Young Hunter Killed by Older Companion.

Raymond Walters, a fifteen year old youth of Middleburg, Snyder county, was instantly killed Saturday afternoon while hunting. He was with a companion, Harry Renninger, aged seventeen years. While walking thru a field both lads spied a rabbit. Renninger was raising his gun to shoot when the trigger caught in his sweater and the gun was discharged. Walters was fifteen feet in advance. The top of his head was torn away when the full charge struck him.

Cements interests of Mass of Population—Avoiding Sensationalism, in Its Clean Wholesomeness is Its Appeal to Best Class of Citizens—Country Press a National Power.

By **WRIGHT A. PATTERSON.**

The country communities—the village, the small town and the small city—are the backbone of the American nation. They are the communities to which the nation turns in time of distress and emergency. They are even more than the backbone of the nation. They are the bulwark of the modern civilization. Just at the close of the World War, Mr. Balfour, foreign minister of Great Britain, said to the writer in London that the entire civilized world must look to the small towns of America to preserve for the world the civilization that it had taken centuries to build, because the small towns represented a substantial solidity that the tremendous upheaval of the war had not affected, and it was only such a foundation that would preserve the structure of civilization.

The cement that keeps the people of these country communities together, working and thinking along uniformly sane and safe lines, that makes of them that "substantial solidity" on which world civilization can rely for a foundation, is the country press—the village, the small town and the small city newspaper.

Country Paper Wholesome.

The country newspaper goes to its readers devoid of that sensationalism that is so prominent in the metropolitan papers. It carries to its readers the news items that represent the joys and sorrows of their friends and neighbors, and keeps the hearts of the people of the community beating in unison. It goes to its readers with that sane and kindly advice on local, state, national and world problems; advice that is the result of thought and study beside the hearthstones of the nation, and not in the selfish marts of trade or the bright lights of city frivolity. It goes with the influence of a known and respected member of the community—its editor back of its every word, its every opinion. It goes to a people, the people of the country communities and the farms, that are more capable of thinking along sane, unselfish and practical lines than are those who are surrounded by the selfish and many times evil influences of the large cities.

But the influence of the country newspaper goes far beyond the community in which it is printed. National legislators in the halls of congress realize that this influence is a power to be reckoned with. That when the country press speaks in unison on any national subject it is but voicing the sentiments of that mighty force the people of the country communities, the people in whose hands, says Mr. Balfour, rests the destiny of world civilization.

Fights for Entire Country.

The country press represents and fights for those things that are of value to the country communities, realizing that in doing so it is fighting for those things that are best for the nation and for the world. It works and fights to uphold the country community, to prevent its falling a prey to the selfish greed of the cities. It champions the business, the social, the educational, the agricultural, the industrial interests of the country.

CATARRHAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists. Biliousness

WHEN you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. There is nothing better.

Highways and Talkways

The first improved highway in America is said to have been built in this state in 1794 at Downingtown, thirty miles west of Philadelphia. It was the beginning of the good roads movement that has spread from coast to coast.

Good roads are essential to the prosperity and progress of this community. Ribbons of hard surfaced highways must tie it to the great outside world.

In the same manner the men and women of the Bell System—many of them your neighbors—are maintaining "talkways" not alone to the homes and business houses in this community but also to every other community in the State.

Glistening bands of copper stretch from your door to every corner of the State making "talk travel" possible, without regard to season, weather, or road conditions.
