The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth. and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkersville, Canada.

The Alps, Appenines, Pyrenees, Russian Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are mong the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohlo, for the manufacture of Tanlac. which, according to recent reports, is now having the largest sale of any medicine of its kind in the world, over 20.000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs. barks and flowers are received in their rough state from all parts of the globe. until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada, to supply a demand never before equalled by this or any other medicire.
