Will America Fail ?

Will America Fail? In a recent interview, Colonel Haskell, who has been in charge of the Near East Relief work in Transcaucasia, de-clared that without America there would be no Armenian problem. Armenia ter-ritory would remain, but Armenian peo-ple would have ceased to exist. The lives literally, of the whole Nation have lives literally, of the whole Nation have dedicated on the Fourth of July, coming.

thousands of little ones facing death cept it, from the rigors of a mountainous winter. Kars is 5.260 feet and there are

6.000 little children there under American care. Alexandropol, where 10,000 orphans are housed in barracks by the Near East Relief, is 4.620 fest. At Brivan, the Near East is clothing and housing 7.768 children and feeding 25.872 others who are clothed and fed as besta they can be by their families. There are no window panes left in Armenia. In the Near East Orphanage they use oil paper to keep out the cold.

These orphan boys and girls constitute the hope of the future for the Near East. They are the coming generation and will have to create a peaceful and prosperous Armenia if the land that is theirs is to be regenerated at all. The futurs depends, therefore, upon the aid we give them now.

Centre County must care for 146 of these orphan boys and girls. This is the week to give your dollars.
