any life."

"What are you talking about? You can see plenty of life watching the motorcars whizz past our front windows."

The Cuticura Toilet Trio.

Having cleared your skin keep it clear by making Cuticura your every-day toilet preparations. The soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume. No toilet table is complete without them. 25c everywhere.—Adv.

Reduced to It. "I feel as limp as a rag."
"That is because you have been torn by emotions."

MURINE Night and Morning. Have Strong, Healthy Eyes. If they Itch, Itch, Smart or Burn, if Sore, Irritated, Inflamed or Granulated, use Murine often. Soothes, Refreshes, Safe for Infant or Adult. At All Druggists Write for Free Eye Book. Ruess Eye Ready Co., Chicago

The Increasing Demand for POSTUM CEREAL

shows the favor this table drink is constantly gaining because of its rich taste and economy.

Boil Postum Cereal fully twenty minutes and you have a flavor similar to the highest grade coffee, but there's no coffee hurt in Postum.

It is pure and wholesome!

Made by Postum Cereal Co., Inc. Battle Creek, Mich.
