

# I SUFFERED THREE YEARS

### Finally was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lowell, Mass.—“I was all run down and had an awful pain in my right side, was persistently constipated and had very dizzy spells. I suffered for three years and was perfectly miserable until a friend was telling me to try Lydia E. Pinkham's Vegetable Compound and I found it a wonderful medicine. I can now do twice as much work and I recommend the Vegetable Compound to other women. You can use these facts as a testimonial.”—Mrs. M. THRELL BESSEY, 186 Appleton Street, Lowell, Mass.

Why women will continue to suffer so long is more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound. For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

### Stock Raising in Western Canada

is as profitable as grain growing. Successes as wonderful as those from growing wheat, oats, barley, and flax have been made in raising Horses, Cattle, Sheep and Hogs. Bright, sunny climate, nutritious grasses, good water, enormous fodder crops—these spell success to the farmer and stock raiser. And remember, you can buy on easy terms.

### Farm Land at \$15 to \$30 an Acre

—land equal to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—irrigated land convenient to good grain farms at proportionately low prices. These lands have every rural convenience: good schools, churches, roads, telephones, etc., close to live towns and good markets. If you want to get back to the farm, or to farm on a larger scale than is possible under your present conditions, investigate what Western Canada has to offer you. For illustrated literature with maps and particulars regarding reduced railway rates, location of land, etc., apply to Dept. of Immigration, Ottawa, Can., or F. A. HARRISON, 210 N. # JUST GAVE UP SUFFERED SO

### Weakness, Pains and Other Troubles Had Discouraged This Arkansas Lady.—She Took Cardui, Found It Helpful. Got Well!

Harrisburg, Ark.—After serious symptoms had become apparent, Mrs. Belle Wilkerson, of Route 1, this place, says she “got worse and worse.” “I wasn't able to stand on my feet and had to go to bed,” she explains. The . . . grew worse, and for about three weeks nothing seemed to do me any good. I grew so weak and nervous and could not sleep. I began to have pain in the lower part of my body, and all across my back. There was a great deal of soreness and pain in my left side. . . . I just gave up, for I suffered so. I grew discouraged and thought I was not going to get well. “My head not only ached, but would feel so light and dizzy. . . . I decided then I would take Cardui, as I read of how many women it had benefited, and some whose case was like mine. When I began Cardui, just after a few doses, I noticed a change. I slept better at night. . . . and felt like I could eat something. I got up and began to do the work in the house and yard, and after three or four bottles of Cardui I was well.”

If you suffer from disorders peculiar to women, take Cardui—the Woman's Tonic. It should help you, like others. —Adv.

# BRAVE AMERICAN IN POLISH ARMY

### Brigadier General Sweeney, Millionaire, Battles for Cause of Freedom.

## TRAINED AT WEST POINT

### Served in Mexico, South America and Gave Valiant Service in the World War—Unusual Type of Soldier of Fortune.

New York.—War dispatches making more than casual mention of Brig. Gen. Charles Sweeney have lent to the Polish struggle more than an impersonal interest to American army officers at Governor's Island, who are well acquainted with Sweeney, an American soldier of fortune with both principle and purse.

Men of no fortune at all who fight for excitement and pay are common enough. But Sweeney, U. S. A., is a multimillionaire's son, his father having amassed great wealth in the famous Coeur D'Alene mines of Washington and Idaho, and the soldier is more than a millionaire in his own right. He put in three years at West Point and then sought the life of an active soldier in Mexico, South and Central America and Europe.

### Offers Self to Poland.

Sweeney, a former lieutenant colonel in the United States army, attached to the general staff, was in Paris during the spring of 1919, recovering from wounds suffered in the Argonne offensive with the A. E. F., when he learned that Poland was in need of officers for her new armies. He consulted with the then Premier Paderewski and offered to recruit volunteers when he

returned to America. In three weeks he had selected 200 former American army officers, all of whom had seen service in France. Colonel Sweeney sailed for Poland in September of last year with the first of his officer contingent. He was not long in getting into the fight and in recognition of his splendid services Poland commissioned him a brigadier general.

### Soldier of Fortune.

He went to Mexico and got a wound in the Madero affair. Upon recovery, Sweeney packed up for South America,

where he took a hand in several of the revolutions. He got into the world war as a private in the Foreign Legion. In the first Champagne battle in September, 1915, he was commissioned a lieutenant on the field for gallantry. He was severely wounded and gassed in this battle, and on a hospital cot in Paris he was awarded the cross of the Legion of Honor.

Two other important decorations were bestowed on him in rapid succession and he had a great reputation for bravery. Soon after being made a captain of the French forces, he was sent to the United States upon advice of Ambassador Sharp as an instructor in 1917.

Sweeney was commissioned a major in the United States army and helped to train the Eightieth division at Camp Lee, Va. He went overseas with this division, got shot up in the Argonne and was promoted lieutenant colonel for gallantry before the enemy and assigned to the staff of the A. E. F.

## NEW JUMP IN IMMIGRATION

### Increase of 20,000 in Week Laid to Typhus and War in Europe.

Washington, D. C.—Immigration officials here profess to be mystified at the sudden increase in immigration which approximated 20,000 persons last week; and, it continued, would add 1,000,000 to the population of the country in a year. Louis F. Post, assistant secretary of the department of labor, said today no information has yet reached the department which will explain the situation.

“But I have a theory about it,” said Mr. Post. “I am inclined to think that many of these people are coming here to get away from conditions at home and that the condition is only temporary. Only last week a ship was held up at quarantine with typhus aboard, and the war is not yet over in Europe. Either one of these conditions would naturally make a lot of people anxious to get away.”

## Eggs Proved Too Frail As Carriers of Whisky

Eggs may be all right to ship whisky in, but the baggage smasher must handle such cases with care. At a station in West Virginia some of the eggs broke and a prohibition inspector found three cases of “doctored” eggs. Each egg had been carefully “blown” from the shell. After whisky had been poured in, the aperture had been sealed with cement.

### “David and Goliath” Re-enacted.

Indianapolis, Ind.—Just as a mad bull was charging Robert Williams, intent on goring him to death, a small boy hurled a brick. It struck the bull squarely between the eyes and killed the animal. The boy, scared, ran away after the feat.

# Thrift Urged By Uncle Sam

### Treasury Department Is Spending Million Dollars to Encourage Saving.

## WANTS PEOPLE TO INVEST

### Carrying on Campaign for the Sale of Thrift Stamps, War Saving Stamps and Saving Certificates—School Rooms Organized.

Washington.—Uncle Sam is spending \$1,000,000 this year, through the savings division of the treasury department, in an effort to encourage thrift.

The expenditure of \$1,000,000 compares with an expenditure last year of approximately \$4,000,000, and the staff of employees which comprises a force in Washington and an organization in every federal reserve district compares with the great force inherited from the war.

### Advocates Opening of Bank Accounts

The savings division carries on the campaign for the sale of Thrift stamps, War Savings stamps and saving certificates, but these sales are merely a side line to the general effort, for just as much stress is being put upon the opening of savings accounts in the banks as upon the sale of stamps. Through the subsidiary organizations just as much effort is being made to have the housewife keep a budget as there is effort to propagandize the homes in the interest of government securities.

In the period from December 1, 1917, to January 1, 1919 the sale of government securities, exclusive of Liberty and Victory bonds, reached more than \$1,000,000,000. In 1919 the sales dropped to \$134,239,687.84. In the first six months of this year the sales dropped to \$26,985,842. But the report of the six months of the year is no indication of what the final report will be, according to O. C. Lester of the savings division, who says the people do not save as much dur-

### URGES FRENCH LEARN GERMAN

Former President Poincare Points to Value of Language to His People.

Paris, France.—“Learn German,” is the advice former President Poincare has given the French through the Association of Language Professors. He said: “To dominate German science, we must understand it. To maintain the independence or the superiority of our literature, we must not close our eyes to foreign literature, not even that of Germany.”

M. Poincare added that German must be known by those who undertake the administration of the occupied regions, and also to restore French to its proper place in Alsace-Lorraine.

Army officers recently were urged to learn German. The government has reinstated that language in the officers' training schools.

## Building Homes for the Chicago Homeless

The Chicago Housing association has undertaken a great social experiment in the erection of many homes for families which had nowhere to live owing to the house shortage in that city. The homes are of brick, two stories, and the tenant pays rental of about \$35 a month which is applied on the purchase price. The house is sold at exact cost.

# ON THE FUNNY SIDE

BENEFITS IN DISGUISE.

“This house is rather old, isn't it?” said the prospective tenant.

“Oh, no,” assured the real estate agent. “This house is comparatively modern.”

“But these stairs creak terribly,” complained the prospective tenant.

“Oh,” explained the agent, “that is the latest modern improvement in homes. That is a patent burglar alarm staircase. No burglar can get up to the bedroom floor without waking you up.”

“Unless those fellows have cast iron constitutions they probably lie flat on their backs and rest.”

Where It Would Fit In.

“I don't know what to do with my youngest boy. He has such a negative kind of character.”

“Then why don't you make him a photographer.”

Delicate Consideration.

“Why do alienists employ such large words?”

“So they can say anything they choose, right in a man's presence without risk of hurting his feelings.”
