

WRIGLEY'S

"AFTER EVERY MEAL"

Mint leaf, peppermint or luscious juicy fruit, either flavor is a treat for your sweet tooth.

And all are equally good for you. Teeth, appetite and digestion all benefit.

Your nerves will say "thank you," your vim will respond.

WRIGLEY'S is liked for what it does as well as for its BIG value at the small cost of 5c.

The Flavor Lasts

HAD A TRICK WORTH WHILE AND IT WAS THE SAME MULE

Society Beggar Knew How to Get on the Soft Side of Mrs. Gobsa Golde.

"Charity begins at home," said Dr. Wilbur P. Crafts of the International Reform bureau of Washington, "but no truth is so disregarded as this one."

"Two beggar women met on the street one day.

"Fine coat you've got there. Where did you land it?" said the first beggar woman.

"Old Mrs. Gobsa Golde gave it to me," said the second beggar woman.

"Is that so? I've begged at Mrs. Gobsa Golde's hundreds of times, and she never gave me a cent. How did you work her?"

"Well, you see," said the first beggar woman, stroking her new coat complacently, "I didn't tell her I was begging for myself. I pretended I was begging for the heathen."

Right Thinking.

Let the words of my mouth, and the meditation of my heart, be acceptable in thy sight, O Lord, my strength, and my Redeemer.—Psalm, XIV, 14.

Ceaseless propaganda failed to interest any man in calories or vitamins.

Friends Tell Good Story on Lawyer Who Has Risen to High Position in State.

Col. W. H. Holmes, state superintendent of game for the department of conservation, was admitted to the bar on reaching his majority. His first case was to prove that a certain mule belonged to a certain negro. He won the case.

Subsequently in another mule case he proved the animal belonged to another negro. Then he was elected district attorney, and the first case he had to prosecute was one concerning a mule. The mule had been stolen and was over the line in Mississippi. He was going to abandon the case, when one of his former clients approached him and said:

"Cunnel, if I was you, I'd go after dat mule. Dat's de mule been suppohtin' you evar since you was a lawyer."

And in all three cases it was the same mule.—New Orleans Times-Picayune.

All the cork used in the world in a year weighs little more than 1,200 tons.

Some men find it easier to get drunk than sober.

It's So Easy to Make the Change

There's no bother and no sacrifice in turning away from the ills which sometimes come from tea and coffee, when you decide on

POSTUM CEREAL

Then you have a rich, full-bodied table beverage which fully satisfies the taste—and there's no ingredient to harm nerves or digestion.

Thousands have changed to Postum as the better meal-time drink and they don't turn back.

Suppose you try the change for ten days and note the result.

"There's a Reason" for Postum

KEEP CHICKS IN BEST CONDITION

Young Fowls When Old Enough to Shift for Themselves Must Be Given Care.

NEGLECT IS CAUSE OF LOSS

Bulletin Given Out by Department of Agriculture Especially for Beginners Gives Essentials for Proper Growth.

(Prepared by the United States Department of Agriculture)

The enthusiasm with which many poultry raisers, particularly beginners, start in the spring with young chicks sometimes lags as the season advances and the chicks get old enough to shift for themselves. If care is neglected at this period, however, success is improbable. The baby chicks may be smart little fellows from strong, vigorous parent stock, and they may have been brooded carefully for the first two or three weeks, but unless they receive proper care and management during their later growing period they will not develop properly, and many of them will be lost by sickness and disease. This is the timely warning made by poultrymen of the United States Department of Agriculture in Farmers' Bulletin 1111, "Management of Growing Young Chicks," published by the department, in which is given the essentials to proper growth and development of chicks. The bulletin is written briefly and in simple terms for beginners, especially members of boys and girls' poultry clubs.

Suitable Food and Care.

The chief essentials to the proper growth of chicks, according to the bulletin, are good coops, or houses, cleanliness, proper feed and water, shade and free range. Growing chicks should be provided with large, roomy coops or houses, which will give them a comfortable place to stay at night and during stormy weather. The bulletin suggests no particular kind of house, but states it should be so built that it will provide the chicks with

Member of Boys' Poultry Club and His Flock.

plenty of light, pure air and sunshine, and protect them from dampness and storms of all kinds.

Chicks should never be crowded in brood coops, for crowding will cause them to become overheated, resulting in improper growth and sometimes in dead chicks.

Sickness or disease usually starts in unclean quarters, and in such places lice and mites are always more plentiful, the bulletin says. The coops should be cleaned and sprayed once a week, and clean shavings, chaff, or sand put on the floor. Examine the chicks and houses often for lice and mites, and if found they should be gotten rid of at once. Farmers' Bulletin 1110 gives directions for fighting lice and mites.

Feed Right for Rapid Growth.

The three kinds of feeds most necessary for rapid growth are grain feed, green feed and dry mash. A grain mixture should be fed night and morning, giving as large a quantity as the chicks will eat clean, but no more. A good mixture for growing chicks consists of three parts cracked corn, two parts wheat and two parts hulled oats. Kafir corn or rolled or hulled barley may be substituted for hulled oats. A supply of fresh green feed is almost as necessary as grain for growing chicks. They obtain plenty of it if they have free range, but if kept in confinement, lawn grass, beet tops, cabbage, lettuce or other such green feed should be supplied regularly.

Grit and oyster shells should be provided so the chicks may help themselves whenever they wish. When sour milk can be obtained it should also be kept before the chicks, as no feed is regarded better for them. When this is given the amount of beef scrap in the dry mash may be reduced one-half. Plenty of fresh, clean water is absolutely necessary, and in hot weather it should be provided twice daily in dishes that have been thoroughly cleaned.

The bulletin emphasizes the importance of free range and shade for growing chicks. They are necessary if chicks are to grow rapidly and develop into vigorous fowls. When growing chicks have free range they obtain quantities of green feed, bugs, worms and other things, therefore they require less grain and are less liable to sickness and disease.

KILL OUT DODDER SEED

During the first season of infestation in clover or alfalfa, dodder usually occurs in small scattered areas. Such infested areas should be either mowed and removed before the dodder matures seed or else burned in the field. If seed has formed, burning is the only remedy, since it kills not only the plants but also the seeds of dodder which may be lying on the soil surface.

AUTOMATIC TRAP ON BEEHIVE

Primary Object of Invention is to Prevent Bees From Leaving in Large Numbers.

The Scientific American in describing an automatic beehive trap, the invention of D. S. Rowe of Marseilles, Ill., says:

"The invention relates more particularly to an automatic bee trap. The primary object is to provide means whereby the entrance and exit openings of a beehive may be automatically closed by the weight of the occupants to prevent the bees from leaving."

A Perspective View of a Hive, With Invention Attached.

ing the hive in large numbers, which is commonly known as 'swarming.' It is a further object to provide a means by which the ordinary passage of the bees in their performance of gathering honey is unobstructed.

WHITE ANTS INJURE TIMBERS

Insects Enter Wood Wherever It Comes in Contact With Damp Earth and Eat Into Beams.

Winged white ants are often observed flying about houses in spring, and are sometimes supposed to have come in from outside. The bureau of entomology of the United States Department of Agriculture explains that these winged insects really are hatched inside the buildings, and usually are to be taken as indicating nests of wingless white ants working destruction in the timbers.

These insects, which really are not properly ants, enter the wood wherever it comes in contact with damp earth, and often eat into the center of an upright beam without manifesting their presence on the outside until the wood is entirely ruined, and possibly a settling and cracking of the building has resulted.

The department urges that buildings be constructed with such foundations that no wood touches the ground, or if it is necessary to use wood, that it be impregnated with tar creosote. Concrete floors should be laid on a gravel base to prevent dampness and cracking, and where cracks occur they should be promptly filled.

UNIFORM PRODUCTS FAVORED

Find Better Market, Bring Higher Prices and Are Handled at Less Expense Than Others.

Without uniform standards for farm produce there is no recognized basis for the business of buying and selling, says the bureau of markets, United States Department of Agriculture. Standardization of products gives seller and purchaser a common language and a set quality upon which prices may be compared and fixed. Experience has shown that the products which are sold by grade find a better market, bring better prices, and can be handled at less expense than those sold without reference to standards. Standards have already been fixed for many farm commodities, such as American Upland cotton, shelled corn, wheat, oats, and for small fruit containers. These Federal standards apply only when the product is intended for interstate or foreign commerce. It is highly important to secure state cooperation so that the provisions that apply to a few products will apply to all that are offered for sale.

DIARY OF MUCH IMPORTANCE

Well Adapted to Cost-Accounting Records When Information Wanted on Few Enterprises.

A diary is well adapted to cost-accounting records when information is wanted on only a few farm enterprises, say specialists of the United States Department of Agriculture. If the diary is written up each day it takes but a moment to enter the hours and minutes spent in working the crop, and the necessary notes regarding the cost of seed, fertilizer, and equipment. The common form of diary is a book containing a blank page for each day's record and with space in the back for financial accounts. Another form has a page for each day divided to give space to the records of two years. A similar type furnishes space for a five-year period.

Catarrh

Catarrh is a local disease greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier. By cleansing the blood and building up the system, HALL'S CATARRH MEDICINE restores normal conditions and allows Nature to do its work.

The Solution.

Little Girl—If I was a teacher, I'd make everybody behave.

Auntie—How would you accomplish that?

Little Girl—Very easy. When girls were bad I'd tell them they didn't look pretty; and when little boys were bad I'd make them sit with the girls, and when big boys were bad I wouldn't let them sit with the girls.—Edinburgh Scotsman.

Outside Competition.

"Why is it so hard for a poet to make a living?"

"Others encroach on our preserves," explained the poet. "Doctors, lawyers, all sorts of men write poetry. Yet you never hear of a poet trying to write a legal brief or a prescription."

A Lady of Distinction

Is recognized by the delicate fascinating influence of the perfume she uses. A bath with Cuticura Soap and hot water to thoroughly cleanse the pores, followed by a dusting with Cuticura Talcum powder usually means a clear, sweet, healthy skin.—Adv.

The Record.

Howell—Last night was the hottest night in the year.

Powell—Not for me; the hottest night for me was when my wife discovered that my pay had been raised and I hadn't told her of it.—New York Sun.

ALLEN'S FOOT-EASE DOES IT

When shoes pinch or corns and bunions ache, get a package of ALLEN'S FOOT-EASE, the antiseptic powder to be shaken into the shoes. It takes the sting out of corns and bunions, gives instant relief to Smelling, Aching, Swollen Feet. 1,500,000 pounds of powder for the feet were used by our Army and Navy during the war.—Adv.

Greatest Zinc Mines in Jersey.

The greatest zinc mine in the world, located in Sussex county, New Jersey, has been worked almost continuously since colonial days.

All politicians are willing to be caught in the cabinet.

Silence is sometimes the best emollient for one's mistake.

Find the Cause!

It isn't right to drag along feeling miserable—half sick. Find out what is making you feel so badly and try to correct it. Perhaps your kidneys are causing that throbbing backache or those sharp, stabbing pains. You may have morning lameness, too, headaches, dizzy spells and irregular kidney action. Use Doan's Kidney Pills. They have helped thousands of ailing folks. Ask your neighbor!

A Virginia Case

Frank E. Root, blacksmith, 107 S. Payne St., Alexandria, Va., says "My back was weak and lame and I could hardly bend over or straighten up. I also had had headaches. Nights I had to get up often, and when morning came I was all tired out. I used Doan's Kidney Pills and my kidneys acted regularly again and I got wonderful relief from the pains in my back."

New Life for Sick Man

Eatonic Works Magic

"I have taken only two boxes of Eatonic and feel like a new man. It has done me more good than anything else," writes C. O. Frappier.

Eatonic is the modern remedy for acid stomach, bloating, food repelling and indigestion. It quickly takes up and carries out the acidity and gas and enables the stomach to digest the food naturally. That means not only relief from pain and discomfort but you get the full strength from the food you eat. Big box only costs a trifle with your druggist's guarantee.

IN USE FOR 25 YEARS

BABEK

The Quick and Sure Cure for MALARIA, CHILLS, FEVER AND LA GRIPEE. It is a Powerful Tonic and Appetizer. Will cure that tired feeling, pains in back limbs and head. Contains no quinina arsenic or habit-forming ingredient.
