

PINE GROVE MILLS.

Most of our farmers are ready to seed and some will sow this week's end. Some corn is being cut and topped, and is a 100 per cent crop. Potatoes are not so promising.

Miss Emma Johnson returned home from Ohio last week and is now one of the belle girls in the Bellefonte Bell exchange.

Miss Mabel C. Goss, of Tyrone, is spending her vacation among relatives and friends near town.

Rev. Hamon, of the M. E. charge, is spending his vacation among relatives in Pittsburg for two weeks.

Will Grove, one of the trustees at the throttle on the Pennsy at Altoona, with his son Charles, spent the Sabbath with relatives in town.

Rev. A. M. Lutton and daughter are spending their annual vacation with relatives at Pittsburg and Altoona.

Mr. and Mrs. Harry Erb, of York State, were in town Sunday, making short calls with old neighbors and friends. They were attending the Erb reunion held at State College on Saturday. His grandfather, Jacob Erb, was the founder of the village that bears the name Erbtown, over 100 years ago.

On Wednesday evening, Clarence Corl and Miss Mary Whitmer were united in marriage by Rev. S. C. Stover at the Reformed parsonage at Boalsburg. After congratulations they returned to the groom's home, where the wedding feast was served. The bride is the youngest daughter of J. B. Whitmer, of White Hall, and is a splendid lady. The groom is the only son of Mr. and Mrs. Samuel Corl, of Pine Hall, and a hustling young farmer. Their honeymoon is being spent in Buffalo, Niagara Falls and Canada.

Mrs. Ida M. Goheen and two sons, of Tyrone, visited her sister, Mary McWilliams, who is in feeble health.

A get-together meeting of the Baileys was held at the well known home at White Hall on Sunday. Those present from a distance were, Mr. and Mrs. Warren Bailey, from Springfield, Ill.; Dr. Frank Bailey and lady friend, of Milton; Dr. J. Baker Krebs and wife, of Northumberland. One of the pleasant features was the serving of a big dinner by the mother, Mrs. John Henry Bailey.

Attention, comrades! The 50th annual reunion of the C. C. V. C. A. will be held at Centre Hall on Sept. 7th. Although our ranks are growing thinner the bond of fellowship grows stronger. There will be a band concert and addresses by prominent speakers. Roll call at 10 a. m. in the auditorium. All Civil War veterans will be admitted to the grounds free.

HOUSED IN OLD BUILDINGS

Financial Institutions of Yorktown, Virginia, Do Business Among Historic Surroundings.

Within 20 miles of where the first English settlement in America was made at Jamestown is the scene where Capt. John Smith records the story of his rescue by Pocahontas, the daughter of the Indian chief, Powhatan. Within a circle of 20 miles is to be found the oldest Protestant church in America; the kitchen where Martha Washington cooked in good colonial style; the college which has graduated three presidents; Bruton church, in which more men of historical importance have worshipped than in any other church in America—and Yorktown, where Cornwallis surrendered to Washington.

Although Yorktown has a population of less than two hundred, it has two banks, both of which are working in what are probably the two oldest buildings used for banks in America. One of these banks, operating under state and trust company laws, is housed in the historic oldest customhouse built in America—erected in 1715. Here the ships for Philadelphia were once compelled to enter and clear. Here at one time was the gathering place of the financiers of the early colonists. Wall street has taken away the financiers, but has left the same old building with its same old walls of English brick, some 24 by 40 feet square and two stories high.

"I Got Real Mad when I Lost my Setting Hen," writes Mrs. Hanna, N. J.

"When I went into our barn and found my best setter dead I got real mad. One package of Rat-Snap killed six big rats. Poultry raisers should use Rat-Snap." Comes in cakes, no mixing. No smell from dead rats. Three sizes. Prices, 35c, 65c, \$1.25. Sold and guaranteed by

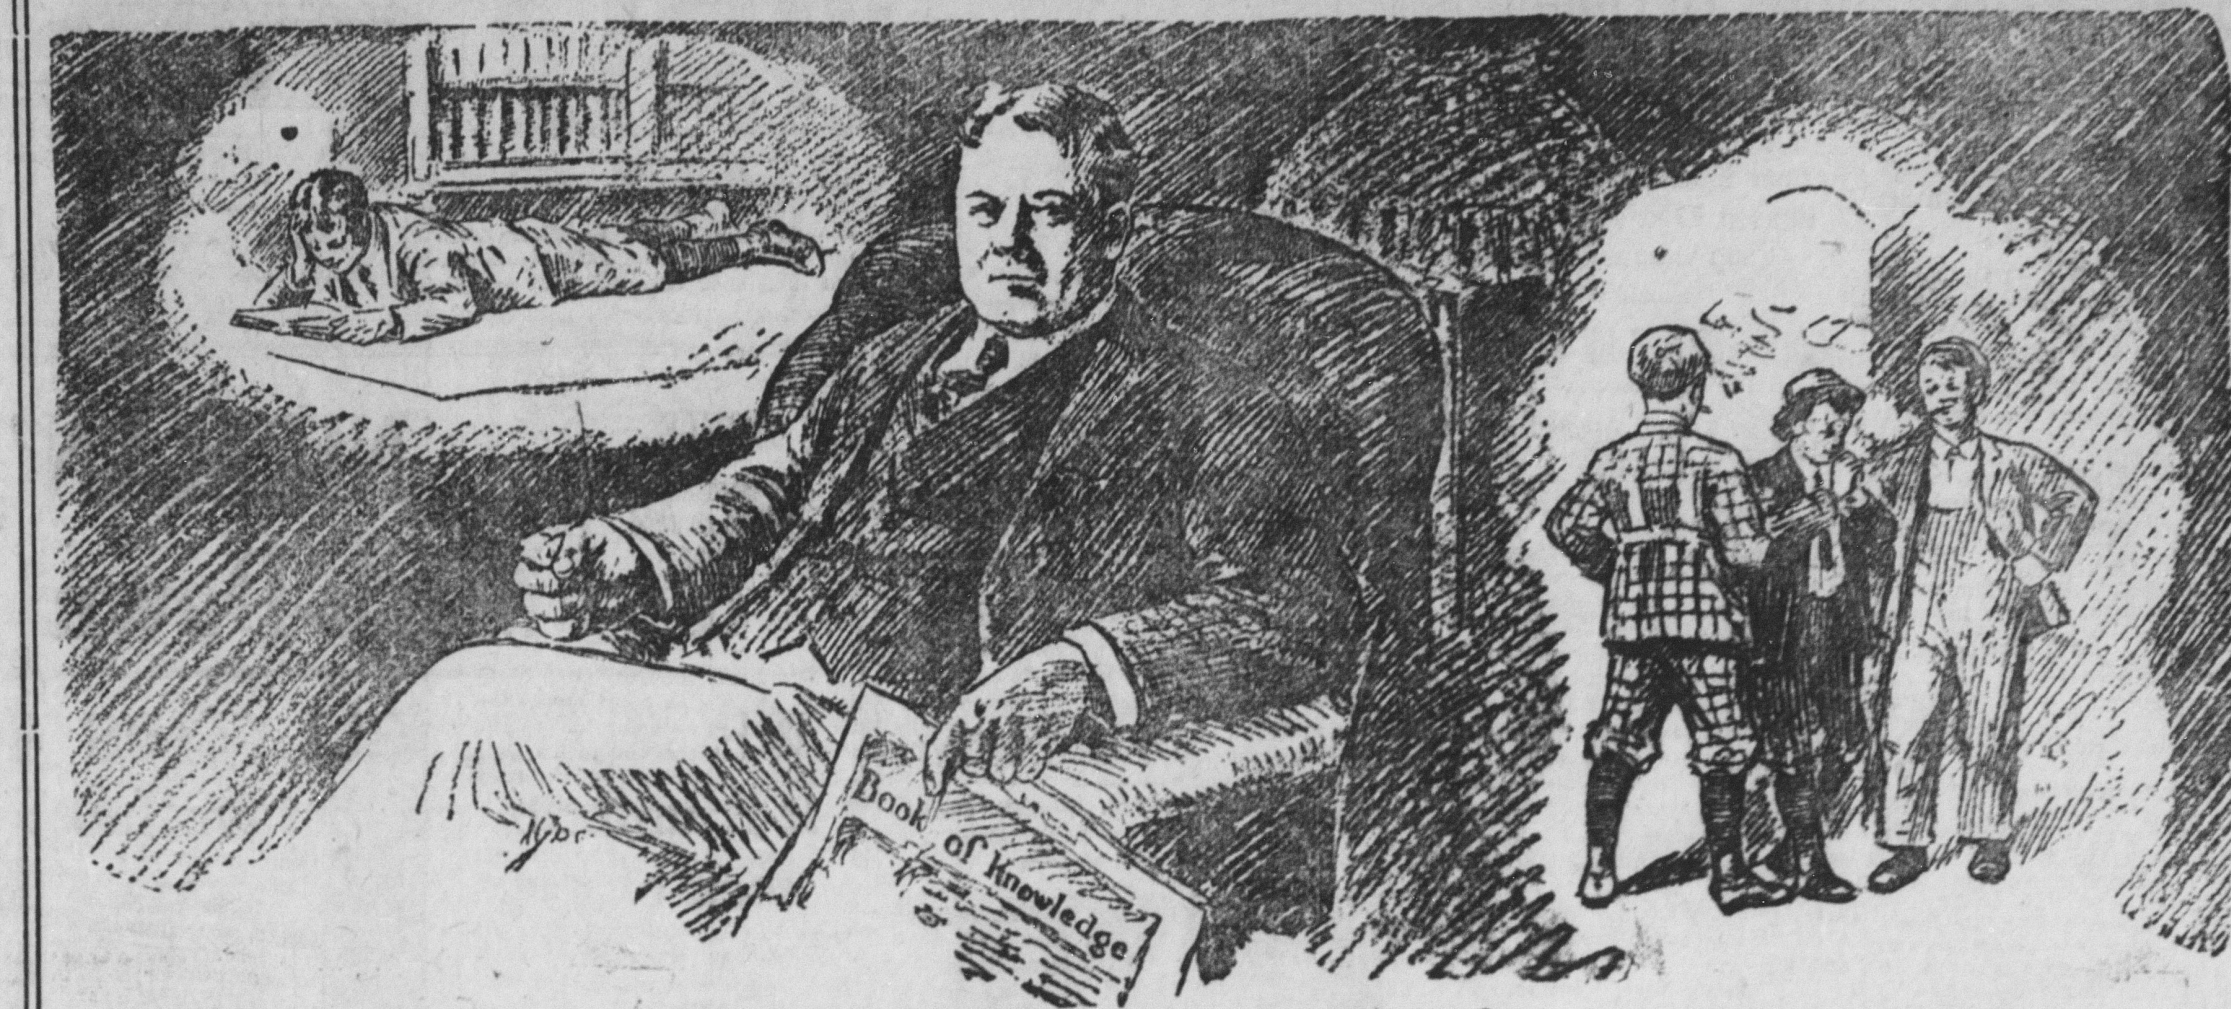

C. M. Smith, Mable Arney, Centre Hall; C. P. Long Co., W. C. Meyer, Spring Mills; Louder's Store, Oak Hall.

Farm Calendar.

Timely Reminders from The Pennsylvania State College

POTATOES—Cool, damp weather at this time is a good indication that late blight will strike the potatoes. Those growers who have sprayed regularly and well throughout the growing season will suffer little or no loss while a neighbor's unsprayed crop may be wiped out entirely.

SILLO—Inspection of the silo may reveal some rotted silage or water that should be removed at once. Collect all

"I Haven't Given My Boy a Square Deal!"

"It's true I have sent him to school, given him plenty of money to spend and granted all of his whims, but I haven't done the fair thing by him by neglecting his education at home. I can look back now and see my mistake.

"A few years ago he drove me nearly crazy asking questions, but they were either too hard to answer or I was too tired to bother with him. The inevitable thing happened, he lost his desire to learn and after a while did not bother me with any questions.

"Just the other day I was talking to my neighbor about John's in-

difference to study; how he spent most of his time away from home and did not like to read. He said: 'I'll tell you what you do, Smith, buy him The Book of Knowledge. It's the greatest educational gift in the world and will be an investment in your boy's future that will repay you many times over.

"We have the book at home and our children are reading it all the time. It helps them with their lessons, too. My wife and I thought it was an expensive investment when we bought it, but now we have changed our minds. No home where there are children should be without it."

THE BOOK OF KNOWLEDGE

"THE CHILDREN'S ENCYCLOPEDIA"

Answers Every Question A Child Can Ask

A New System of Home Study

The Book of Knowledge is a new method of education in the home. Over 10,000 striking educational pictures, many in colors, and brief interesting articles show and explain to the child of today the whole cycle of existence and circle of truth to which he is entitled by birth. It is the first work of reference which a child ever really enjoyed reading. It expands every faculty of the child's growing mind and leads him step by step from his first simple question into all the departments of knowledge.

A Child Learns Through Curiosity

Curiosity is the beginning of all knowledge. Do you know any subject about which your child has not asked you a dozen questions? Let him ask as many as he likes, and be sure to answer them correctly. It is your plain duty to answer the child's questions or give him the means of finding the reply himself. When a child's curiosity voluntarily offers an opportunity to teach him something he will never forget, it would be wrong to let it slip. The Book of Knowledge was created to satisfy this "Divine Curiosity." It answers every question a child can ask, clearly and in words he understands. It educates while it entertains.

Your Child's Chance to Succeed

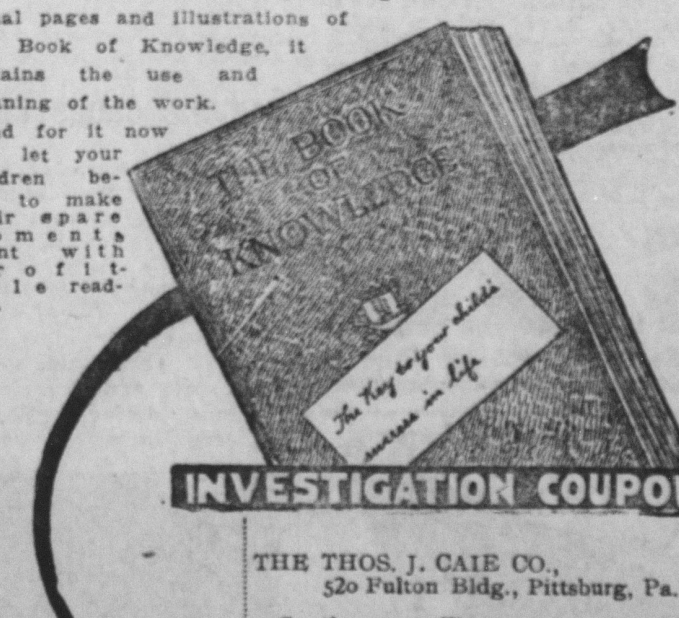

In round numbers your child's chance to become successful if uneducated is one chance out of 150,000; with a common school education, 4 chances; with a high school education, 87 chances; with a college education, 800 chances; with The Book of Knowledge, every chance. With this wonderful work to study a child is able to gain a working knowledge of the world—the earth, the air, the sea and the works of men. The whole wonderful world is brought within reach of his mind. In over 700,000 homes today more than two million children are being educated and prepared for the future with The Book of Knowledge. Give your child his chance to compete with them.

Your Child Is Unique

Your child is like no other child in the world. He has his own peculiar taste and need for both physical and mental food. There is for every child one particular occupation in which he will be happiest. In these days of specialization the sooner this is discovered the better. Give your child The Book of Knowledge and watch carefully which of the sixteen great departments interests him most—Nature, Science, History, Biography, Astronomy, Physiology, Art, Literature, Poetry, or Manual Training. In many cases the future of the boy or girl will be determined by the possession of these volumes.

This Valuable Book FREE!

All your questions about The Book of Knowledge, "The Children's Encyclopedia," are answered in a new 80-page booklet entitled, "The Key to Your Child's Success." A copy is wrapped up and ready to be mailed to you—entirely free! If you will fill out the coupon below and mail it to us. This is a veritable treasure of knowledge in itself. Besides reproducing actual pages and illustrations of The Book of Knowledge, it explains the use and meaning of the work. Send for it now and let your children begin to make their separate moments count with profitable reading.

INVESTIGATION COUPON

Exposition in Centre Hall

The Thos. J. Caie Co., of Pittsburg, Pa., invites you and those interested in Child Welfare Work to visit its Exhibition at

WOLF BUILDING, ON GRANGE PARK, during the

Grange Encampment & Fair, September 3rd to 9th

doors, make necessary repairs, draw hoops on stave structures, and in general, prepare for the filling.

EXERCISE BULL—Give the bull exercise. A bull enclosed in a cramped box stall has every inducement to become mean, sterile and subject to all the evils of the bull family. A small pasture lot and a few minutes' attention daily will do much toward correcting these evils.

GARDEN—Vines of squashes and pumpkins usually make roots at the joints. They are essential to the growing crop and if moved during cultivation, the plants suffer.

SHOWING CATTLE—Get a reputation for your dairy cattle at the coming fairs. A little added care with comb and brush and some extra linseed oil meal in the grain mix will improve the appearance of the animals to be shown.

POULTRY—This is a good time to give the poultry buildings "the once over." Tar-paper roofing should be painted at least once in three years.

SEED WHEAT—The best seed wheat is the cheapest. The county agent can tell which varieties are best adapted to your locality and where seed can be secured. Clean seed in a fanning mill.

Centre Reporter, \$1.50 a year.

"We only Bought Rat Poison Twice," writes Jesse Smith, N. J.

"I threw the first kind away; couldn't be bothered mixing it with meat, cheese. Then I tried Rat-Snap. SAY, that's the stuff! It comes in cakes, all ready to use. And it sure does kill rats." 35c, 65c, \$1.25. Sold and guaranteed by
