

WOULD ADD UNIVERSITY TO PENN STATE'S TITLE

Agriculturists Believe Work Being Done by College Should Be Recognized.—Say Equipment is Inadequate.

Indorsement of the proposal to change the name of The Pennsylvania State College to the Pennsylvania State University, in recognition of its size and scope of instruction, was given Friday afternoon by 100 representatives of Pennsylvania's agricultural industries at the closing session of a conference held at that institution to study the facilities of the School of Agriculture and the Experiment Station for investigating current problems of production. The proposal to change the name is part of the plan of President Thomas and the board of trustees to develop the institution to the point where it will adequately meet the higher educational needs of the Commonwealth.

The conference also adopted resolutions indorsing the principle of special taxation for the college to insure permanent financial resources for a continuation of its work, particularly the task of studying the everyday problems of the various industries and offering solutions for them. Action of the conference followed an exhaustive consideration of the equipment of the college compared with its needs and the value of the work it has been doing. Eleven subcommittees submitted reports and each found inadequate buildings, equipment and personnel for the proper carrying out of a program of research and experiment necessary if the problems of the Pennsylvania farmers are to be solved.

Dr. Leonard P. Fox, chairman of the Bureau of Research of the State Chamber of Commerce, presided at the opening session of the conference, at which President Thomas and Secretary of Agriculture Rasmussen spoke. The conference organized a permanent committee to work for achievement of the program deemed necessary for the college.

The semi-centennial celebration of the Junior Oratoricals took place at the college on Saturday night, and the first honors were awarded to George L. Ely, of Jennette, whose subject was "The Road to National Honor." Winners of previous contests were invited to act as judges this year, the presiding officer being Judge Ellis L. Orvis, of Bellefonte, the oldest living winner of the prize. Honorable mention in the contest went to Miss Florence King of Bethlehem, who spoke on "The New Sphere of Woman in Public Life."

Vault Door Placed.

The vault door for the First National Bank arrived Friday and on Saturday was unloaded and hauled to the bank's vault and put in place the beginning of the week. The door, weighing five and one-half tons, was loaded onto a wagon constructed for hauling boilers, etc., owned by the Bilgers, of Pleasant Gap, to which was hitched Shannon Boozler's Republic truck, and thus easily conveyed to the front of the Reporter building. A framework of railroad ties was then built up from the wagon to a large window in the quarters being prepared for the bank, and through this window with no little difficulty the massive door was pulled with rope and tackle.

The door is the product of the York Safe & Lock Co. and was placed in position by S. P. Rose, a representative of the manufacturers. It is known as an eight-inch rectangular burglar-proof door, having time lock and double combination locks. The parts visible are nickel and polished steel. A steel day gate was also placed in position. The outfit is entirely modern in every way and is similar to that installed in the Watsonville Farmers' National Bank.

COUNTY CONSERVATION FEDERATION

To Be Organized at Boalsburg on June 22nd by State Conservation Council.

There will be organized at Boalsburg, June 22nd, at 2 p. m., at the time of the meeting of the Centre County Conservation Association a County Conservation Federation, to be composed of representatives from all organizations in the county interested in conservation. Each organization is asked to send a representative to the meeting. A representative to the State Conservation Council will be elected, and a plan for organizing the Federation determined. Every hunting and fishing club, bird club, wild flower club, and other organizations in the county should be represented.

The State Conservation Council was organized March 30, 1922, at State College, by twenty-one State-wide and thirteen county organizations. Each county is entitled to one representative on this council.—J. A. Ferguson, Secretary of the State Conservation Council.

Mrs. Simon P. King, of Millheim, was a patient in the Geisinger hospital, Danville.

Bad Colds QUICKLY CURED

"Last winter I caught a cold that settled on my lungs and in my bronchial tubes. Two bottles of

CHAMBERLAIN'S Cough Remedy

cured me," writes Mrs. Charles Harrold, Vandergrift, Pa.

20,994 MILES AND TREAD ONLY 1/3 WORN

MOST MILES per DOLLAR
Firestone CORD TIRES

The tire section above at the left shows the condition of a Firestone 33x4 1/2 Cord Tire after 20,994 miles on a Yellow Cab in Chicago.

The section at the right was cut from a new Cord of the same size. Careful measurements show that only 1/3 of the tread of the tire on the Yellow Cab has been worn away after this long, grueling test. The carcass is intact after more than 11,000,000 revolutions.

Firestone Cords have averaged over 10,000 miles on Chicago Yellow Cabs (1,200 cabs all Firestone equipped). In thousands of instances, they have given from 18,000 to 30,000 miles.

Look at the tread—scientifically angled against skid, massive and heavy in the center where the wear comes, tapered at the edges to make steering easy and to protect the carcass against destructive hinging action of high tread edges. The carcass is air bag expanded to insure uniform tension and paralleling of every individual cord. It is double "gum dipped" to make sure that each cord is thoroughly insulated with rubber.

This is the reason why Firestone Cords unfailingly deliver extraordinary mileage. It explains the unanimous demand of thoughtful tire buyers for these values. The local Firestone dealer will continue to provide the personal service that makes Firestone tire comfort and economy complete.

CATARRHAL DEAFNESS
is greatly relieved by constitutional treatment. HALL'S CATARRHAL MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRHAL MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.
