

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten?

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

A Big Reduction.

A certain young man, who was ambitious to shine in the newspaper world, did not last very long on the paper in a Western town that gave him his chance.

Don't Forget Cuticura Talcum When adding to your toilet requisites. An exquisite face, skin, baby and dusting powder and perfume, rendering other perfumes superfluous.

Give Him Time. "Isn't Charley Castleton one of Adele's former husbands?" "Not yet."—Life.

INVENTORY AIDS FARM BUSINESS

Assists Farmer to Determine Whether His Operations Are Profitable or Not.

MAKE LIST WHEN CONVENIENT

Go Over Farm Carefully and Note Each Item as Found So Nothing May Be Missed—Classify and Appraise at Same Time.

Farming is a business, and like other business men the farmer should know which way he is going financially. To drift along year after year not knowing whether he is going toward success or failure is not the practice of successful business men.

To gauge progress by an increase in cash in hand or to measure loss by additional debts incurred without taking into account decreases or increases in the value of all property owned, often leads to false conclusions.

Make Inventory When Convenient. There is no best time of the year to make an inventory for everybody and under all circumstances. Each one must decide for himself the date most convenient.

Although any day will do, it is generally found best to select the first day of some month, and a fairly good guide in any section will be the date upon which tenants customarily change farms.

MAKE DEFINITE PLAN OF GARDEN ON PAPER

First Get Exact Dimensions of Available Land.

Ascertain Which Spots Will Be Best to Certain Crops Requiring Sunshine—Run Rows North and South.

A definite plan for the garden should be drawn on paper before any planting is done, suggest garden specialists of the United States Department of Agriculture. First determine the exact dimensions of the available land; then ascertain which parts of the garden will be best adapted to certain crops.

In planning the garden it should be borne in mind that certain crops, such as lettuce, radishes, and early beets, can frequently be grown in the same rows with other crops and be removed before the main crop attains sufficient size to require the entire space.

Setting Out Plants Started in Hotbed.

small amount of space if grouped together. The taller growing crops, such as pole beans, tomatoes trained to stakes, and sweet corn, should be planted at one side of the garden where they will not shade the smaller crops.

It is generally conceded that the rows should run north and south; however, it is more important to arrange the rows for convenience of cultivation than for exposure to the sunshine.

Due consideration should be given to both companion and succession cropping. By companion cropping, the plan of planting two or more crops together and removing those that mature first is followed.

COST OF MILK PRODUCTION

Dairymen Should Be Interested in Knowing How Much Feed and Labor Are Required.

Dairymen throughout the country should be interested to know how many pounds of grain, hay and silage, and how many hours of labor it takes to produce 100 pounds of milk in the different sections of the United States.

The results are shown for southeastern Louisiana in department bulletin 955. The figures for northwestern Indiana are contained in department bulletin 858; North Carolina and western Washington in department bulletin 919; and for Vermont in department bulletin 923, which may be purchased from the superintendent of documents, Washington, D. C., at five cents the copy.

AVERAGE PASTURE FOR PIGS

From Fifteen to Twenty Is Recommended by Iowa Station—More Will Spoil the Grass.

Fifteen to twenty pigs, weighing about 100 pounds each, will be all the average pasture can stand. More than this number is liable to spoil the pasture and the danger from spreading disease is increased, says the animal husbandry department at Iowa State college.

HIS GOOD BUSINESS SENSE CATS FOLLOW FISH DEALER

Easy to See That This Restaurant Proprietor Will Succeed in His Line of Trade.

First Guest—Hi, waiter, open that window, please. I can't stand this heat. Waiter—Directly, sir. (Opens the window.) Second Guest (a little later)—Waiter! there's draught enough to give one a death of cold. Do shut the window. Waiter—Yes, sir. (Shuts the window.)

Animals of Sheephead Bay Regularly Take the Trail of the Peddler of Sea Food.

Like the piper, the Sheephead Bay fish dealer has a following of cats as he pushes his cart through the residence section on Friday morning, says the New York Sun. The cats for blocks away hear his shrill cry of "Fresh fish!" or perhaps smell his cargo and come sly through the streets for a chance at a delectable bit of sea food.

First Guest—Walter, are you mad? Why have you closed the window? Open it again at once. Waiter—Very good, sir. (Goes to proprietor.) Sir, one of the gentlemen wants the window open and the other wants me to shut it. What am I to do? Proprietor—Do what the gentleman says who hasn't dined yet.—Pearson's Weekly.

Too Much to Expect. A man took a house which proved to be of the Jerry-built order of architecture, so much so that one day the rain came through the roof and swamped the place.

When the landlord called for his rent the tenant exclaimed, indignantly: "I say, it is too bad; the other night the rain came through the roof and gave me a regular shower bath. You really ought to do something." "Ought to do something!" growled the landlord. "Do you expect me to provide you with soap and towels, too?"

His Reply. Lavinsky—"Which is the biggest diamond in the world?" Skivinsky—"The Cohen-noor, of course."

An authority states that a ton of diamonds is worth \$350,000,000. Remember this and don't pay a cent more.

Poverty often pinches the body and wealth sometimes pinches the soul.

One who predicts thunderstorms isn't necessarily a lightning calculator.

Altered His Mind. "I say," roared the irate citizen, as he bounced into the office of the village weekly, "where's the editor?" "Want to see him personally?" queried the office boy.

"Of course I do," answered the L. C. "I'm going to thrash him within an inch of his life. See?" "Oh, all right," answered the boy. "Just take a seat, please. There are three others ahead of you. If you watch you'll see 'em chucked through the window one by one. When the third comes down, you can go up."

Life's Tragic Moments. When you work in a small office, AS WE DO, And think the boss has left the office, AS WE DID, And begin talking about the "night before," AS WE WERE, And then find the boss is standing in a corner listening to the conversation AS HE WAS, DO TELL US. —Detroit News.

The County Agent Explains the Simplicity of Making a Farm Inventory.

must be estimated and appraised. The financial property has a face value, which under any conditions ordinarily met with on the farm needs no appraisal. The physical property may be grouped under the following heads: Land, buildings, other permanent improvements, work stock, cattle, swine, sheep, poultry, machinery and tools, farm produce, farm supplies, growing crops. The financial items include cash on hand, cash in bank, accounts receivable, and notes receivable. By receivable is meant debts owing to the farm.

Don't Overlook Debts Owed. In no case should a list of liabilities—bills and accounts owed by the farm—be omitted from the inventory. Liabilities are an offset to the resources. When all the items with their valuations have been entered the work is finished by summing up the valuations. This is best done by adding each page separately and carrying the totals to the last page where they may be conveniently added to attain a grand total. The liabilities are summed up in the same manner. When the sum of the liabilities is subtracted from that of the resources the remainder is the net or present worth.

"Those Who Dance Must Pay The Fiddler" There's a settlement in profit or loss, for nearly every indulgence. Sometimes the ppy day is long deferred, and in that case the settlement may bear compound interest. Often a payment in ill health is required for the dance had with tea or coffee during earlier years. Sometimes the collection comes in sleeplessness, sometimes in headaches, sometimes in high blood pressure, or in nervous indigestion—sometimes in all these penalties. Nerves won't always stand the whipping of tea and coffee's drug, caffeine. If you've been dancing to tea or coffee's fiddling, why keep on till payment time comes? If you're beginning to pay, now, why not cancel the contract? There's an easy and pleasant way to avoid tea and coffee's penalties, as thousands have found who have changed to Postum. It is a delight with any meal—rich, comforting and satisfying—and it never harms. Even the little children can have a breakfast cup of Postum, with no fear for what may happen to sensitive nerves. Instead of paying penalties for your meal-time drink, let it pay benefits to you, by giving natural health a full chance—and begin the new arrangement today. Any grocer will sell you, or any good restaurant will serve you Postum. Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Postum for Health "There's a Reason"
