

Prominent Western Man Praises Tanlac

G. W. Logan, Peabody, Kansas

"Tanlac has completely restored my health and I feel finer than in years," was the straightforward statement made recently by Mr. George W. Logan of Peabody, Kansas, one of the most prominent stock-dealers in the Middle West.

"It has not only made a new man of me but I have actually gained thirty-five pounds in weight and feel as well as I ever did in my life. I am telling all of my friends about Tanlac, but they can see for themselves what it has done in my case.

"When I began taking Tanlac I was in an awfully run-down condition. I was away off in weight, felt weak and nervous all of the time and couldn't take any interest in my work or any-

thing else. My main trouble was indigestion. Nothing seemed to agree with me. At times I would have dizzy spells and at other times, my back would ache so bad that I could hardly get up and down in my chair. This is just the condition I was in when I started to take this medicine. It took just six bottles to make a well man of me. I now have a fine appetite, everything tastes good and my digestion is perfect.

"My wife was also troubled with indigestion at times and it relieved her the same way. You may publish my statement wherever you like and if anyone doubts it, just tell them to see me."

Tanlac is sold by leading druggists everywhere.

ENDORSED BY HORSEMEN UNIVERSALLY
SPOHN'S DISTEMPER COMPOUND
 enjoys a reputation equalled by no other veterinary remedy. For twenty-six years it has been used and recommended by the leading horsemen and stockmen of America. For twenty-six years its use under trying conditions has won for it the highest esteem of veteran trainers, whether INFLUENZA, PINK-EYE, DISTEMPER, COUGH or COLD.

Buy of your druggist, 66 cents and \$1.15 per bottle.
 SPOHN MEDICAL CO., Goshen, Ind., U. S. A.

Observant Paw.
 "Paw, what is an advertisement?" An advertisement is the picture of a pretty girl eating, wearing, holding or driving something that somebody wants to sell.—Nashville Tennessean.

WOMEN! USE "DIAMOND DYES"
 Dye Old Skirts, Dresses, Waists, Coats, Stockings, Draperies—Everything.

Each package of "Diamond Dyes" contains easy directions for dyeing any article of wool, silk, cotton, linen, or mixed goods. Beware! Poor dye streaks, spots, fades, and ruins material by giving it a "dye-look." Buy "Diamond Dyes" only. Druggist has Color Card.—Adv.

Where the New Books Begin.
 "What sort of a novel is it?"
 "Old-fashioned."
 "That so?"
 "Yes." The story ends that they were married and lived happily ever after.

"What's old-fashioned about that?"
 "The newer authors usually start off their books with the wedding day, and work the old triangle racket through to the finish."

If not already acquainted, get to know Garfield Tea, the advance agent of Abounding Health.—Adv.

The easiest way to interest a woman in a \$1 article is to mark it down from \$1.50 to \$1.25.

One dose of Dr. Peery's "Dead Shot" expels Worms or Tapeworm. Its action upon the Stomach and Bowels is beneficial. No second dose or after purgative necessary.—Adv.

Poetry of love is transformed into prose at the paregoric stage.

Empty wagons make most noise.

Kill That Cold With

CASCARA QUININE
 FOR Colds, Coughs AND La Grippe
 Neglected Colds are Dangerous
 Take no chances. Keep this standard remedy handy for the first sneeze.
 Breaks up a cold in 24 hours—Relieves Grippe in 3 days—Excellent for Headache
 Quinine in this form does not affect the head—Cascara is best Tonic Laxative—No Opiate in Hill's.
ALL DRUGGISTS SELL IT

PROPER RECORDS WILL AID FARMERS

Both Happenings and Money Affairs Should Be Carefully Kept During Year.

SIMPLE SYSTEM IS FAVORED

Accurately Kept Accounts and Intelligently Utilized Are of Great Assistance in Showing Where Money Can Be Made.

(Prepared by the United States Department of Agriculture.)

In order to know what progress is being made in farm operations and to determine what crops or branches of farming are producing the greatest profits, it is necessary for the farmer to keep a system of accounts, say specialists of the United States Department of Agriculture. The practice will not of itself turn a poor farm into a rich one, a poor farmer into a good one, or losses into profits, but farm records, if accurately kept and intelligently utilized, are an aid to a better understanding and insight into the farming business.

The keeping of accounts need not take a great amount of time nor is it necessary to have an elaborate system. Two Kinds Advisable.

Farm records may be roughly divided into two heads—records of happenings and records of money transactions. The former proves useful when memory fails. Among the happenings that should be recorded are the dates when animals are bred, men hired or discharged, accidents occur, pasture season begins and ends, first and last frosts occur, incubators are set, spring work begins and fall work ends, seed time and harvest occur, etc. Such notes as these, when systematically recorded and constantly referred to, are of much value.

The most important use many farmers make of the records of cash received and paid out is as a means of checking up bills when sent in to see whether all payments have been duly credited. While this alone is only a small part of the value which can be derived from such records, it will frequently justify the time required to keep them.

When the year's record is made the cash account can be assembled under headings that will show exactly what each branch of the farm activities returned in cash and what each required to keep it going. Some farmers are apt to judge the importance of the

It Pays to Keep a Farm Inventory.

various farm projects by the time required to put them through. To such a complete cash record for a year, properly assembled, will be an eye opener. Often seemingly unimportant things, such as the flock of poultry or the orchard, produce nearly as much net cash as the obviously important.

At some regular time each year—usually about the first of the calendar year—a farm inventory should be made. In any system of accounting the inventory is absolutely essential, as upon it is based the division of one year's business from another. The inventory is simply a list of farm property and farm debts, and corresponds to the "stock taking" which every merchant does periodically.

An Aid to Credit.
 Taken alone, the inventory will show a farmer the exact net value of his property, and will be a guaranty of solvency and an aid in securing credits and loans from the bank in time of need. The inventories of two dates, a year apart, show whether progress or retrogression has occurred during the year and definitely measure the degree of change.

Taken in conjunction with a cash account for the year, the inventory shows how much has been made by farming and to what extent the personal and household expenses have offset profits. It also gives a much better insight into the income produced by each farm department, as a decrease in inventory value of hogs, for instance, may offset to some extent what, from the cash account, looks like a very large income from that source.

RULES TO PREVENT CHOLERA

Hog Raisers Who Do Not Vaccinate Must Observe Some Plan to Keep Disease Away.

Many small-scale hog raisers and a few who raise hogs on a large scale do not vaccinate. A few general rules must be observed by such stock raisers or cholera will get into their herd.

EXERCISE FOR SOWS OF BIG IMPORTANCE

Necessary to Use Good Judgment in Management.

Corn Alone Is Very Poor Feed for Pregnant Animals Because It Lacks in Essential Protein and Mineral Matter.

E. F. Ferrin, in charge of swine production at University Farm, St. Paul, Minn., believes that good judgment in the care and handling of brood sows during the winter is as necessary as good feed in making a success with the pig crop.

"The cheapest grain for brood sows," he says, "is corn, but this feed alone is a very poor one for pregnant sows or gilts. Corn lacks in protein and mineral matter, each of which is essential if strong pigs are to be produced. Oats will supplement corn fairly well, and a ration of two-thirds corn and one-third oats is reasonably good. One of the best feeds to be used with corn is meat meal or tankage, the proportion of one part to nine or ten of corn. Alfalfa or clover hay is an

Hogs Raised Under Modern Methods Realize Far More Than Those Raised Under the Old Systems.

excellent addition to the grain ration, and will reduce the cost of the winter's feed if used.

"Amounts of feed to be given can well be governed by the gains made by the sows. Yearling, or older sows, need not gain more than a half pound daily during pregnancy, unless they are very thin in the fall. Gilts have growth to make as well as litter to produce, and consequently should increase more in weight than mature sows; from one-half to three-fourths of a pound is a reasonable amount."

"Exercise is one of the important factors in producing strong pigs. When the snow is not too deep, it is a good plan to feed ear corn some distance from the house or shed so that the sows will have to exercise to get their feed. It is probable that exercise is a big factor in avoiding hairless pigs."

PROPER SIZE OF CONTAINERS

Dissatisfaction Caused by Use of Receptacles Not Sufficiently Strong Enough.

Much dissatisfaction with direct marketing has been caused by using containers that were not sufficiently strong. That is especially true when containers are used more than once, says the United States Department of Agriculture. Shipping containers should be light in weight but sufficiently durable to carry the produce safely.

The proper size of a container depends upon the desires of the customer. Most persons wish to obtain small quantities of each product at a time. Containers should be just large enough for the produce shipped. If the carton is too large or too small, both the produce and the container are likely to be damaged, for the produce will not be kept in place, and the container will be crushed.

The larger the quantity of produce shipped in one parcel the lower will be the cost per pound for transportation, and the lower the container cost per pound.

PREPARE GARDEN SOIL EARLY

"Planting Over" May Be Necessary Sometimes, but Labor Is Always Well Rewarded.

An early beginning in preparing the land and planting gardens is of much importance. Regardless of the season, it is well to get an early start. That "planting over" may sometimes be necessary cannot be denied. But little is lost when garden land must be planted over, for the labor necessary to prepare the land is always well-employed. Much is lost if early maturing vegetables are planted too late. Get your garden land ready and plant on time.

BE CAREFUL WITH LANTERNS

Little, Flickering Flame Has It in Its Power to Destroy Anything of Inflammable Character.

These are the days of lanterns in the barn night and morning. It is well to remember that this little, flickering flame has in it the power to destroy your home and all you have brought together in a lifetime. So never set it down in the barn, but hang it up securely. A wire running the length of the barn with a common harness snap on it, makes a safe holder. Better still, is an electric light system!

HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's Vegetable Compound a Trial First

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 624 St. Lawrence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E. Pinkham's Vegetable Compound, after it had been decided an operation was necessary:

Burlington, Vt.—"I suffered with female trouble, and had a number of doctors who said that I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound and it certainly has helped me wonderfully. I keep house and do my work and have a small child. I have recommended Vegetable Compound to a number of my friends and you may publish my testimonial."—Mrs. H. R. SHARON, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women who are there for surgical operations, and there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful.

It is very true that female troubles may through neglect reach a stage where an operation is the only resource, but most of the commoner ailments of women are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Rough on Men.
 The other day an elderly colored woman was admiring a north side woman's children, telling her that they were angels.
 "They's nothin' but babies," she said. "When they do anything it's 'cause they don't know no better. I loves children, but I'm mighty rough on men."

Of Course.
 "What is a biting remark?"
 "I suppose it is the kind you throw in a person's teeth."

Present Enough.
 Little Arthur—"What did you get on your birthday?" Little Edward—"Why, I got horned, of course."

From Rags to Rags.
 "Mr. Baker will now oblige with a recitation entitled 'Ragtime.'"
 Rags make paper.
 Paper makes money.
 Money makes banks.
 Banks make loans.
 Loans make poverty.
 Poverty makes rags.—Cincinnati Enquirer.

No Wonder.
 "Laura seems very much stuck up about her new phonograph."
 "Yes, I notice since she got it she is always putting on airs."
 Partial payments puzzle the school-boy and the older he gets the more they worry him.

IF ALWAYS FEELING HALF-SICK HERE'S WORLD'S BEST TONIC

Baltimore Man Was Weak, Pale, Thin, Headachy, Always Felt Bad.

TELLS HOW HE GOT BACK HIS OLD "PEP"

"I suffered with liver and intestinal troubles, my doctor said, but I had doctored for ten years and been treated off and on every time I felt like I could spare the money. I had pains in the head and stomach and would have sick headaches often. It seemed like I never had any energy or ambition, and just dragged around half-sick for years. Although only 33 years old, I've felt more like sixty. My skin was yellow and pale, and I was thin and weak all over, and I guess I'd been that way today, but some time back I heard about this wonderful new medicine called Hypo-Cod. I bought a bottle down at the drug store. I took several bottles. I began to feel brighter and my vigor and old-time energy returned. I felt like working. I grew rosy and fat instead of being thin and pale. I took the laxative tablets they

give you free with Hypo-Cod and I found they worked like a clock with me. I became stronger every day, and now I'm feeling like a boy. My weight has increased until I'm now too stout for my old clothes. The clothes I wore a year ago I can't get into now. So I say—Get some Hypo-Cod and get fat. I notice the druggists sell so much Hypo-Cod they can't keep it on hand and that is a mighty good sign," declared Clarence H. Slawker, 1433 Columbia Ave., Baltimore.

It is easy to strengthen, build and tone up the system with this newer, more modern and powerful tonic. It is powerful enough to do the work. It is nice tasting enough for anybody. Right now during this sort of weather when sickness is prevalent everywhere, no one should remain in a weak, rundown condition. All druggists have the genuine Earle's Hypo-Cod and it costs very little compared with results. Note—The Earle Chemical Co. send a free box of laxative tablets in return for two Hypo-Cod coupons. One coupon is packed with each bottle of Hypo-Cod. People bothered with irregular bowels will find the tablets splendid when taken with the tonic during a building up treatment.—Adv.

Let Us Send This for Your Approval \$2.95

Special For This Week Only \$2.95
 You will be delighted with these hand forged knives and forks (six of each), made of the best crucible steel, plated with pure silver on a base of nickel, with workmanship of a quality you would expect in a much higher priced article. Send us a check or money order for \$2.95 today. If you are not entirely satisfied with this extremely moderate priced and excellent quality article, return at our expense and money will be cheerfully and promptly refunded to you.
