JOIN THE RED CROSS.

In its annual membership campaign the Red Cross is appealing for further support as an organization where work is never at an end. During the excitement of the World War, millions of American men, women and children eagerly responded whenever the summons came. That time of national emergency is past and the country has returned to the normal way of peace. But the Red Cross still remains the same efficient agency for service to mankind that it was when the armies of the world were fighting on the battlefields of France. Wherever the call of humanity is heard, it must be prepared for instant action.

No one who has once joined the Red Cross can feel that he has done his full duty if he lets his membership lapse. It should be renewed periodically as an obligation to be loyally met. It is an army of mercy for which volunteers can never be wanting.

Carpenter John Bright rented the farm known as the Joseph Corman farm, situated two miles west of this place, and which was bought at public sale by Dr. Allison several months ago.

George Corman broke one of his fingers while loading lumber. A large piece of square timber fell on his hand and badly bruised it in connection with fracturing his finger.

Howard Krape and wife, who left for State College several weeks ago to work in a restaurant, have returned home. They say, "There is no place like home, sweet home."

On last Saturday Noah Corman was not very successful in disposing of the plots of top wood along the mountain side southwest of Smulton. He only sold five plots out of the twenty-one offered at public sale, claiming that the bids were too low.

Fire Destroys Barn and Stock Near Mifflinburg.

Fire of unknown origin destroyed the large back barn and several other out buildings on the farm owned by James Sanders, and tenanted by Warren Seebold, near Rays church, about three miles west of Mifflinburg, early Saturday morning, November 6th.

The fire was discovered by Mr. Seebold about 3 o'clock in the morning, but not until the entire structure was all aflame. He and his family fought the fire unassisted for almost an hour before any persons from the adjoining farms discovered the fire and came to his assistance.

The entire barn being in flames when the fire was discovered, Mr. Seebold was unable to rescue any of the animals in the barn at the time. Four horses, one bull and a calf were burned besides 600 bushels of wheat, about 700 bushels of oats, all the straw and hay, and a few implements. The best implements were housed in an implement shed some distance away from the barn and were saved. The cows were in pasture during the night and therefore escaped.

The entire loss is estimated at \$8,000 and is partly covered with insurance.

PINE GROVE MILLS.

The first tracking snow fell Monday morning but few gobblers were brought down.

There will be preaching in the Presbyterian church here on Sunday afternoon at 2:30.

Roy Kline and Clyde Fishburn each came in with a big gobbler off Old Tussey the first day of the season.

While the Lutheran church here is being remodeled the Odd Fellows hall is being used by the worshippers. The edifice will be ready to re-dedicate by Christmas time.

Dr. H. L. Fry, wife and two little daughters came over from Jackson, Miss., to get a whisp of fresh air and to visit their relatives and friends along the line to Wilkes Barre, the parental home of Mrs. Fry.

Several big sales were pulled over last week: The James Oliver farm was bought by E. E. Ellenberger at the \$20,000.00 mark. The John Ellenberger farm at Guyer and the Charles Henderson farms exchanged owners recently. The Amanda Mothersbaugh farm was sold on Saturday for \$4500.00 for 40 acres.

The class in teacher training of the 10th district of Centre county will hold graduating exercises next Sunday evening at 7:30 in the M. E. church. A good program will be put through and Dr. Anderson of State College will address the class. The public is most cordially invited.

Our popular sale crier, J. I. Reed, while driving his Ford on the State road, at a sharp curve east of town, collided head-on with a car driven by a Philadelphia party. Both cars were badly twisted and were towed to a garage. The stranger escaped with only a shaming up, while Mr. Reed suffered numerous bruises and several cracked ribs.

Timely Reminders from
The Pennsylvania State College

GARDEN SLUGS are bothersome pests and a reduction in their attacks next season can be gained now by cleaning up and destroying all litter in the garden.

FARM MACHINERY—An extension representative from State College last week on a trip through the north-eastern part of the state noted spraying machines exposed to the weather on no less than six farms. Sprayers should be drained and placed under cover for the winter.

SALTING IMMATURE CORN—Those farmers who may have immature corn in their cribs can prevent molding by salting. Use one pound of salt to three bushels by weight of ear corn.

TILE DRAINAGE—Tile drain those places where wheat, alfalfa and clover were heaved, our last winter by frost. This work can be done during the late fall and winter months when general farm work has slackened up somewhat.

BEEF BREEDING COWS—Can be economically maintained and will come thru the winter in good condition if fed all the corn silage they will consume along with a pound of cottonseed meal per head daily.

TRUCK—Some varieties of celery are easily injured by light freezes. They must be given some protection on cold nights, or used at once for table or market.

ADVANCED REGISTRY TESTS—A prominent Gernsey breeder says: "I bought a heifer for \$125, and have sold \$20,000 of products from her. It could not have been done without advanced registry testing." If you have pure bred cows, write the Dairy Husbandry Department, State College, Pa., about testing them.

THE AMERICAN RED CROSS
IN PEACE TIME
Aiding Poland

But for the work of American Red Cross agents in all regions of Poland during the last twelve months, hundreds of thousands of people in that tragic country today would be under the sod, victims of hunger, disease and exposure. The job in Poland is one of tremendous proportions and cannot be abandoned for many months to come. Here is a typical scene: A Red Cross worker "at the throttle" of a soup kitchen where hundreds of undernourished women and children are fed daily.
