

HOW TWO WOMEN ESCAPED OPERATIONS

Doctor Advised Use of Lydia E. Pinkham's Vegetable Compound

Happy Results in Both Cases

St. Joseph, Missouri.—"Both of my sides swelled and hurt me so that I could not move or do any of my work. There was heavy pressure and pains through my lower organs and the doctor told me to try Lydia E. Pinkham's Vegetable Compound for these troubles. He said I had this one chance, and if the Vegetable Compound did not help me nothing but an operation would. After taking several bottles I felt it was helping me and now I am able to do my own work. If my testimonial will help others I shall be glad for them to read it and hope your Vegetable Compound will do them as much good as it did me."—Mrs. WM. LOCKMAN, 513 N. 4th St., St. Joseph, Mo.

White Plains, N. Y.—"I had such a pain that I could hardly walk and the doctor said that I needed an operation. I was sick for a year before I started taking your medicine and I could not work. I saw your advertisement in a little book and that is how I came to take Lydia E. Pinkham's medicine. I have been taking the Vegetable Compound and Lydia E.

Pinkham's Blood Medicine, also Lydia E. Pinkham's Liver Pills and Wash and the capsules and prescription recommended. I am doing all my work and have gained twenty pounds. I am taking the medicines still, but I feel fine. You have my permission to use this letter for the good of others."—Mrs. MARY MARK, 37 Hamilton Ave., White Plains, N. Y.

Some female troubles may through neglect reach a stage when an operation is necessary. But most of the commoner ailments are not the surgical ones; they are not caused by serious displacements, tumors, or growths, although the symptoms may appear the same.

When disturbing ailments first appear, take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. Many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lame, Perhaps. Blobb—There is always room at the top. Neville—Yes, but the majority of people are always waiting for a lift to take them up.—Answers.

Letting Him In. "Well, well, young gentlemen!" exclaimed the affable old person. "I'd give a great deal to be able to join in your sport."

"Stick around, grandpop," said one sturdy youngster. "If we knock this ball through somebody's window we'll let you go for it."—Birmingham Age-Herald.

The Dear Departed. Host—This saute has grown quite cold. Hostess—It's a posthumous dish, dear. The cook has just left.—Life.

It takes a wise man to know the difference between opportunity and a gambler's chance.

"I should like to subscribe to your campaign fund," remarked Mr. Dustin Stax.

"I couldn't permit such a thing," replied Senator Sorghum. "My sense of fairness would not tolerate the thought. The last time you subscribed you put in only \$10,000 and you took down about a hundred thousand dollars' worth of personal prestige and general publicity for your business."

Working Toward It. "Is your boy making himself useful on the farm since he got out of college?"

"Not yet," said Mr. Cobbles, "but I've painted the tractor a bright red, put a big horn on it, and hung a license tag at the rear, and I'm hoping that after a while I'll be able to persuade Sam to drive it occasionally instead of a sport car."

Ah, if Mothers Only Could. Mrs. H. V. G. sends us the following original and somewhat touching query by her little son, aged five. Climbing into her lap the other evening, he said, "Mummy, when I get old, will I die?" "Why, yes, dear." "Well, mummy, won't you please keep me new?"

No Secrecy. "Do you think there are any diplomatic secrets?" "My friends," replied Senator Sorghum, "if you had been around executive sessions and other confidential gatherings as much as I have you'd know the number of hours until the next edition of a newspaper is the time limit for any kind of a secret."

Still Climbing. "Do you regard the Frisbers as socially superior?" "No," said Mr. Grumpson. "Why not?" "I'll illustrate by a figure of speech. If the peak of society were 20,000 feet above sea level the Frisbers would be about 12,000 feet up and short of breath."

Lecturer—Allow me before I close to repeat the words of the immortal Webster. Farmer Wayback—Land sakes, Marie, let's get out o' here. He's a-goin, ter start in on the dictionary.

Willing to Risk It. "If you eat another piece of cake, 'You'll surely burst," said mother. "Then pass the cake and clear the way," Responded little brother.

Wisdom. Teacher—Which one of the five senses, sight, feeling, hearing, taste or smell, could you get along best without? Small Boy—Feeling, because when you get in an accident you won't get hurt.

Explained. "Fifty dollars for six photographs?" "That's what I paid." "What does the work come in to justify such prices?" "Well, they look like you and then they don't look like you. That's where the \$50 comes in."

The Old Remedy. "Mrs. Symes has had to take her daughter abroad for her nerves. She inherited her nervousness from her father." "Where did Symes' mother take him for his nerves?" "Across her knee."

Fahrenheit or Centigrade. Bin—I hear old Joe Goofus passed away last night. Bam—Yeh, the poor fellow swallowed a thermometer and died by degrees.—Science and Invention.

Too Complicated. "Never ask a girl for the makings." "Why not?" "Too careless. Get their tobacco all mixed up with face powder and lip rouge."

No Money Value. "Is your son profiting by his college education?" "Well," said Mr. Cobbles, "he has learned how to wear fancy clothes and do the needful when a jazz orchestra starts to play, but so far as I know he's never been able to cash in on his accomplishments."

Then He Flew. Old Gruff—I understand my daughter is determined to marry you. I want to say right here that she's a fool. Sulfur—Ah! Hereditary, I suppose.

Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupefy the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician.
