A freight wreck which occurred on the Pennsylvania railroad near Bellefonte on Monday morning would have had more serious consequences had it not been for the presence of mind displayed by Conductor H. S. Miller. The shifting engine was three-fourths of a mile above town at the "Y" switch, making up a string of cars for a run to White Rock. There were nine cars in the train, one of them being loaded with coal. The engine had just cut loose from the train, and had run on to a switch. The conductor closed the switch to send the cars down the main track, when he saw that the wheels of the tender were about to leave the tracks. He said that if he allowed the cars to go down the main track they would be thrown down a bank into Spring creek, so he reopened the switch and the cars ran into the tender. The wheels were stripped from the tender and the front truck on the first car was torn off, but there was no other damage. Traffic was delayed much of the morning and passenger trains had to discharge their passengers at the point of the wreck, three-fourths of a mile from the station.

Timely Reminders from The Pennsylvania State College

FLY TROUBLES—Every manure pile is a fly incubator. Time used now in cleaning up breeding places for flies is very profitably spent. Low places about the barn and in the barn yard should be drained or filled in. Keep the manure away from the barn. It is better to destroy the breeding places than to try to keep flies out with screens.

POULTRY—Late hatched chicks seldom prove profitable as winter layers. April is the month when the great bulk of hatching should be done.

GARDEN—The average garden cannot long grow well without animal manure. Yet chemical fertilizers, of a grade recommended for potatoes will be found very useful, especially on the more fertile soils of Pennsylvania.

SEED POTATOES—Seed potatoes of the Dooley variety, for sale. This is sprayed seed and they are a nice lot.—Apply to M. A. Burkholder, Centre Hall, Pa., R. D. No. 1.

TRUCK FOR SALE—Republic 2-ton truck for sale; in good condition. Inquire of J. C. McClellan, (Potters Mills), Spring Mills, Pa., R. D. No. 1.
