

THIRTY-FIVE YEARS AGO

Paragraphs of News Taken from the Files of the Reporter of 1886.

OCTOBER 13, 1886.

Mrs. James Lee, of Tusseyville, who was severely injured by a savage bull one day last week, is rapidly recovering, but it will be some time until she can be about again.

Jacob Wagner, of near Tusseyville, had a horse die of consumption one day last week.

Complaints from all over the county of the scarcity of water. Some persons must go miles for their water.

Prof. Wolfe states that the supply of teachers in this county is rather large this year. About twice as many certificates were issued as there are positions to be filled.

Mrs. David Kerr died at her home at Centre Hill on Sunday morning, of typhoid fever, after an illness of only three days. She was a daughter of Samuel Spangler, deceased, and was held in high esteem.

We have fuller information about the ravages of the fly in the grain fields of Harris township and beyond. A reliable informant says that the damage up that way is pretty general, nearly all the fields being attacked. Many farmers have found it necessary to sow their fields again. Some have sown rye where the fly has killed the wheat. One farmer, Mr. Mothersbaugh, has examined the wheat plant and in some has found the fly to the number of 32 on a single stalk. It is a little red worm, and unlike the fly heretofore known. Mr. David Keller feels certain it is not the Hessian fly. With the continuation of the dry spell their is danger of further spread of this pest.

Aaron Harter, of this place, while in the Bear Meadows last week saw a good sized bear cub. He had no gun along and Mr. Bear no doubt was glad.

C. Dinges and Geo. Krumbine of this place are attending the annual State convention of the Y. M. C. A., in Altoona, this week.

Carpenters are busy working out the lumber for Wolf's new house on Church street.

IN THE SPRING

YOUR BLOOD

NEEDS A TONIC

Winter Weakens Blood, Makes Faces Pale. Take Gude's Pepto-Mangan.

THE BEST KNOWN BLOOD TONIC

Drowsy Spring-Fever Feeling That Comes from Sluggish Blood Will Soon Leave You.

As all growing things on earth shoot into new life in Springtime, so do the billions of cells that make up each part of the body renew their vigor.

As you open the windows, breathe the Spring air, and let in the sunshine, the red corpuscles in your blood should carry more oxygen to the tiny cells.

The red corpuscles are tiny disc-shaped particles, swimming in enormous numbers in the blood. They carry oxygen to cells in all parts of the body, and they carry away worn-out waste matter. Sometimes, especially in the Spring, after the winter indoors and more or less sickness, the red corpuscles themselves need rebuilding. Gude's Pepto-Mangan contains just the ingredients to give them greater power to absorb oxygen and to distribute it through out the body.

That is why it is such a good Spring tonic. It helps so much to bring back color to the cheeks made pale and wan by the necessary indoor life. It adds to the number of red corpuscles. With fine Spring days and Gude's Pepto-Mangan you gain in vigor and attain good health.

Don't go around drowsy this Spring. Take that good tonic, Gude's Pepto-Mangan. You can get it in tablet form or in liquid form at your druggist's. Both forms have the same medicinal value. Insist upon genuine Gude's Pepto-Mangan. Advertisement.

**Classifying the Apartment.**  
The apartment, in spite of wide physical differences, belongs to the same family as the lead razor and the wooden nutmeg. It is built to get rid of; and the persons who acquire one usually find that it isn't what they thought it was. In the popular mind, the apartment belongs to the great family of homes, and can easily be made into a true home by the addition of a rubber plant and an enlarged photograph of the Colosseum. This is as much of a fallacy as to think that a bluejay can be made into a bluebird by giving him a bluebird house to nest in. The bluejay belongs to the crow family; and while his plumage may please the esthetic senses for a time, his raucous screams and his bullying pugnacity will inevitably offend every one. The wise man, in acquiring an apartment, views it as a branch of the wooden nutmeg family and determines to pass it on to someone else with all possible speed.—Judge.

**Some Watch!**  
While the latest thing in watches is the thin, round or octagon gold time-piece, Capt. Martin Van Buren Bates, who died at his home in Seville, Ohio, wore a watch that weighed four pounds. It was set with diamonds and a delicate set of chimes sounded the hours as the watch rested in his vest pocket. It was a gift from Queen Victoria.

It may be explained that the man who wore the four-pound watch was a famous giant. He stood 7 feet 4 inches and weighed 380 pounds. He was born in eastern Kentucky, and served as a soldier in the command of Gen. John Morgan, the confederate cavalry leader. He later toured the world with a circus with his first wife, Annie Swan, who was 8 feet tall.

**Evening.**  
Thus my wife and I have begun life together. I think that most of our evenings will be spent in the room dedicated to a kind word for life universal. No matter how closely the warring forces of existence, within or without, have pressed upon us elsewhere, when we enter there we enter peace. We shall be walled in from all darkness of whatsoever meaning; our better selves will be the sole guests of those luminous hours. And surely no greater good fortune can befall any household than to escape an ignoble evening. To attain a noble one is like lying calmly down to sleep on a mountain top towards which our feet have struggled upward amid enemies all day long.—James Lane Allen.

**For Sale:**  
One 3-Ton Day-Elder Truck,  
One 6-Ton United Truck,  
One 2-Ton Republic Truck.

All in first class condition. Inquire of Eastern Refractories Co. ORVISTON, PA.

**LAXATIVE for Aged People**  
THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

WORLD MUST HAVE NITROGEN

Men of Science Preparing for the Time When the Chilean Nitrate Fields Are Exhausted.

Farmers of Europe and America have been almost entirely dependent for nearly a century upon the Chilean nitrate fields, which have stood literally between the world and starvation. Behind a plateau 5,000 feet above the sea level and 20 miles from the Pacific coast, is a dreary, parched, almost rainless strip of land, where nature has deposited millions of tons of nitrogen in the form of nitrate of soda. Not only the power to produce crops, but also the power to wage war and to develop many essential industries depends upon nitrogen. Before the war the German chemist, Ostwald, wrote: "If a great war were to break out between two great powers, one of which were to prevent the export of saltpeter from the few ports of Chile, it would thereby make it impossible for the enemy to continue longer than its ammunition supply would last." Germany had accumulated 600,000 tons of Chilean saltpeter before the war. It is estimated that the Chilean nitrate beds will be exhausted some time during the present century. Scientists and engineers, therefore, are bending every effort to other means of supply. Nitrogen is now being recovered from the air by various processes and in several countries.

**Important National Parks.**  
Yellowstone national park was constituted by congress many years ago. This public playground of the whole people, now an object of interest to every tourist who visits the West, includes the famous geyser district of the Yellowstone valley and hundreds of other interesting phenomena and beauties of nature. The park has an area of 2,142,720 acres, making it by far the largest as well as the first of the national parks of the nation. Other important national parks in the United States are the Yosemite in California, the Glacier in Montana, the Mt. Rainier in Washington, the Sequoia in California, the Crater lake in Oregon, the Wind Cave in South Dakota, the Platt in Oklahoma and the Mesa Verde in Colorado.

# A BUSINESS RUSH!

We have never in our business history experienced such an early rush of business as we have witnessed this season. Hardly a month elapsed before our first purchases for the Spring Season were almost all disposed of. This ready response in buying from the people in our vicinity urged us to make a second trip to the Eastern markets for a complete replenishment of our stock.

We are pleased with the patronage thus far given us because we know our trade is beginning to realize and appreciate the care and taste of our selection in buying. They are beginning to realize the full values received for lowest prices paid, but our initial purchases were only a forerunner to the newly arrived merchandise. We have made some truly wonderful purchases of new merchandise and want to convince everyone of what we term as wonderful.

## A "Corking" New Line of Apparel In Our Second Buying. The LOW PRICES Will Be Your Big Surprise.

**Empire Type Foundry, Buffalo, N. Y.**

**You'll Want This Combination**

It is the Case 10-18 kerosene tractor and a two-bottom Grand Detour plow. It is an ideal plowing outfit for either small or large farms.

The tractor weighs about 3,500 lbs., just a trifle more than a big team of horses. It burns kerosene economically, developing full power on the same.

The Tractor has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece frame. A Case Siphon Thermostat controls the cooling system and insures complete combustion. The all-steel gears, with teeth cut and hardened, are enclosed and run in oil.

The Grand Detour 2-bottom Automatic Lift Right Beam Plow will fill the plowing requirements of the most particular farmer. Grand Detour plows are strictly quality plows. They are light in draft, yet so well constructed that they will give years of faithful service at a low cost of upkeep.

We would greatly appreciate the opportunity of telling you more about Case tractors. Drop in and let's talk it over.

**C. E. FLINK**  
CENTRE HALL, PA.
