

THIRTY-FIVE YEARS AGO

Paragraphs of News Taken from the Files of the Reporter of 1886.

Sept. 15, 1886.

The Centre Hall Lutheran Sabbath school went by cars on a picnic to Fowlers, last Saturday.

Some folks about Spring Mills have hopes of finding oil there. There are surface indications, in all the stores, at least.

Simon Smull died at his home in Madisonburg, on Sunday, of typhoid fever.

Coburn is having the biggest building boom at present of any town in the valley. The corning of the railroad is making it a town of some importance as a business center for the lower end of the valley.

The Centre Hall schools opened on Monday for a seven months term. Prof. Mauer, a graduate of Franklin and Marshall, has charge of the grammar school.

A. S. Kerlin, of this place, proposes to grow peaches on a large scale. He has purchased several thousand young peach trees which he expects to plant on his farm in the Gap back of Tusseyville.

Huyett & Co. have purchased two tracts of timberland along the mountain, of James Boal and Andrew Gregg. They propose to erect a mill and commence operations this fall.

The real estate of Daniel Fauber, deceased, four acres and buildings adjoining the town, was sold on Saturday last to B. H. Arney, for \$1010.

The Central Synod of the Lutheran church, which meets in this place on the 29th, will be composed of sixty ministers and delegates.

To-morrow, 16th, the Granger's picnic will be held on top of Nittany mountain. The speakers will be Hon. Mortimer Whitehead, of New Jersey, Col. Victor Piolet, of Bradford county, and Col. R. H. Thomas, secretary of the state grange.

Woodward, in the lower section of Haines township, was much in a ferment last week on account of some deeds of violence committed by William Ettlinger, a young married man of that village. Ettlinger served a short term in the county jail, about a year ago, for hitting another man on the head with a club, fracturing his skull. About ten days ago he committed a similar deed, by knocking down Earl Motz, whom he struck on the head with a board, inflicting serious injuries upon Motz. He is also accused of another serious charge, committing, or attempting to commit, rape. Warrants were sworn out on these charges and a constable proceeded to arrest the offender, but finding himself unable to do so on account of Ettlinger's having barricaded the house, three constables were drawn into service and proceeded to the house. Admittance having been refused the officers, one of them procured an axe with the intention of breaking the door open, upon which Ettlinger jumped from a side window and took to the woods, having in his possession a revolver, a Winchester rifle and a Bowie knife, declaring he would not be taken alive.

Penn Forest Notes.

District Forester Bartschat, of Milroy, reports to the Department of Forestry that five forest fires have occurred in the Penn District since the first of the year. The total area burned over by the five fires was only three acres.

Forest Ranger Smith and Towerman Yeager recently visited Poe Valley and found that the beaver colony had increased. Formerly there was only one colony in Poe Valley but now a new colony has started up just below the old one.

During the present fire season Mr. Yeager will camp right at the foot of the Poe Mountain tower within hearing of the telephone bell at all times. Final arrangements for his quarters have been completed, and he will make his home during the coming fire season at the foot of the tower in the forest.

A telephone line has been completed from Ranger Mossell's headquarters to Woodland. This was the final link in the telephone system in the Penn Forest District, connecting the Forester's headquarters with the forest ranger.

Patrolman Henry will be located in Havice Valley with headquarters at Sterret Brown Camp in Price's Kettle during the entire spring fire season.

Forester Bartschat reports that everything in the Penn District is ready for the spring fire season, and that the work of the brush disposal along the Lewis-town and Bellefonte Pike is being rapidly pushed ahead.

Public Sales in March

THURSDAY, MARCH 31, at 12 o'clock, sharp, J. W. Dashem, at Red Mill, will sell: Farm stock, implements and some household goods. Wise & Hubler, aucts.

FOR SALE.—Pair of Mules, coming two years old. Allright in every way.—John H. Horner, Centre Hall, Pa., Route No. 1.

ABOVE ROUND OF ROUTINE

Men Who Do Things Are Not Those Who Have Their Nose Constantly on Grindstone.

A certain vice president of a great railroad once remarked that he would much rather have in his employ a train dispatcher who had a cigar in his mouth and his feet cocked up on the desk than one who kept his nose too closely to the grindstone. As he had come up through the ranks the vice president's opinion was seasoned with accurate knowledge and experience. His theory was that the dispatcher with his feet cocked up had his road in better shape than the grindstone exponent, and could figure out the moves on the transportation chess-board better.

An official of probably the largest corporation in the world was reported to the head of the corporation by a large stockholder as continually loafing and looking out of his office window. The president assured the stockholder that the man was not loafing but thinking, and that his plans had saved in one year more than his salary for twenty.

You can go through the office of the National City bank of New York, the largest bank in America, and find men sitting at glass-topped desks on which there is not a scrap of paper. Yet the daily business of this bank would keep a dozen country banks busy to capacity.

You can pick at random one hundred of the highest executives of the country and find more than 90 per cent sitting at desks absolutely bare.

EFFICIENT ABOVE ALL THINGS

Human Ingenuity Has Never Constructed Machine of Greater Perfection Than the Shears.

Recurring to the very high efficiency of shears—although the use of the word "pair" is correct when one remembers that each blade is an old English "scarc," or cutter—the inventor must have been a practical mechanic. He was, probably, one of the earliest of inventors, because among the pictures on the walls of the me-taba, or tomb, of Ti at ancient Memphis, shears are pictured for clipping wool from sheep and goats. The deceased Ti must have been a person of much importance in the Fifth dynasty (2500 B. C.), although he modestly described himself as "Keeper of the Pyramids."

Therefore shears were in familiar use 4,500 years ago and their general form has not been improved upon.

This is due to the true engineering principle behind the shears.

The invention would appear to have sprung full-fledged into the world, like Minerva from the brain of Jupiter. Imagination is required to picture the admiration with which the first user of a pair of shears contemplated the perfection of the service rendered. Although he probably did not recognize the fact, the efficiency of the shears is 99.9-10 per cent perfection.

THE MAN WITH VIGOR A WINNER

No Wonder Some Folks Have A Hard Time Getting Ahead.

IT TAKES RED BLOOD TO SUCCEED.

Pepto-Mangan Restores Vigor; A Really Wonderful Tonic; Purifies and Tones Up the Blood.

It takes vitality to succeed because success requires hard work.

Some days you get along all right. Other times you have to strain and you overexert yourself. When that happens, your system is overtaxed. It shows first in the blood. The over-exertion causes an increase in waste matter. The blood struggles to take care of it all. Gradually the poisons in the waste increase too fast for the blood. Then the blood becomes clogged.

First thing you know you feel all tired out. Sleep does you little good. You can't eat well. You wonder what the trouble is.

Then is the time to get Pepto-Mangan, the blood building tonic. Take it for awhile till your blood is cleared up. You'll soon have plenty of rich, red blood. Notice the difference in your work. Your old-time energy returns. You win out because you are stronger.

Pepto-Mangan is sold in both liquid and tablet form. The tablets have the same medicinal value as the liquid. Take either kind you prefer. But be sure you get the genuine Pepto-Mangan—"Gude's." The full name, "Gude's Pepto-Mangan," should be on the package. Advertisement.

PUBLIC SALE.

At Red Mill, which is 4 miles South of Centre Hall, on

Latest Spring Models in all the styles and materials desired by men and young men, at

MILLHEIM PENN. KESSLER'S DEPARTMENT STORE [THE HOME OF GOOD MERCHANDISE]

Biliousness

WHEN you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. There is nothing better.

Chamberlain's Tablets

Mr. Farmer, we have:

Full Line of Cultivators and Harrows
Swift's Tankage and Poultry Food
Bran and Middlings, Cotton Seed Meal, Coal, Cement & Roofing,

We Can Quote You Attractive Prices at This Time

ARTHUR B. LEE, SPRING MILLS, PA.

You'll Want This Combination

It is the Case 10-18 kerosene tractor and a two-bottom Grand Detour plow. It is an ideal plowing outfit for either small or large farms.

The tractor weighs about 3,500 lbs., just a trifle more than a big team of horses. It burns kerosene economically, developing full power on the same.

The tractor has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece frame. A Case Syphon Thermostat controls the cooling system and insures complete combustion. The all-steel gears, with teeth cut and hardened, are enclosed and run in oil.

The Grand Detour 2-bottom Automatic Lift Right Beam Plow will fill the plowing requirements of the most particular farmer. Grand Detour plows are strictly quality plows. They are light in draft, yet so well constructed that they will give years of faithful service at a low cost of upkeep.

We would greatly appreciate the opportunity of telling you more about Case tractors. Drop in and let's talk it over.

C. E. FLINK CENTRE HALL, PA.

NOTE: We want the public to know that our plows are NOT the Case plows made by the J. L. Case Plow Works.
