Spohn's Distemper Compound

is the one indispensable remedy for contagious and infectious diseases among horses and mules. Its success as a preventive and cure for DISTEMPER, PINK EYE, INFLUENZA, COUGHS and COLDS for more than twenty-six years is the highest tribute to its merit as a medicine. It is endorsed by the best horsemen and live stock men in America. Buy it of your druggist. 50 cents and \$1.20 per bottle.

SPHOHN MEDICAL CO., Gothen, Ind., U. S. A.

Evening Star.
Any planet that rises before midnight is called an "evening star." If it does not rise until after midnight it is a morning star. These terms are never applied to the real stars, which are called "fixed stars," but only to planets, which are not stars.

Her Case.
"She is perfectly crazy about cake and bread making."
"I see; a regular dough nut."

say

Aspirin

Then it is Genuine

Warning! Unless you see the name "Bayer" on tablets, you are not getting genuine Aspirin prescribed by physicians for 21 years and proved safe by millions.

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains proper directions for Colds, Headache, Pain, Toothache, Neuralgia, Rheumatism, Neuritis, Lumbago.

Handy tin boxes of 12 tablets cost but a few cents—Larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetateacidester of Salicylicacid.

One Way.
"Mummy, I'm goin' to give Auntie Maud my spade and pail."
"Whatever for, Willie?"
"So that she can kick it."
"Kick it?"
"Yes. Daddy said we should have a lot of money if only auntie would kick the bucket."—Tit-Bits.

Usage of Language.
"He's all wool."
"I can't cotton to him."—Louisville Courier-Journal.

Admitted.
It is related that when Judge Benjamin Toppin of Ohio, who died in the early 70s, applied for admission to the bar of that state he was asked just two questions. "Mr. Toppin, what is law?" was the first of these. "An unjust distribution of justice," replied the applicant.
"What is equity?" was the second. "A d— imposition upon common sense!"
He was received into the brotherhood with open arms.

Another Royal Suggestion

MUFFINS and COFFEE CAKE

From the NEW ROYAL COOK BOOK

BREAKFAST is too often eaten as a duty rather than a joy. The Royal Educational Department presents here some breakfast dishes that will stimulate the most critical appetite.

Muffins
2 cups flour
3 teaspoons Royal Baking Powder
1 tablespoon sugar
1/2 teaspoon salt
1 cup milk
2 eggs
1 tablespoon shortening
Sift together, flour, baking powder, sugar and salt; add milk, well-beaten eggs and melted shortening; mix well. Grease muffin tins and put two tablespoons of batter into each. Bake in hot oven 20 to 25 minutes.

Coffee Cakes
2 cups flour
1/2 teaspoon salt
3 tablespoons sugar
4 teaspoons Royal Baking Powder
2 tablespoons shortening
1/2 cup milk
Mix and sift dry ingredients; add melted shortening and enough milk to make very stiff batter. Spread 1/2-inch thick in greased pan; add top mixture. Bake about 30 minutes in moderate oven.

Top Mixture
2 tablespoons flour
1 tablespoon cinnamon
1/2 tablespoon sugar
4 tablespoons shortening
Mix dry ingredients; rub in shortening and spread thickly over top of dough before baking.

ROYAL BAKING POWDER

Absolutely Pure

Made from Cream of Tartar derived from grapes.

SENT FREE

New Royal Cook Book containing scores of delightful, economical recipes, many of them the most famous in use today.

Address: ROYAL BAKING POWDER CO., 113 Fulton Street, New York City.

GIVE ATTENTION TO LITTLE CALF

Start It Right if It Is to Develop Into Healthy and Profitable Cow.

KEEP IN THRIFTY CONDITION

Milk Testing Four to Five Per Cent Is Not Readily Digested by Young Calves and Often Causes Scouring—Roughage Invaluable.

During the first six months of its life a calf needs considerable attention, if it is to develop into a healthy and profitable cow. At this time of the year when a great many calves are started special care should be taken not only to get them started right, but also to keep them in a thrifty condition.

It is economy to keep calf in such condition that it will gain one to one and one-half pounds daily, rather than to allow it to become at all stunted. As rich milk, testing four to five per cent, is not readily digested by young calves and often causes scouring, it is best to feed them three to three and one-half per cent milk. A strong calf at this time of the year can be given one pound of milk for every eight pounds of its live weight.

Be Careful With Gruel.
Most dairymen get their calves gradually to eating some kind of calf meal fed in the form of a gruel, but many make the mistake of feeding too large a quantity of this gruel, thinking that it is not as wholesome as milk, and that they must, therefore, feed more of it to make up for the food value of the milk. This causes indigestion, and the calves become pot-bellied. The better practice is to feed from six to

Starting Early in Dairying.

eight quarts of gruel and give the calves a good allowance of grain ration consisting of equal parts by weight of corn, oats, bran and oil meal.

Silage Often Disastrous.
Silage is often fed to calves with disastrous results. This may be overcome by first feeding grain, milk and hay, then silage. Good roughage is invaluable, and it is a wise practice to use the second cutting of alfalfa or clover for calf feeding.

KEEP BIRDS OUT OF GUTTERS

Strip of Galvanized Wire Cloth or Netting Will Effectively Exclude Sparrows.

To keep the birds from nesting in the gutters or leaves from blowing in, a strip of No. 4 or No. 6 galvanized wire cloth or netting should be crimped on top of the eaves gutter or held in place by wire passed around at intervals of every two or three feet. The number of the wire cloth indicates the number of meshes to the inch, the finer being more suitable for the purpose. The covering will not interfere with a free passage of water, but will effectively exclude trash. Such a covering would be more effective if soldered in place before the gutter is put up.

RIGHT DRAFT OF EVENERS

First Thing to Do Is to See That They Are Working Free From Friction and Binding.

When figuring on the draft of eveners, and the allowance to be given, the first thing to see to is that the eveners are working free from friction and binding. After that, the next matter of importance is whether or not the part of the load to be carried by each horse is fair to the horse. Roughly, it will be found that a horse's working capacity is in proportion to its weight, that is, for horses of similar build. Put the bulk of the load on the bigger and stronger horse, but don't overdo the matter. A complete inches the advantage means a lot—both ways!

ROLLING CUTTER IS USEFUL

Most Satisfactory for Covering Weeds, Fall Stubble and Other Rubbish on Farm.

Weeds, tall stubble and trash can be covered more satisfactorily if a rolling cutter is used on the plow. Set the cutter so that it makes a cut deep enough to separate roots and stubble. The cut should be made just ahead of and outside of the point of the plowshare. A trash gatherer, chain or rod, will help turn the stubble under. If plowing with a tractor, a better job can be done if the speed is increased to three miles per hour.

DEVICE FOR HOLDING BAGS WHILE FILLING

Saves Backache and Many Useless Adjectives.

Contrivance Is Made of Half a Pickle-Barrel and Attached to Side of Bin or Granary—One Man Does Work of Two.

This device for holding sacks while filling them should save backache and many useless adjectives. It is made of half a pickle-barrel with the ends knocked out, attached by a small block of wood to the side of a bin or granary. Five or six nails driven through the sides of the barrel from the inside and pointed at an upward angle when the barrel is in place, hold the sack in place during the filling. The sack is

With This Arrangement for Holding the Sack, One Man Can Do the Work of Two.

pulled up over the bottom of the barrel as shown. It should be at the right height from the floor for filling, at the same time resting on the floor to prevent strain on the nails and tearing the sack.—Dele Van Horne, in Popular Science Monthly.

BOTH FRIEND AND NUISANCE

Crow Wages Warfare All Summer Long on Insect Pests—Raids Cornfield and Hen Yard.

That the crow's character is not so black as it is usually painted is disclosed by investigations made by the bureau of biological survey of the United States Department of Agriculture. In fact, the department's "birdmen" say that much of the work the crow does is of direct assistance to the farmer, for "Mister Crow" wages warfare all summer long on insect pests. In fact, insects supply about one-fifth of his food, and those which he prefers in his diet are the worst insect pests the farmer has to contend with—grasshoppers, caterpillars, and white grubs and their parents, May beetles.

On the other hand, the crow raids the cornfield and the poultry yard, and kills small wild birds and destroys their nests. From the evidence at hand the crow's merits and shortcomings appear about equally divided. While it would not be well to give it absolute protection and thus afford the farmer no recourse when the bird is doing damage, the bureau of biological survey believes that to adopt the policy of killing every crow that comes within gunshot would be equally unwise.

DISTRIBUTE EXCESS PROFITS

Growers of 1918 Wool Crop Being Paid as Rapidly as Possible by Department of Agriculture.

Excess profits made by dealers who handled the wool clip in 1918 are being distributed to some 100,000 wool growers by the United States Department of Agriculture. It is estimated that the total amount of such excess profits is more than one million dollars, of which a little less than half has been turned over to the bureau of markets for distribution at the present time.

Some of the dealers who accumulated excess profits have failed or refused to refund the entire amount so far, and the bureau is working to secure the full amount. The department of justice is co-operating with the bureau, and it is hoped to complete the distribution of the funds at an early date.

DANGER OF DUST EXPLOSIONS

Cost 80 Lives and \$7,000,000 Property Damage in 1919—Evil Almost Eliminated.

Grain dust and similar mill stiftings appear harmless, but filtered through the air and ignited in a closed structure, they are as deadly as dynamite. Such explosions cost 80 lives and \$7,000,000 property damages in 1919. The United States Department of Agriculture dust-explosion investigation service has practically eliminated the evil.

LEAD PENCIL MOST HELPFUL

Handy Little Tool Can Do Wonders in Pointing Out Profits and in Saving Losses.

The handiest, most helpful tool on the farm is a well-used lead pencil. Applied to a piece of paper, and moved as directed by a fair amount of brains it can do wonders in saving losses and in pointing out where profits are to be had.

How's This?

HALL'S CATARRH MEDICINE will do what we claim for it—cure Catarrh of the Bladder caused by Catarrh. We do not claim to cure any other disease. HALL'S CATARRH MEDICINE is a liquid, taken internally, and acts through the blood upon the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions. All Druggists, Circulars Free. F. J. Cheney & Co., Toledo, Ohio.

Mitigating the Horror.

We don't believe in lynching. It's brutal. There's something excessively impolite about it. The business of lynching lacks innate refinement. But if we did believe in lynching we'd limit it to—
1. People who look over your shoulder.
2. End-seat hogs in street cars.
3. Men who bump limousines with their flippers.
4. The office associate who borrows two bits.
5. Girls who chew gum and use lip sticks.
6. Chronic reformers.
7. Private citizens who know how to run the country.—Richmond Times-Dispatch.

MY HEADACHED, MY BACKACHED, SHE DECLARED

Every Bone in My Body Ached, But It Didn't Take Hypo-Cod Long to Relieve Me.

"I suffered from a bad cold. My head was all stopped up. I couldn't breathe through my nose, and all the time my eyes watered. I sneezed continually. My head ached, my back ached, and my appetite had completely gone. Every bone in my body ached. I also had a deep hoarse cough like I had the 'roup, and every time I would cough sharp pains would go through my lungs.

"I saw Earle's Hypo-Cod advertised, and got a bottle at our druggist's, and the first dose I took seemed to help me. I was afraid I was taking the 'flu," but this tonic just seemed to dry up my cold right-away, stopped the cough, and now I am feeling just fine again. My appetite is good, my nerves are strong, and I sleep good now. Really, I never took any medicine that was quite as effective and quick acting. It has stopped a very persistent cough and cured me of a cold I know would have run into the 'flu' if I had not taken it in time." declared Mrs. B. Welsh, 1828 S. Allison St., W. Philadelphia, Pa.

It certainly is surprising what a good tonic will do for a person troubled with a run-down system, and always catching cold and feeling about half sick. Thousands have taken this new and modern tonic, and found that it quickly put them back on their feet feeling fine again, after taking many other remedies without results, according to their statements. Druggists, chemists and experts assert it is a most powerful tonic, yet you will be surprised at how pleasant tasting it is. Give it a trial today.

Earle's Hypo-Cod is sold here by all druggists, and the leading druggists in all nearby towns.—Adv.

His Chief End in Life.

There lived in an English town a wealthy but exceedingly "tight" old lady, who kept very few servants and paid them as little as possible. Among these was an underfed, miserable-looking lad of fourteen, who answered the door, did the dishwashing, waited at table, weeded the garden, washed the dog and a few other things. One day a visitor asked this lad: "Well, my boy, and what do you do around here?"
"I do a butler, a kitchen maid and a gardener out of a job," replied the boy gravely.

Roman Eye Balsam has gained the public's confidence during 75 years. Manufactured only by Wright's Indian Vegetable Pill Co., 112 Pearl St., New York City.—Adv.

In the Crowd.

"What are you making such a fuss about? I thought you were a good loser."
"I am, so far as an election is concerned," answered the excited citizen. "What I am concerned about is the loss of a perfectly good two-dollar watch."

Harvest 20 to 45 Bushel to Acre Wheat in WESTERN CANADA

Think what that means to you in good hard dollars with the great demand for wheat at high prices. Many farmers in Western Canada have paid for their land from a single crop. The same success may still be yours, for you can buy on easy terms.

Farm Land at \$15 to \$30 an Acre

located near thriving towns, good markets, railways—land of a kind which grows 20 to 45 bushels of wheat to the acre. Good grazing lands at low prices convenient to your grain farm enable you to reap the profits from stock raising and dairying.

Learn the Facts About Western Canada

—low taxation (none on improvements), beautiful climate, good schools, churches, pleasant social relationships, a prosperous and industrious people.

For illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan and Alberta, reduced railroad rates, etc., write Department of Immigration, Ottawa, Canada.

Sure Relief

A New Log Saw

Cuts Faster, Costs Less, Makes More Money for Users and Works While You Rest.

A new improved power log saw, now being offered, outdoes all other log saws in cutting wood quickly and at little cost. A new 4-cycle, high power motor equipped with Oscillating Magneto—no batteries to fail you—makes the saw bite through logs faster than other log saws. It finishes its cut and is ready for another before the ordinary saw is well started. This log saw—The Ottawa—has a specially designed friction clutch, controlled by a lever, which starts and stops the saw without stopping the engine. Others have imitated, but no other power log saw has this improvement just like the Ottawa. The Ottawa Log Saw sells for less money than any power saw of anything like its size.

The Improved Model, 4-H.P. Ottawa Log Saw.

One man wheels this outfit from cut to cut and log to log like a barrow. Separate attachments cut down trees and cut up branches. Extra power lets the engine do heavy work of all kinds. Owners of the Ottawa Log Saw laugh at coal shortages and are making big money with ease, the machine doing the work. 35 to 50 cords cut any day, rainy or dry, by one man, are normal figures. And wood is approaching \$20 a cord! The Ottawa is compact, simple and durable. It sells for cash or easy payments and is guaranteed. If you have wood to cut the Ottawa Log Saw will be the most satisfactory machine you've ever owned. We suggest that you write the Ottawa Mfg. Co., 2724 Wood St., Ottawa, Kas., for their complete new illustrated book and prices, sent free to all readers of this paper.

To abort a cold and prevent complications take

The purified and refined calomel tablets that are nauseless, safe and sure. Medicinal virtues retained and improved. Sold only in sealed packages. Price 35c.

DRIVE MALARIA OUT OF THE SYSTEM

MAKE YOUR OWN non-alcoholic throat-quickening, appetizing beverage. One can makes 10 gals. Can only 12.5c. J. & K. Est. Co., 1012 Milwaukee, Chicago, Asta, Wis.
