

THIRTY-FIVE YEARS AGO

Paragraphs of News Taken from the Files of the Reporter of 1886.

August 18, 1886.

Many hogs are dying of cholera in Ferguson township.

The frame work of Gingerich's mill, at Oak Hall, was raised last week.

Mrs. James Smetler, of this place, is seriously ill with an affection of the lungs.

John Spangler brought a drove of about seventy head of cattle to town last week. He bought them up in Indiana county.

Building follows building, and before long the station will be connected with the town.

Tobacco farming is not carried on to the same extent in this valley, and even throughout the county, as in former years.

Howard Spangler marshaled a fine parade through town one day last week.

Andy Reesman has returned from his western trip after an absence of five weeks. He will not prepare to locate in the west, at least not for the present.

Prof. H. F. Bitner, who was one of the instructors in the Kutztown State Normal, spent several weeks in a school up in Massachusetts, brushing up in some of the natural sciences, as he has accepted a professorship of natural sciences in the Millersville State Normal.

J. D. Murray has given the baseball team permission to use his field, adjoining Wolf's grove, to play ball in the remainder of the season.

The Methodists in this place have been busy this week cleaning up in front of their church. They have put down a walk, built a new fence, porch and steps.

Improvements and repairs have also been made on the interior. They expect to rededicate it on Sunday next, Rev. Munroe, of Bellefonte, to officiate.

James Benner and his nephew, G. O. Benner, contemplate opening a store in Bellefonte shortly.

Public Sales in March

HEALTH SCHOOL

Pennsylvania State Department of Health.

Answers to Health Questions.

Question 1—What is the high limit of temperature for a schoolroom?

Answer—70 degrees.

Question 2—Why should window blinds be open out of school hours?

Answer—Because light, especially sun light, has a destructive action against germs.

Question 3—What is the objection to feather duster?

Answer—The feather duster displays dust but does not remove it.

About 1000 Boards of Health are functioning in Pennsylvania. Some are at work, some are loafing.

The next lesson entitled "The Board of Health" is about a determined woman, an obstinate man and a spineless Board of Health and illustrates the method by which the State Department of Health enforces Health Laws in Municipalities where the Boards of Health are derelict of their duties.

Large Public Sale

The undersigned will sell at public sale at his residence, 4 miles East of Centre Hall, on

Tuesday, March 29th, 9:30 a. m. the following stock, implements and household goods:

HEALTH SCHOOL

Pennsylvania State Department of Health.

Questions.

- 1. What is the Regulation of the Advisory Board in regard to kitchen or laundry water?
2. Before what officer is a case of infringement brought?
3. What does the State do when Boards of Health are inefficient?

THE BOARD OF HEALTH

The Baileys had poured the last of Monday's wash water into the drain which leads to the ditch in the alley and it was gurgling its soapy way to the street gutter, most of it to settle in dark puddles along the way, the overflow reaching the intake of the storm sewer on the corner. Mrs. Carson across the way was undergoing her weekly agony at the sight and wishing she were a man, just for what purpose the mild mannered Mr. Carson could not make out and hesitated to inquire. "There should be a law to prevent people from dumping their wash water in the street," exclaimed the thoroughly irate Mrs. Carson. "I think there is," answered Mr. Carson. "I'll see about it." That evening he came home with the information that the Board of Health had promised to look into the matter.

Several days later the Health Officer notified the Baileys to discontinue (within 10 days) emptying wash water into the street.

The Baileys paid no attention to the notice. The Carson's again reported to the Board of Health. Then the Health Officer entered complaint against Mr. Bailey, who was haled before a Justice of the Peace.

The Justice cited section 9 of Article 2, The Regulations of the Advisory Board of the State Department of Health:

"No kitchen or laundry water shall be allowed to discharge or flow into any gutter, street, roadway or public place."

Imposed a fine and ordered the discontinuance of the nuisance.

But the Baileys did not stop. The Carson's complained again. The Health Board appeared to feel that it had done its part because, as Mr. Bailey was a man to be reckoned with and as they individually expressed themselves (they didn't want to get into trouble), further action was delayed. Mrs. Carson wrote the State Department of Health, setting forth the facts of the case.

The Commissioner of Health ordered the County Medical Director to make an official investigation.

That officer reported the conditions to be as stated by Mrs. Carson and further that the Local Board of Health was not only guilty of neglect in enforcing the Health Laws in this particular instance, but that they were otherwise diligent of their duty in permitting similar irregularities to go uncorrected through fear of acquiring personal unpopularity.

The Commissioner of Health notified the town council as to the inefficiency of its Health Board and offered them a reasonable time to appoint a Board which would enforce all Health Regulations with the alternative of having the State take over the administration of the Health affairs of the Borough and charge all expenses to the Borough. No word having been received from the Borough officials, the Commissioner of Health discharged the local board and the State Health Officer proceeded upon his duties.

Mr. Bailey was again notified to remove the drain, upon his refusal the Health Officer, accompanied by workmen tore out the drain pipes leading from Mr. Bailey's house to the alley and relaid them in the Bailey back yard so that they extended from the kitchen to a cesspool at the middle of the lot. Mr. Bailey stormed and threatened, but it ended by his paying all of the expenses of the change.

Other Health conditions of the Borough were corrected in a business-like manner; before a month had elapsed the Borough Officials learned two things: First, that it is easily possible to maintain all of the Health Laws, and second, that it could be done very much less expensively by home talent than by a State Officer, all of whose expenses they were required by law to pay.

Now the gutters are dry in P--ville, and the Health Board, determined to uphold the laws, finds their execution easy.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. CENTRE HALL, R. F. D. 1. 66

WHAT IS THE MATTER WITH THAT CHILD?

When Children Grow Pale and Listless Their Blood May Be Weak

PEPTO-MANGAN MAKES RED BLOOD.

Sold by Druggists in Liquid and Tablet Form—Both the Same in Medicinal Quality.

When your child loses color, acts and talks without spirit, and does not play like other children, act quickly.

If the condition is not a deep-seated disease but merely due to poor blood give Pepto-Mangan. Gude's Pepto-Mangan is the tonic for pale, thin children whose blood need rebuilding. It is a pleasant-tasting, simple combination of exactly the ingredients that increase and enrich the blood.

Beneficial results show almost at once in brighter eyes, blooming cheeks, a sprightly step, and the whole system made more vigorous.

Pepto-Mangan is obtainable in liquid or tablet form, whichever proves most convenient. Both forms possess identical medicinal qualities.

There is but one genuine Pepto-Mangan and that is "Gude's." Ask your druggist for "Gude's" and look for the name "Gude's" on the package. If it is not there, it is not Pepto-Mangan.—Advertisement.

FOR SALE—Two tons of mixed hay. —M. A. Sankey, Potters Mills.

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

Chamberlain's Tablets
