Mr. and Mrs. Alvin Myers, of Altoona, spent their vacation period in Centre Hall, visiting Mrs. Myers' several sisters and her mother, Mrs. Sarah Stover, at the William McClenahan home. Mrs. Byron Garis experienced a peculiar accident a few days ago. She was picking raspberries near her home when the ground suddenly gave way beneath her and she found herself standing in a hole, waist high, with one limb in the hole and the other out, the latter being twisted in such a shape as to cause her great suffering. With much difficulty she extricated herself and with the use of a heavy stick made her way to the house, a distance of several hundred yards. A physician found a badly sprained leg as the result of the accident.

A great deal of adverse criticism is being heard locally, directed against the State, for the miserable job of oiling the borough road and following it up with chipping. This was done at great expense to both the State and the borough, but already it has become apparent that good money has been thrown away. The oil was too thin for a good job and the result was that the thousands of cars which have passed over the road in the past few weeks, have the major portion of the stuff on their tires and the under part of their fenders. The small stones, too, have been carried off, so that the bare road is exposed in many places. Last summer the road received an application of the light oil, and this was well and good, for it was absorbed and resulted in a firm uniting of the stones. Now that the road has absorbed all that it was capable of absorbing, a heavy oil or "ugite" appeared to be the proper dressing to give good wearing quality, but instead, as one citizen said, the State accepted the lowest bid for the job, and got just what it paid for. False economy, that.
