up the banks of this country in making a loan to China.

"It was one of the crying shames of the country, according to Republicans, that General Pershing, instead of General Wood, was sent to France. Yet we find the present administration has in dorse the proposition of making General Wood of Staff of this country instead of the great and heroic General Wood.

"Judge Hughes, when a candidate for President in 1915, denounced the appointment of E. Lester Jones as head of the Geodetic Survey and called him an incompetent "horse doctor." Mr. Harding reappointed this "horse doctor" in March, with the statement that his services were indispensable.

"President Wilson put postoffices under the civil service and Harding has followed suit with scheme that the politicians hope to use to cover the spoils system which they hope to run. Indeed, the Republican administration thus far is walking in the tracks of the Democratic administration, but they appear to be walking backward; and stumbling occasionally."

Record-Breaking Road Building.

They have a four-bag concrete machine with which they laid 1005 lineal feet in nineteen hours, which is over 500 feet per day. The previous highest record in Pennsylvania for hand finished work was 398 feet.

The superintendent on this piece of work is Fred Jones; inspector, Fred Moore and H. H. Wilson; gang foreman, Frank Fagan; concrete foreman, W. F. Noll, who resides at Linden Hall, who is being assisted by his sons, Paul and David Noll, and Herb Klinger, of Tasseyville. They have been in the road building game for a number of

years. All the finishing is being done by hand.

If this amount of work daily can be kept up it will not be long until Warren Bros. will have completed their contract.
