## PREPARE GARDEN LATE IN SUMMER

One of Most Important Things Is to Burn or Haul Away All Trash of Any Sort.

### FIRST PUT BEAN POLES AWAY

Plow or Spade Ground and Cover With Coarse Manure to Put It in Better Physical Condition for Spring Planting.

Prepared by the United States Department of Agriculture.

The man who makes a genuinely good garden does not begin in the spring. He begins in the fall. But the spring is a long way off, you say? The bean poles are beginning to rot already, and it is time right now to take out insurance by putting them away properly. And that is only one of a considerable number of simple things of equal importance that should be done in the garden—now.

Because you have harvested all the garden crops do not fall into the serious error of thinking that you do not need to give any further attention to the garden till next spring.

**Clean-Up Time in Garden.**

One of the most important things is to clean up. You wouldn't excuse a slovenly kept house. Well, slovenliness in the garden is hardly more to be tolerated. Good housekeeping in the garden is a matter of importance, not merely because a slovenly garden in winter is the most desolate-looking thing in man's perversion of nature, but because the success of next year's vegetables depends on it, largely.

Most of the diseases and insect pests that affect garden crops live over winter in the remains of the past season's crops. Such materials as cabbage stalks, bean vines, tomato vines—in fact, trash of any sort in the garden—should be collected and hauled to a dump, or burned.

Then, having the ground clean, there is another thing of equal importance. It should not be allowed to lie bare over winter. Ground exposed to beating rains will puddle and wash and great loss of plant food is sure to result. A very good plan is to sow the garden in some green crop, such as rye or winter barley. That protects the ground and adds organic matter to the soil. But there is, according to garden specialists of the United States Department of Agriculture, a still better plan and one that can be put in practice after the season for sowing rye or barley is long past. That better plan is to plow or spade the garden in the fall or as early in the

## STRONG APPEAL MADE FOR HEALTHY CATTLE

Poster Used in Tuberculosis Eradication Campaign.

Careful Experiments Have Demonstrated That Disease Cannot Be Detected to Any Great Extent by Physical Examinations.

(Prepared by the United States Department of Agriculture.)

Unlike most other infectious diseases, tuberculosis has an insidious way of working under cover, and oftentimes animals of the most healthy appearance are found to react to the tuberculin test, say veterinarians of the United States Department of Agriculture. No cattle owner can afford to live in doubt as to whether his animals are affected, they add. This point is brought out clearly in a two-colored poster published by the department, on which is shown two herds of dairy cattle. From all appearances the animals of both herds are healthy, but as a matter of fact these of one herd are afflicted with tuberculosis.

The poster also shows two children—one healthy, one diseased—and the point is brought out that tuberculous

Tubercular-Free Cattle.

animals may transmit the disease to children who drink the milk produced. The poster is a strong appeal for healthy cattle, and it is to be used extensively in the tuberculosis eradication campaign being carried on by the department.

Careful experiments in practical work have shown that tuberculosis cannot be detected to any great extent among animals by physical examinations. The most reliable method is the tuberculin test applied by a trained operator. Tuberculin, while regarded as the most accurate diagnostic agency known to science, is safe only in the hands of a trained and skillful operator who is acquainted with its limitations and with the symptoms it produces in the animals to which it is applied, the department veterinarians say.

**MANURE SHOWS GREAT VALUE**

Where Applied to Clover Fields It Increased Yield Threefold—Phosphorus Helps.

Due to the cool weather of the spring and the freeze which occurred early in the season, the Iowa agricultural experiment station has had an opportunity to show the value of common barnyard manure on clover. It has been found that where manure was added to the fields only once in the rotation the stand has been increased three times over the plots where no manure was used.

Eight tons per acre were added to the manured plots and here the leaf surface and root development are heavier and better. Where phosphorus was added at the same time as manure, plants are even more vigorous and have a greater height.

**CARE FOR LATE VEGETABLES**

To Store Late Products Nothing More Is Required Than Use of Existing Facilities.

The storing of late vegetables is often profitable for those who grow them in sufficient quantities for marketing, giving the grower the direct benefit of the winter price. To care for the surplus vegetables in many cases requires nothing more than the use of existing facilities in the form of a storage room in the basement or a dwelling or under an outbuilding or to build an outdoor cellar of wood or masonry. If permanent facilities are not available, late root crops can be kept in outdoor pits or banks, requiring no cash outlay except for labor.

**SHEEP GOOD AS SCAVENGERS**

Feed and Care Are Essential to Develop Flock for Mutton—Animals Keep Down Weeds.

Sheep possess great ability to renovate the soil, keep down all kinds of feed that would otherwise often be weeds and to consume odds and ends totally wasted, but the man who undertakes to develop a really profitable flock of mutton sheep must get away, as far as possible, from the idea that they are kept because of their ability as scavengers. He must like his sheep and plan to give them the most painstaking care and the best food that his farm affords. Unless he does this he is likely to have trouble.

**PUTTING PLOW AWAY IN FALL**

Excellent Plan to Apply Good Coat of Axle Grease and Cover With Thin, Dry Dust.

When you put your plow away for the season, put a good coat of axle grease on the point and moldboard and cover the grease with a good covering of dry dust. This will cause the axle grease to stay where the grease alone would dry out, and will save a lot of scouring when plow time comes.

## CASTORIA

For Infants and Children.

Mothers Know That Genuine Castoria Always Bears the Signature of

*Chas. H. Hutchins*

In Use For Over Thirty Years

## CASTORIA

THE CENTAUR COMPANY, NEW YORK CITY.

**Spohn's Disemper Compound**

With the approach of fall and winter horses are again more liable to contract contagious diseases—DISEMPER, INFLUENZA, COUGHS and COLDS. As a preventive against these, an occasional dose of "SPOHN'S" is remarkably effective. As a remedy for cases already suffering, "SPOHN'S" is equally effective. Give it as a preventive. Don't wait. 60 cents and \$1.20 per bottle at drug stores.

SPOHN MEDICAL COMPANY GOSHEN, INDIANA

If you are henpecked you need not grow about it.

Watch Cuticura Improve Your Skin. On rising and retiring gently smear the face with Cuticura Ointment. Wash off Ointment in five minutes with Cuticura Soap and hot water. It is wonderful sometimes what Cuticura will do for poor complexions, dandruff, itching and red rough hands.—Advertising.

Spare the kiss and spoil the wife.

Some men who don't seem to know when they are whipped, doubtless have suspicions.

The young man who get a good start in life doesn't always make a satisfactory finish.

Never say "Aspirin" without saying "Bayer"

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. All druggists sell Bayer Tablets of Aspirin in handy tin boxes of 12, and in bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monocetate-ester of Salicylic acid.

**ITCH!**

Money back without question if HUNT'S GUARANTEED SKIN DISEASE REMEDIES (Hunt's Salve and Soap), fail in the treatment of Itch, Eczema, Ringworm, Tetter or other itching skin diseases. Try this treatment at our risk. Sold by all reliable druggists. A. B. Richards Medicine Co., Sherman, Texas.

**PARKER'S HAIR BALM**

Removes Dandruff, Itchiness, Restores Color and Beauty to Gray and Faded Hair. See and Buy at Drug Store. Wm. B. Parke & Sons, N.Y.

**HINDERCORNS** Remove Corns, Cuticles, etc. Apply all parts, ensure comfort to the feet, makes walking easy. See by mail or at Drug Store. Alton Chemical Works, Paterson, N.Y.

**FOUND!**

THE BEST HAND KNITTING WORSTED 12 1/2c an ounce. Direct from mill. Think of the saving. Postal brings samples. OLD COLONY MILLS, Manassas, Phila., Pa.

**KREMOLA** A WONDERFUL FACE BLEACH. Removes all skin blemishes, freckles, etc. See by mail or at Drug Store. W. N. U., BALTIMORE, NO. 40-1921.

It is the wisest men who seldom go to the trouble of exploding one's argument.

No man is so peaceful that he isn't proud of his ancestors that fought in the wars.

### REALLY NOTHING TO MENTION

A fortunate limitation of vacations is no doubt the fact that they cost so much.

Outside of a Few Little Pleasantries, Campaign in Chiggesville Was a Quiet Affair.

"Was the last municipal campaign in Chiggesville a lively one?"

"No," said Squire Witherbee. "I can't say it was as lively as some political fights we've had there in the old town."

"The candidates didn't indulge in personalities?"

"None to speak of. The Hon. Jasper Suggs, who was a candidate for mayor, called the Hon. Cicero Filkins, who was his rival candidate, a pillager of widows and orphans, a white-livered skunk and a flop-eared hound, and Filkins told the voters that Suggs was a wolf in sheep's clothing, but will be superior in that it will have masts 1,000 feet high. Other stations will afterward be erected at Harbin, Pekin and Canton. The Shanghai station will be able to maintain communication across the Pacific without relay.

**Try Being Poor.**

"What's the good of wealth?"

"What, indeed? I have four automobiles and the doctor says I must walk to and from the office."—Boston Transcript.

Donkeys and facts are stubborn things.

A man who is well to do is also hard to do.

### Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and assisting Nature in restoring normal conditions. All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

### Progression in China

At no very remote time China will have a very superior radio system. An American company has undertaken the contract for building a station at Shanghai which will be as powerful as that of Bordeaux, but will be superior in that it will have masts 1,000 feet high. Other stations will afterward be erected at Harbin, Pekin and Canton. The Shanghai station will be able to maintain communication across the Pacific without relay.

**No Argument.**

"Do you deny that we are descended from monkeys?"

"If you want to claim that descent, old man, I won't dispute you. Why should I argue with you about about your family tree?"—Louisville Courier-Journal.

Chinamen invented everything before the Caucasians did, including backscratches.

This Boy Began Gardening Operations at Right Time.

winter as possible and give it a heavy coating of horse manure. Leave the ground in the rough, as this will prevent the loss of the valuable ingredients in the manure.

**Gives Early Vegetables.**

Now, what have you gained by that plan? Well, in addition to fertilizing the ground and putting it in better physical condition, this: The garden can be planted earlier in the spring than if it had been left bare or planted to a green crop. And that amounts to a great deal. It amounts, frequently, to having a number of nice vegetables on your table two or three weeks ahead of your neighbor who did not break his garden till spring. Such crops as smooth peas, beets, lettuce and onion sets can be planted as early in the spring as the ground can be worked. If plowing or spading the ground has been deferred till spring, a delay of as much as three weeks is likely to occur after these crops should have been planted—which means, reducing it to money measure, that you will go on buying vegetables for at least that long after you might have been bringing them in nice and fresh from your own garden if you had done a little work in the fall or early winter.

**PUTTING PLOW AWAY IN FALL**

Excellent Plan to Apply Good Coat of Axle Grease and Cover With Thin, Dry Dust.

When you put your plow away for the season, put a good coat of axle grease on the point and moldboard and cover the grease with a good covering of dry dust. This will cause the axle grease to stay where the grease alone would dry out, and will save a lot of scouring when plow time comes.

### Do you know what constitutes a strong constitution?

To have sound, healthy nerves, completely under control, digestive organs that are capable of absorbing a hearty meal, means you have a strong constitution! Your general attitude is one of optimism and energy.

But an irritable disposition, frequent attacks of indigestion, and a languid depression, indicate your system is not in correct working order.

Probably you are not eating the proper food. Probably the nutritious elements are not being supplied to your system in the proper way.

Grape-Nuts is the wholesome, delicious cereal that promotes normal digestion, absorption and elimination, whereby nourishment is accomplished without auto-intoxication. A mixture of energy-giving wheat and malted barley comprise the chief elements of Grape-Nuts. A dish at breakfast or lunch is an excellent, wholesome rule to follow.

You can order Grape-Nuts at any and every hotel, restaurant, and lunch room; on dining cars, on lake boats and steamers; in every good grocery, large and small, in every city, town or village in North America.

**Grape-Nuts—the Body Builder**
