Beggars Are Barred.

Through the method applied by the police department and the ordinances passed by the city, beggars have been barred from the municipality and the soliciting of alms by the fake cripple has been virtually eradicated. Gambling has been reduced to a minimum.

One feature that has attracted unusual attention to the department is the mapping of crimes. By a pin with colored beads, which indicate the nature of the offense, the location is marked on the map. This quickly indicates where the most serious crimes are committed. A general map shows all the complaints. Another shows the bad boys of the community. Still another shows the hours by the United States public health service and will be enlarged to care for of the day on which crimes are committed.
