

**WOMEN'S NAMES APPEAR
IN LIST OF JURORS.****February Term of Court Will Witness Women On Equality With Men.**

The following list of jurors drawn for February term of court, which convenes on February 28th, is unique in that it contains for the first time in history of Centre county the names of women who have been called for jury service. Among the grand jurors drawn, one woman's name is included in the list, while among the traverse jurors the names of nine women may be found.

GRAND JURORS.

A. T. Boggs, invalid, Milesburg
D. H. Bartley, laborer, Bellefonte
Edw. Bradford, plumber, Philipsburg
R. R. Blair, jeweler, Bellefonte
J. N. Campbell, farmer, Ferguson
Edward S. Dorman, mechanic, Walker
Thos. T. Decker, lumberman, Gregg
Ralph Etters, laborer, Snow Shoe
Chas. Holtzapple, miner, Snow Shoe
William Holt, manager, Philipsburg
Mrs. C. Y. Hunter, housekeeper, Halfmoon
Robert Irwin, painter, Bellefonte
H. N. Koch, undertaker, State College
Geo. B. McCullough, clerk, Milesburg
William Nevel, farmer, Snow Shoe
John D. Reeder, farmer, Gregg
U. S. Shaffer, gentleman, Miles
Luther Strouse, farmer, Ferguson
Wm. Walker, foreman, Snow Shoe
C. W. Williams, mechanic, Philipsburg
C. N. Yearick, clerk, Marion

TRAVERSE JURORS.

Victor A. Auman, dealer, Centre Hall
Harry Altner, clerk, Bellefonte
Franklin Bowersox, gentleman, Ferguson
Mrs. E. Bower, housekeeper, Bellefonte
Harmon Beizer, dairymen, Benner
Christon Boves, farmer, Liberty
William Bigelow, farmer, Taylor
Clair Boyce, laborer, Snow Shoe
John Burd, farmer, Boggs
Miss Mary Blanchard, Bellefonte
Chas. Custer, painter, Philipsburg
Ray L. Corl, laborer, Ferguson
J. L. Deitrich, farmer, Walker
Miss A. M. Dale, housekeeper, Harris
A. H. Duncan, book-keeper, Philipsburg
L. G. Ertter, mdse manager, Liberty
Samuel Ertter, operator, Snow Shoe
David Foreman, gentleman, Bellefonte
A. J. Fortney, farmer, Ferguson
Mrs. W. L. Foster, housekeeper, St. Coll.
William Fisher, farmer, Boggs
Mrs. Harry Flegal, Philipsburg
Walter Fye, carpenter, Curtin
Edward Gardner, laborer, Howard
Harry Goss, agent, Philipsburg
John B. Goheen, laborer, Ferguson
Paul Gulich, agent, Philipsburg
William Hudson, carpenter, S. Philipsburg
Harvey Hoy, farmer, Spring
J. Dorsey Hunter, merchant, Bellefonte
A. J. Hoover, farmer, Huston
Geo. R. Haines, laborer, Snow Shoe
Walter D. Hoover, coal operator, Philipsburg
Samuel B. Holter, laborer, Howard
David Houser, gentleman, College
Theo. C. Jackson, banker, Philipsburg
Frank C. Kunes, laborer, Liberty
John Long, laborer, Walker
Michael Lamb, painter, Spring
Chas. Lockington, laborer, Bellefonte
Mrs. A. G. Morris, Jr., Bellefonte
Harry K. Metzger, clerk, Ferguson
Mrs. C. S. Musser, housekeeper, Haines
Mrs. E. J. Matthews, Philipsburg
E. H. Musser, J. of P., Haines
Jas. A. McDermott, laborer, Bellefonte
J. T. McCormick, manager, State College
Hershel Parker, blacksmith, Philipsburg
Henry Resides, farmer, Patton
Miss Amy Rickard, lady, Milesburg
Fred Reside, shopkeeper, State College
Paul Resides, farmer, Benner
Percival Rudy, chauffeur, State College
Howard Richards, butcher, Philipsburg
J. Ellis Stine, plumber, Bellefonte
Fred Thompson, clerk, Bellefonte
Lee J. Vonada, farmer, Gregg
Jacob Winkleman, lumberman, Miles
Wm. Wilson, laborer, Philipsburg
Chas. S. Zeigler, clerk, Bellefonte

\$100,000,000 Hay Crop.

Pennsylvania produced a hay crop worth more than one hundred million dollars in 1920, according to figures prepared by Statistician L. H. Wible of the Pennsylvania Department of Agriculture. Lancaster led all other counties in the state in the value of its hay crop, the value of which was \$4,107,744, while Berks county came second and Washington county third.

The average price per ton received by the farmers for their hay was \$24.83. Luzerne county leads the state in the quantity of hay produced per acre, the county showing a record of 1.70 ton. The total value of the state's hay crop amounted to \$100,419,919.25.

Centre county produced 55,401 tons, or an average yield of 1.26 tons per acre. The value of the crops was \$1,545,687.90. The average price was \$27.90.

There is much sickness, among both young and old, in Centre Hall, due principally to colds.

ANNUAL CENTRE CO. BANQUET.**Centre Countians in Philadelphia to Gather for "Big Feed" at The Rittenhouse.**

Ho! Centre Countians! Ho! ye, every son and daughter of Old Centre, who hungereth and thirsteth, come ye! Yes, come one and all, to "The Rittenhouse," 22nd and Chestnut Streets, Philadelphia, Saturday night, February 12th, 1921, at 7 o'clock sharp.

Ho! ye mortals filled with patriotic blood from the County of Governors. Remember this historic night when unto us a great President—a great Emancipator, was born—a man whose character, deeds and memory the Kings of the World delight to honor. You will learn something about our martyred "Abe" that night.

Come and get into a reminiscent state of mind. Recall the names of your ancestors, their deeds of valor, their contribution to the history of Old Centre; its mercantile life, its farming industry—those men who mined our coal, dug our ore, planted our farms, founded and ran our mills, as well as our lawyers, bankers, dentists, doctors, and ministers.

Tell us something about our teachers, and Old Centre's educational record, from the cross-road country school, with its one big soft coal stove, up to our public schools, Academy and State College.

Jump into an air ship and fly across the mountains, hills and valleys of your mind; take a four days' steamer up or down Buffalo Run, Spring Creek, Bald Eagle, Elk Creek or Cherry Run, or ride in a double-track subway through Millheim, Boalsburg or Gum Stump—don't forget Philipsburg—and tell us what you see or hear—past, present or future. Everything will go—truth or fiction—the sublime and the ridiculous. Bring a smile and a good laugh or two—it will keep time with the orchestra.

Good dancing will follow the dinner, and the menu is first class—just as good, yes, better than last year.

Bring all the family this year—old and young boys and girls—everyone will join in the "Paul Jones". Last year we certainly did get acquainted; this year no introductions necessary. Come one—come five hundred Centre Countians, to the Seventeenth Annual Banquet and Reunion. Reserve the night. Dress formal or informal. Just come. Tell everybody.

Use envelope at once and secure reservation or enclose check at \$2.75 per plate. Big crowd is expected.

U L B G L A D U R U M

Warner Underwood, President,
W. S. Furst, 1st Vice-President,
S. Gray Mattern, Treasurer,
J. C. C. Beale, Secretary,
Stuart C. Runkle,
Isaac P. Miller,
William A. Magee,
Committee

A United Evangelical Effort.

The two Presbyterian churches, together with the Methodist Episcopal churches and the Baptist church, all of Danville, are planning for an Evangelical campaign for the month of February, beginning on the evening of the 16th. The pastors of these churches will be the evangelists, taking turns in the presentation of the gospel messages. Prof. Carr, a gospel singer of some note and of good recommendation as a successful evangelistic singer, will have charge of the chorus of at least a hundred voices. He is now in similar meetings in Canton, Ohio.

Already cottage prayer meeting of twenty or more on Tuesday and Friday weekly, have begun. For several months a monthly union prayer meeting has been held and all the people assembled in one Wednesday evening meeting. Another feature of the preparatory arrangements is that pastors of affiliating churches have exchanged pulpits on Sunday evenings once a month, the congregations respectively knowing only the exchange but not knowing who would preach in their pulpits until the hour of the services. The interest is taking on great proportions.

Rev. G. W. McNay, formerly pastor of the Methodist churches of Penn's Valley charge, is a leading factor in this united campaign, being pastor of Trinity church.

Horses Sell at Good Figure.

A carload of Ohio horses sold at good figures at a public sale at Millheim last Thursday, the average price per horse being \$209.50.

Price Printed on Tickets.

A new policy of printing the price on the face of railroad tickets, effective at once, has been adopted by the Pennsylvania Railroad Company. An official statement said as fast as the present supply of tickets is exhausted new tickets will be printed.

The policy was adopted, the statement added, as a protection to both passengers and ticket agents. Interline tickets will not be affected by the order.

**HURLED FROM MOTOR-
CYCLE INTO CREEK.****James Hazel, of Bellefonte, Found on Bank of Stream Two Hours Later, Unconscious.**

James Hazel, aged about forty years, of Bellefonte, met with a serious accident last Thursday night, when he was pitched from a motorcycle he was riding onto the banks of Spring Creek, near Axemann, and rendered unconscious. He lay in that condition for two hours, when David Barlett, traveling in a truck from Bellefonte to Pleasant Gap, saw the prostrate form of a man lying on the creek's bank, close to the railroad tracks. With the aid of a companion Mr. Barlett succeeded in placing the victim on his truck and hurried him to the Bellefonte hospital where he regained consciousness.

Mr. Hazel was traveling toward Bellefonte on a motorcycle, and rounding a sharp curve, on the State highway beyond Axemann, the motorcycle left the road and plunged into the creek, Mr. Hazel being hurled onto the stony bank. The accident occurred about eight o'clock, and the scene was at almost the same spot where, a number of years ago, a freight train on the L. & T. railroad left the tracks and dropped into the creek, resulting in the death of the engineer.

Upon examination of Mr. Hazel's body, a number of cuts and bruises about the head and body were discovered, but all were of a superficial nature, so that he left the hospital the day after the accident. The motorcycle was a complete wreck.

Injured in Jumping from Tree.

John L. McClenahan, of Centre Hall, suffered a broken ankle on Saturday afternoon in jumping from off a tree to the hard frozen ground, for a distance of eight feet. He was in the act of cutting off a large lower limb from a tree standing in front of the Luther Emerick home, and being in such a position where he feared the limb would fall on him, jumped to the ground. He was unable to rise and it became necessary for others to carry him to his home. He suffered much pain, and that evening he was conveyed to the Bellefonte hospital where an X-ray examination revealed broken ankle bones. He is at his home in this place, where he is resting well.

Orange Tree Social in Grange Hall.

The Centre Hall High School Athletic Association will hold an orange social in Grange hall, on Saturday evening of this week, Feb. 5. Ice cream, cake, home-made candies and pies will be on sale. The "orange social" feature will provide lots of amusement. Two trees, decorated with "oranges" will be erected and "oranges" will be sold from off the trees for a nominal sum. The purchaser will find enclosed a number, and by locating the corresponding number on the side walls of the hall, will come into possession of a worth-while prize. This is sure to create fun and amusement for everybody, so don't miss it.

The High school students respectfully solicit your patronage. The funds derived from the social will go toward liquidating a deficit and bring the treasury into better financial condition.

Dr. Thomas Heads Penn State.

Dr. John Martin Thomas, retiring president of Middlebury College, Vermont, on Saturday accepted the presidency of Pennsylvania State College, to begin his duties "not later than July 1."

Judge H. Walton Mitchell, Pittsburgh chairman of the board of Trustees of Pennsylvania State, declared that Dr. Thomas had been the unanimous choice of the board to head the institution, after a country-wide search for more than a year.

"To a man," said Judge Mitchell, "the board voted for Dr. Thomas after the entire country had been surveyed for a suitable head for Pennsylvania State. Dr. Thomas has the confidence of us all that he is the logical educator and administrator to fill the office."

Farmers' Institute at Spring Mills.

The State Department of Agriculture has announced a Farmers' Institute to be held at Spring Mills on Monday, February 14th.

Two other places in the county to hold institutes are: Hublersburg, Friday, Feb. 11th, and Pine Grove Mills, Saturday, February 12th. Prof. C. L. Gooding, of State College, is chairman for the county.

Smallpox on Decrease at Petersburg.

Everything has been done by the Board of Health of Petersburg, Huntingdon county, to stamp out smallpox, which prevailed in the homes of a few families there several weeks ago. The Board of Health did its duty and did it quickly, and as a result the cases were limited. There have been no new cases recently, and those who had the disease have almost entirely recovered which is a matter of gratification to the residents of that community.

Dr. Yearick, the New Physician.

Dr. G. I. Yearick, late of Portage, who recently purchased the Mingle property in Centre Hall, is now comfortably ensconced in his new home, with his family, consisting of Mrs. Yearick, their daughter and son-in-law, Mr. and Mrs. P. S. Brady, and their family.

Dr. Yearick is by no means a stranger in these parts. He is a native of Madisonburg, consequently has merely come back near to home after an active professional career in large centers of population.

That Centre Hall may be considered fortunate in securing Dr. Yearick, as both a citizen and a physician, may be gathered from the following article which appeared in last week's issue of the Portage Dispatch:

"Dr. Geo. I. Yearick, well-known physician and surgeon, has disposed of his property on Main street and with Mrs. Yearick and family, has gone to Centre Hall, Centre county, where they expect to make their future home. Dr. Yearick will continue his practice at that place.

"During his four years' time in Portage Dr. Yearick has enjoyed a lucrative practice and it is with profound regret the people of Portage and vicinity are losing these good citizens.

"Prior to coming to Portage, Dr. Yearick was located at Lilly for a period of four years. He is a man who always takes an interest in his community and the welfare of its people, always on the alert for things that tend to improve civic affairs. Dr. Yearick has been acting as President of Borough Council up until his time of departure, and without hesitancy we say that Portage will have to look some time before it gets a man to fill the chair as he did.

"When the call came for volunteers during the great world conflict, Dr. Yearick was one of the first to offer his services to his country. He was a commissioned captain of his company's medical corps and served his time on the battlefields of France.

"Mrs. Yearick was an ardent worker in the United Brethren church, of which she was a member, and always took a great interest in the affairs of her church. She will be greatly missed by co-workers at the U. B. The least we can say of the departing couple is we wish Dr. and Mrs. Yearick unbounded success and happiness in their new home."

Dr. Yearick expects to be in position by the 10th or 15th of this month to engage in his profession in this community. By that time he hopes to be fully equipped with the latest apparatus known to the medical science, including an X-ray machine.

Lutheran Church Re-Dedicated.

On Sunday the Lutheran church at Pine Grove Mills was rededicated with appropriate services. Dr. Boslin, of Harrisburg, preached the morning sermon at 10:30 and Dr. Charles F. Aikens, president of Susquehanna University, officiated at the evening service at 7.

The church had been closed since November and in the interim handsome oak pews have been placed, a new carpet laid and the entire interior of the building, both the Sunday school room and the auditorium, redecorated. They have spent about three thousand dollars in improvements so that very pleasing changes were apparent to those who attended Sunday's services there.

It is unusual that the public is invited to a rededication service without a hint that a fat pocketbook would be a welcome guest also. But it is understood that the bills for this work are all paid or provided for.

Major General Leonard Wood Endorses Near East Relief.

"The appeal is a tremendous one. It is almost world-wide, but of all the appeals there is none more powerful than is Armenia. Entire groups are isolated; oppressed by Turks; massacred generation after generation after generation; generous in their participation in the War; regardless of their future, going to the side which they thought right; giving blood and treasure. Now absolutely helpless and dying for want of food, they appeal to us who do not know want. We waste enough to feed half of Europe.

You are going to have many appeals but of all the appeals that come to us there is none which ought to receive more prompt or more generous response than from Armenia.

That is our opportunity. We can do it. The question is, will we do it. My prophecy is that you are going to do your part in the same fine and generous spirit you have responded to all appeals."

In Centre county the campaign for funds will be conducted February 1 to 8th. We are counting on you to do your part. Dare we let them die?

Meeting of Dairymen's League.

A meeting of the Centre Hall branch of the Dairymen's League will be held on Friday of this week, February 4th, in the Grange hall, which members are urged to attend.—By order of the president.

HEALTH SCHOOL**Pennsylvania State Department of Health.**

Questions.
(1) What causes Tetanus?
(2) In what class of wounds is there greater danger of Tetanus?
(3) How may Tetanus be prevented?

TETANUS OR (LOCKJAW)

The testimony of Dr. Bruce Randall was responsible for the verdict of acquittal in the case of the Commonwealth vs. Shade, charged with homicide.

The victim died from Tetanus or Lockjaw.

The prosecution urged conviction upon the ground that the wound, though trifling, was the direct cause of death, because of lockjaw which followed it. The defense proved that the Lockjaw could have been prevented. The following is an extract from the stenographer's notes on the testimony of Dr. Randall:

Q. "What is the cause of Tetanus?"

A. "A germ which, under the microscope looks something like a horse-shoe nail."

Q. "How does the germ get into the human body?"

A. "Through a wound."

Q. "Any kind of a wound?"

A. "Yes. There is, however, little danger of Tetanus infection of surface wounds, such as scratches, cuts from a razor or the like."

Q. "Under what circumstances might surface wounds receive Tetanus infection?"

A. "When they are not kept clean. When they are bound with filthy rags. When the wound is brought in contact with stable manure or garden soil."

Q. "Why stable manure or garden soil?"

A. "Germs of Tetanus are found in manure, especially that of horse stables—in ground, more particularly garden soil, which is often highly fertilized with stable manure."

Q. "In what class of wounds is there the greatest probability of the development of Tetanus?"

A. "Deep, torn, bruised wounds, especially where foreign matter is carried into the wound."

Q. "Will you cite an instance?"

A. "A gunshot wound, especially one carrying into it bits of clothing, wad, and burnt powder, or in the case of the toy pistol, clay. Of course, the presence of Tetanus germs is necessary."

Q. "If Tetanus germs were present, either on the wad or the clothing or the missile, would they be destroyed by the heat of the charge?"

A. "The germ of Tetanus can withstand a considerable amount of boiling without losing its vitality."

Q. "Explain to the jury the steps in the development of a case of Tetanus from such cause as you have described."

A. "When germs of Tetanus are introduced into a wound and conditions are favorable for their multiplication, as they grow in numbers they throw off toxin or poison which is taken up by the nerves communicating with the nerve trunk until it reaches the nerve centers. Stiffness of the neck and jaw is first noticed followed by spasm or convulsions, which may become general."

Q. "Is there any cure for Tetanus?"

A. "None dependable after the disease is established."

Q. "Can you prevent Tetanus even if the germs get into the body?"

A. "Tetanus Antitoxin, if injected early and in sufficient quantity, will prevent the development of Tetanus. The wound or entrance must be cleaned and cared for surgically."

Q. "How did you treat gunshot wounds when you were a surgeon in the army?"

A. "We gave an immediate injection of 1000 units of Tetanus Antitoxin, followed by a second ten days later. This saved thousands of lives."

Cross-examination failed to alter the testimony. It was previously established that Tetanus Antitoxin had not been used. The verdict was followed by the discharge of the prisoner.

Tetanus may be acute or chronic. The acute form develops rapidly often within a few days, and is nearly always fatal. Chronic cases are slower of development—from ten days to five weeks, and about half the cases get well.

Deep torn bruised wounds, especially those in which foreign bodies such as glass, earth or splinters of wood are embedded and which are not leached by a surgeon are more apt to be sources of infection than superficial wounds.

All wounds should be kept cleansed and protected by suitable bandages.

Tetanus Antitoxin can be procured free upon application by a physician for citizens of Pennsylvania unable to provide it for themselves.

It Pays to Advertise.

84 per cent of the business concerns which failed in 1920 were non-advertisers. Statistics bearing out this assertion have recently been compiled. All of which proves beyond shadow of doubt that "It pays to advertise."

TOWN AND COUNTY NEWS.**HAPPENINGS OF LOCAL INTEREST
ALL PARTS**

Orange Social in Grange hall; Saturday evening.

A number of ice houses were filled with 7-inch ice last week.

The Reporter is glad to note the improved condition of Mrs. William F. Keller.

Mrs. Isaac Smith, who had been seriously ill during the past few weeks, has fully recovered.

Dr. J. V. Foster, of State College, was in Centre Hall last Friday looking after Dr. Longwell's patients while the latter was out of town.

B. D. Brislin left for Hartford, Connecticut, the latter part of last week, having been called there owing to the serious illness of his son-in-law, George Robertson, who is suffering with pneumonia.

The degree team of the Bellefonte lodge of Odd Fellows will confer the third degree upon a class at Centre Hall on Monday evening of next week, at a special meeting. Local Odd Fellows are urged to be present.

A handsome brochure is that issued by the First National Bank of Spring Mills. As a piece of advertising matter it is both pleasing and effective, and is bound to create a favorable impression upon those into whose hands it may fall.

H. C. Robison, of Milesburg, was a business caller at this office on Friday. Mr. Robison is the manufacturer of the fibre brush broom, and has succeeded in finding sale for this popular broom in all parts of the country.

Henry H. Houser, of Linden Hall, was a brief business caller at the Reporter office on Saturday. Mr. Houser believes the zero weather of last week, with the absence of snow, has proved harmful for the tender wheat plants.

During the month of January the local post office proved to be one of the leading offices in Centre county in the sales of war saving stamps, and treasury certificates and thrift stamps. Most of the sales were made in amounts from \$100 to \$1000.

The last Friday in the month ruling the next proved correct last month, and if we may expect the trick to repeat, February will also be shorn of its accustomed roughness of weather, for last Friday was a beautiful spring like day, with mercury standing at 46 degrees.

A wildcat weighing thirty-five pounds was killed by C. P. Ramsey, of Milroy, last Tuesday night. The cat attacked Ramsey and his dog. After a battle the man killed the animal with a club. Both Ramsey and his dog were severely cut before they succeeded in overcoming their assailant. The battle took place near their home.

The Synco Trio is the name of a local musical organization composed of Mrs. Delie Reiber, piano; J. Leroy Puff, saxophone, and William D. Reiber, violin. They have been playing together for some time past and have appeared at various functions where their playing was much appreciated. Last Friday evening they furnished the music for a dance at Spring Mills. For those desiring their services, they are yours to command.

The first women jurors drawn for service in Centre county were Mrs. Cyrus Hunter, of Stormstown, for grand juror, and Miss Amy Rickard, of Milesburg; Mrs. Ebon Bower, Miss Mary Blanchard and Mrs. A. G. Morris, Jr., Bellefonte; Miss Annie M. Dale, Harris Twp.; Mrs. W. L. Foster, State College; Mrs. Harry Flegal, Mrs. E. J. Matthews, Philipsburg, and Mrs. C. S. Musser, Haines Twp., as traverse jurors, to serve in February Term of Court.

For the first time in the history of the institution Penn State has a Japanese student. A graduate of the Imperial College of Agriculture in Japan, K. Naito was attracted to Penn State because of its fine reputation in agriculture and athletics. He is a famous jiu jitsu expert in his own country and expects to spend his spare time in learning the American wrestling game. However, his chief object is the study of vegetable gardening, and he has been admitted as a special student in horticulture. After graduation he expects to settle down to farming in America.

The Pennsylvania State Police recovered \$475,697 worth of stolen property last year, according to figures announced by Major Lynn G. Adams, the superintendent. The report of State Police activities during the year 1920 also shows that five troops arrested 8,456 persons as against 7,845 in the previous year. State troopers traveled 1,250,000 miles patrolling their territories. In addition to the property restored to its owners by the State Police last year, large quantities of liquor transported through the State in violation of the Federal prohibition laws was confiscated. A summary of the various offenses for which arrests were made shows 67 for murder, 25 for rape, 41 for arson, 75 for burglary, 116 for robbery, 642 for larceny, and for other offenses, 7,494.
