Proposed Building at State.

Two large properties at State College, the Busy Bee Cafe and the Dr. Grover Glenn property, have been optioned by Messrs. Houtz and Chase, who are planning to finance and erect a large brick and steel building, with a frontage of 111 feet and a depth of 150 feet, six stories high. The location is considered the best in the town of State College. The basement of the building will have a 50 by 150 foot storage garage, and will also contain a bowling alley 50 by 100 feet. Laundry rooms will also be furnished in the basement for persons occupying the apartments. The first floor and half of the second will be used as a store room, the other half of the second floor will be used as office apartments. The remaining floors will be devoted to living quarters, consisting of 100 modern apartments.

Forest Fires in Centre County.

On Monday of last week, one of the worst forest fires in Centre county broke out on the Huyett-McNitt timber cutting operation between Hecla and Zion. Owing to the extremely dry windy weather, and the dangerous condition of the chopping, the fire spread over two hundred acres before it was stopped. Fire wardens Bartley, Albright and Kessinger had a hard fight to keep the fire from spreading to other timber land in the vicinity. Much game was destroyed as well as a good many nests. This is the nesting season for the forest birds and animals, and a good many perished in the flames. The total forest damage will amount to \$750.00. This includes old timber and young trees just starting out. The actual damage cannot be estimated, because no man can give the actual value of a pheasant, squirrel, turkey, or rabbit. No man can tell just how many nests or young birds were burned up. No man can estimate the number of tree seeds which were burned up and which might have grown into the good old-fashioned kind of forests of long ago.

Just as long as people are careless in burning brush, as in this instance, just so long will the people of Pennsylvania be compelled to pay good hard earned money for increased taxes for fighting fires, for importing lumber into the state to take the place of that which is burned; to pay the freight on this lumber that is imported. Pennsylvania pays twenty-five million dollars in freight alone on lumber imported into this state. Keep the fires out of our forests and we will be balancing our books on the right side of the ledger.

Over ninety per cent of our forest fires are due to carelessness. People who burn brush on dry, windy days, such as we are having now, must expect to have forest fires and must also expect to pay for their neglect in letting them escape to the lands of others. Anyone wishing to burn brush should notify the nearest fire-warden so that steps may be taken to prevent the escape of fire from lands on which they are started.—W. J. Bartschat, District Forester, Millroy, Pa. (Penn State Forest.)

CATARRHAL DEAFNESS is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists.
