SPRING MILLS.

A little daughter was born to Mr. and Mrs. Jacob Lee on Nov. 6th.
George Wolfe is having a pipeless furnace installed in his residence.
Andrew Rote and wife spent Saturday in Union county.
Mrs. T. M. Gramley is spending some time in Pittsburgh visiting relatives and friends.
Aaron Stitzer and family, of Rochester, N. Y., are spending an indefinite time with Mrs. Stitzer's parents, Mr. and Mrs. Wm. Zones.
Quite a number of people motored to State College on Saturday to witness the ball game.
Ammon Decker is re-roofing his house.
The women of this precinct polled one hundred and twelve votes at election.

OIL CONSUMPTION INCREASED.

New High Record Made in September, With Output Lower.

Washington.—Consumption of petroleum reached the high record figure of 48,670,000 barrels in September, while production decreased slightly, the Geological Survey reported in its monthly statement. The average daily production was placed at 1,261,500 barrels, as compared with 1,270,870 barrels in August.
The deficiency in domestic production, the survey stated, was offset by net imports of 10,914,000 barrels, the largest ever recorded in a single month.
Decreased production was ascribed by the survey to lessened returns from Central and North Texas and North Louisiana.
California, in September, attained the record daily production of 304,267 barrels, supplanting Oklahoma as first in rank. Montana went ahead of Colorado.

His Greatest Terror.
"What were you most afraid of while flying in your airplane?"
"The people on the earth who, I knew, were waiting to ask me a lot of questions just as soon as I landed."

Lonely Telephone Station.
An isolated telephone pay station is located at a camp on the shore of Richardson lake, one of the Rangeley group in northern Maine. This telephone is more than 30 miles from the nearest station at Rumford, on the Maine Central railroad. The line runs 12 miles from the camp to the town of Andover, where connection is made with switchboard in the office of the Andover Telephone company, a licensee of the New England company. From that town the lines extend 18 miles to Rumford. From this telephone many emergency calls have originated during the ten years since the station was established. It has been the means of saving the lives of many hunters and woodsmen who have been injured in the north woods.

How They Cleaned Up Years Ago.
The following clipping was taken from a southern paper printed in 1846 which tells of a sale being advertised at that time. It makes curious reading at this day.
"The undersigned, on Tuesday, Sept. 29, 1846, will sell at public outcry for cash on premises the following chattels, to wit: 9 yoke of oxen with yoke and chain, 2 wagons with beds, 3 nigger wenches, 4 buck niggers, 3 nigger boys, 3 prairie plows, 25 steel traps, 1 barrel pickled cabbage, hoghead of tobacco, 1 lot nigger hoes, 1 spinning wheel loom, 2 fox hounds, a lot of coons, minx and skunk skins and a lot of other articles as I am guine to California.
Richard Roe crier. Free head cheese, apples and hard cider at noon.

LOCAL RED CROSS AUXILIARY.

Financial Report for Year Closing November 8.—Annual Meeting Failure.

The treasurer's report of the finances of the local Red Cross Auxiliary as here published shows the auxiliary having on hand cash in the sum of \$91.86, the total receipts for the year having been \$275.89. Of this sum \$180.50 was obtained as dues, and the cash on hand represents approximately fifty per cent of this item.
The annual meeting called to elect new officers was so lightly attended, that the matter was postponed to some future time.
It is hoped that our citizens in and about Centre Hall will not fail to renew their membership in this great cause. There are calls everywhere for the Red Cross work. It is time to enroll now. Do not wait for a solicitor to wait on you, but rather forward the money to the treasurer as soon as you read this item.

Hog Cholera in Mifflin County.
H. C. Miller, of Lewistown Junction, has lost three nice hogs within the past week from cholera. His loss will exceed \$250 as the porkers tipped the scales at from 450 to 500 pounds, each and were in excellent order for the slaughter. Mr. Shade, the tenant on the Dr. Swigart farm, has lost about \$500 this season from the same cause. After being seized by the disease the hogs last only a few hours.

Chestnut Crop of State Destroyed by Blight.
Chestnut blight, which has swept away hundreds of thousands of magnificent chestnut trees in Pennsylvania, has now invaded the northwestern section of the State, thus practically completing its devastation in every section of the Commonwealth, according to Prof. J. G. Sanders, head of the Bureau of Plant Industry, Pennsylvania Department of Agriculture.
While in the southern and eastern sections of the State the chestnut forests succumbed to the blight several years ago, large tracts in the northwestern section remained free, but this year the trees in that section show the withering effect of the strange malady.

HEALTH SCHOOL

Pennsylvania State Department of Health.

Answers to Health School Questions.
Question 1—Why should French heel shoes not be worn?
Answer—They lessen the freedom of the ankle motion, throw the weight on the ball of the foot and cramp and crowd the toes.
Question 2—What is the cause of that condition known as painful feet?
Answer—Weakened supporting muscles of the arches of the feet throw extra strain the ligaments which hold the bones together. It is the pull of these ligaments upon the outer shell of the bones which causes painful feet.
Question 3—How may it be corrected?
Answer—By proper shoeing and regular feet exercises.
The subject of the next lesson will be "Pot's Disease" or "Tuberculosis of the Spine". Tuberculosis may attack any part of the body—when the bones become affected they break down. All cases of "hunchback" are the result of tuberculosis of the spine, but if properly treated in the early stage the characteristic deformity may be prevented.

IT COSTS TOO MUCH TO BE SICK.

Keep Your Blood in Good Condition and You Throw Off Disease.
PAY ATTENTION TO YOUR HEALTH.

No Need to Take Chances With It. Pepto-Mangan Makes Rich, Red Blood.

When you first feel a tired, all-gone feeling and look pale, your blood is losing in quality. Weak, impoverished blood has no power to fight disease. It takes red blood to keep you well.
If you keep your blood in good condition it will fight off disease. You will not be such an easy prey to long and expensive sickness. With this blood you take chances every day.
There's no need doing that. You can take Pepto-Mangan and build up rich, red blood. With red blood you are able to win in the fight against prevailing diseases. Try Pepto-Mangan. It comes in tablet or liquid form. Take either kind. The tablet has the same medicinal value as the liquid. But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the name "Gude's Pepto-Mangan" is on the package.

THE U. S. NAVY
Passing Through the Canal.

The U. S. S. Wyoming and the U. S. S. New Mexico are shown here passing through the Pedro Miguel locks of the Panama Canal.
The electric engines along the side of the locks are called "mules" in deference to their four legged predecessors—they have just hauled the battleship through the locks. If you are interested in mathematics you might figure out how many old style mules it would take to do the job.
The Wyoming at the left, is moving out to the lower level, and as soon as the water in the other lock is let out to the correct level the New Mexico will move ahead.
This picture was taken from a U. S. Navy flying boat, during the recent trip of the Pacific Fleet to the West Coast. They were royally received at all of the ports along the trip.
