## WILL JACK DEMPSEY MANAGE NEXT HEAVYWEIGHT CHAMPION PUGILIST

Evidently Jack Dempsey is getting tired of waiting for some heavyweight to come along and take the championship away from him, and rumor has it that he is quietly training a young western athlete to take on all the heavyweight aspirants so as to save the trouble. Dempsey has devoted considerable time to sparring with Ralph Smith, who is only twenty-one years old and six feet seven inches tall. Smith is the champion heavyweight of the Los Angeles Athletic club and all the members of that club are wild over him.

The photograph shows Dempsey and Ralph Smith in fighting poses during one of their sparring matches in Los Angeles, recently.

## INTERESTING SPORT NOTES

**Billy Sullivan Had Worries of His Own**  
Billy Sullivan, famous catcher, a few years back acted as manager of the Cleveland Sox second team on a spring trip, and had with him a bunch of young pitchers who were as wild as hatters. They played a series at the Los Angeles park, and in three of the first four games the Angels picked the seventh inning for scoring a cluster of six runs. It got so that everybody had to laugh and wait, with expectation, for the seventh round.

In these games Lena Blackburn, who was on shortstop, several times yelled down to Sullivan to throw the ball, because he had a swell opening to catch a runner flat-footed on the base.

Afterward Blackburn asked Sullivan why he hadn't noticed his sign to throw the ball. "I have enough trouble keeping these wild pitches in the ball park without watching the bases," replied the catcher.

**The New York Nationals have sold outfielder Joseph G. Connolly, bought from San Antonio last fall, to the Little Rock club of the Southern league.**

**Ban Johnson says baseball must be prepared for several lean years and this announcement got Ban's picture into the papers instead of Connie Mack's.**

**Roy Thomas, acting scout for the St. Louis Cardinals, has signed a catcher named Ralph Ralston, who comes from the Independent ranks around Philadelphia.**

**The National league clubs, in filling their 1922 schedule assignments, will travel 89,525 miles. The maximum number of miles for any club is 13,754, which falls to Pittsburgh.**

**To judge from the salaries asked by some of these professional ball-players, one reason the baseball magnates want Judge Landis may be to slap on a few \$20,000,000 fines.**

**It has been decided that baseball shall not be included among the sports at the Olympic games in France. We won't kick—it wouldn't be much sport to play baseball with other countries.**

## Low Curved Ball Is Worry to Babe Ruth

Southpaws make more trouble for Babe Ruth than right-handers, despite the fact that Babe has made a great many home runs off the portlanders. A low curve ball on the outside is Babe's worst enemy. Most of the Giants used such a type ball in the world series and in one game struck Ruth out three times.

Because of his peculiar stance at the plate, it is very difficult for Ruth to hit a low curve ball outside. It is the curve ball inside, whether low or high, that Ruth murders.

A pitcher who has a change of pace and can slow up on Ruth, also is troublesome to the big fellow whether he is left or right-handed. Shocker of St. Louis and Kerr of Chicago are such a type. While Ruth gets his home runs off the deliveries of these two pitchers, they more often make him look foolish.

## HOGAN SAVED \$2 AT EXPENSE OF UMPIRE

Former Pacific Coast Player Tells Amusing Story.

Arbiter With Only Three Fingers on Hand Couldn't Make \$5 Fine Stand—President of League Overrules His Ump.

George Hildebrand, the American league umpire, is sponsor for the following story:

Before coming to the American league Hildebrand played, then umpired in the Pacific Coast league.

In that league was the late Hap Hogan, who, in his day, was to the coast league fans what Nick Altrock is to the big league circuit.

Hogan was nothing, if not original.

On the coast they still talk of some of the stunts that he pulled at the expense of players, fans and umpires. Hildebrand's story deals with an umpire.

In those days it was customary for the umpires to fine the players for various offenses. Often in assessing the fine it was a habit with most umpires, if the fine was \$5, to raise his hand and say, "It will just cost you that much."

Working with Hildebrand in a certain game was an umpire who had only three fingers on his right hand. Hogan got into an argument with this umpire. The umpire finally decided he wanted to fine Hogan \$5, but he merely raised the hand containing the three fingers and said, "It will cost you that much."

Hogan neglected to pay the fine, hoping the umpire would forget it. The "ump" didn't, and the president advised Hogan he should pay it immediately if he desired to continue playing.

Hogan immediately sent a check for \$3. On its receipt the president suspended him. Hogan refused to pay the other \$2. As manager of the club he refused to put his team on the field.

The president of the league was gotten on the telephone, the conditions of the fine explained, and the president ruled in favor of Hogan.

**ATHLETIC YOUNG ENGINEERS**

University of Nebraska Is Exception to Rule—Grid Stars Are Technical Students.

It seems to be the general impression at many universities that engineering students are outsiders as far as athletics go. Difficult scholastic schedules and plenty of demands on the midnight oil are counted upon to keep the "tech" youngsters busy enough without giving them any opportunity to enter varsity sport competition. The University of Nebraska is a big exception to the rule. Wheeler, Nixon, House and McGlasson, four of the gridiron regulars who brought the Missouri Valley Conference football title back to the Cornhusk campus, and Bowman, who bore the winged "N" to victory in every cross-country meet staged by Nebraska this year, are students at the university's engineering school.
