## Clear Your Complexion with This Old Reliable Remedy—HANCOCK SULPHUR COMPOUND

For pimples, black-heads, freckles, blotches, and tan, as well as for more serious face, scalp and body eruptions, hives, eczema, etc., use this scientific compound of sulphur. As a lotion, it soothes and heals; taken internally, a few drops in a glass of water—it gets at the root of the trouble and purifies the blood. Physicians agree that sulphur is one of the most effective blood purifiers known. Remember, a good complexion isn't skin deep—it's health deep.  
Be sure to ask for HANCOCK SULPHUR COMPOUND. It has been used with satisfactory results for over 25 years.  
60¢ and \$1.20 the bottle  
At your druggist's. If he can't supply you, send his name and the price in stamps and we will send you a bottle free.  
HANCOCK LIQUID SULPHUR COMPANY  
Baltimore, Md.  
Hancock Sulphur Compound Ointment—25¢ and 50¢—same as with the Liquid Compound.

Short breathing relieved in a few hours; swelling reduced in a few days; regulates the liver, kidneys, stomach and heart; purifies the blood, strengthens the entire system. Write for Free Trial Treatment. COLLUM RHEUMATISM CO., Dept. B.O., ATLANTA, GA.

## Euphony.

In an English class in an evening school in Boston the teacher asked for a definition of "euphony." An acceptable definition was given, and an example asked for. Here is the example:  
"The man is a prevaricator."  
"Do you think that statement illustrates the meaning of euphony?" asked the teacher.  
"Yes, indeed. It has a much more pleasing sound than to say, 'The man is a liar.'"—Judge.

## Freshen a Heavy Skin

With the antiseptic, fascinating Cuticura Talcum Powder, an exquisitely scented, economical face, skin, baby and dusting powder and perfume. Renders other perfumes superfluous. One of the Cuticura Toilet Trio (Soap, Ointment, Talcum).—Advertisement.

## CONCRETE KEEPS OUT MANY PESTS

Rats and Mice Destroy Crops and Property Valued at Millions Each Year.

## PLAN TO STARVE THEM OUT

This is Best Done by Building Rat-Proof Buildings or Re-arranging Old Structures—Cut Off Their Supply of Food.

(By W. G. KAISER, Agricultural Engineer.)

Since the time when the Pied Piper of Hamelin destroyed the rats, no other such satisfactory method of ridding farms of these pests has been found. The best way is to starve them out.

Fig. 1—How an Old Foundation May Be Ratproofed and a Concrete Floor Installed.

and this can only be done by building ratproof buildings or ratproofing such structures as are already built. The United States Department of Agriculture says that rats and mice destroy crops and property valued at more than \$200,000,000 yearly. They carry bubonic plague and other fatal diseases. One pair of rats at the end of three years will be the ancestors of 18 generations amounting to 350,700,482 individuals.

### Plan for Foundations.

In the three illustrations I have shown how to build foundations and floors ratproof; how to build a false foundation alongside an old foundation and floor it to keep rats from working through and how to ratproof a wooden building.

Lumber piles and other miscellaneous structures form a living place for rats which should be eliminated. Lum-

Fig. 2—Showing a Good Method of Making Foundation and Floor of a New Building Ratproof.

ber piles should be elevated at least 18 inches from the ground, board walks should be replaced by concrete and garbage should be kept in concrete or metal containers having tight-fitting tops. There should not be a scrap of food left where rats can get it.  
**Concrete Mixture.**  
For foundation work such as I have mentioned a 1-2½-4 mixture of concrete is recommended. This means one sack of portland cement to 2½ cubic feet of sand and 4 cubic feet of pebbles or broken stone. As is absolutely necessary in all concrete work, the sand and pebbles should be free from loam and trash and the water used should be fit for drinking purposes.

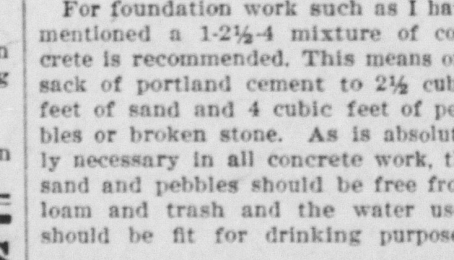

Fig. 3—Buildings Supported on Piers Are Ratproofed by Raising Above Ground Level and Placing Concrete Between Walls Above Sills.

Only enough water should be added to make the mixture of a quaky and jelly-like consistency. Floors of concrete should not be less than 4 inches thick. They may either be placed directly on the ground or on a cinder base, but always be sure the soil is well drained. For floors, a concrete mixture of one sack of portland cement, 2 cubic feet of sand and 3 cubic feet of gravel or stone is recommended.

Along with ratproof buildings, start a campaign for killing rats. If the ground is undermined with holes, it is possible to drive them into the open or to suffocate them by connecting the system of holes with the exhaust pipe of an automobile.

## OPPORTUNITIES FOR KEEPING HONEY BEE

Nectar Going to Waste in Tulip-Tree Regions.

No Question but That Area May Furnish Many Times More Product Than at Present—Bulletin Discusses Methods.

(Prepared by the United States Department of Agriculture.)

With the tons and tons of nectar going to waste every year in the tulip-tree region of the United States because the colonies of bees are not strong enough to get the full amount of surplus, there is no question that this area may furnish many times more honey than it does at present. This opinion is expressed by the United States Department of Agriculture in Farmers' Bulletin 1222, "Beekeeping in the Tulip-Tree Region," prepared by E. F. Phillips and George S. Demuth, and now available for distribution.

The tulip tree is occasionally found as far north as Vermont and Rhode Island, and west to Michigan, Arkansas and Louisiana. On the outer limits of its distribution it is not abundant. It is more plentiful on the south shore of Lake Erie and rare west of the Mississippi river, except in northeastern Arkansas and southeastern Missouri. The trees are more abundant and larger in the southern part of its range, especially in Tennessee, Kentucky, the western part of the Carolinas, and in the Ohio river basin. It is common throughout the Piedmont plateau of Maryland and Virginia.

That this honey can be marketed at a profit is attested by the fact that this section now sends to outside re-

Modern Homes for Bees.

gions for part of its honey supply. There is not the local prejudice to dark honey which exists in the clover region and in the West. All these factors taken together make the region one of promise. The enormous number of colonies of bees in this region is pointed to as proof of the great nectar resources, and if these colonies are given proper care vast quantities of honey can be produced.

The abandonment of the "gums" and box-hives and the adoption of modern equipment, together with practices more suited to the region, is advised. The region, it is said, needs more men engaged in beekeeping on a commercial scale as a chief or only occupation. The peculiarities of the region, however, are such as to demand a close study of the business. Careless beekeeping, it is pointed out, is entirely unprofitable, especially in places where the main honey flow comes so soon after the last killing frost of the spring.

Copies of the bulletin, which discusses methods for carrying on the business successfully, may be had free by writing to the Department of Agriculture, Washington, D. C.

## LAYING HENS IN FARM FLOCK

Most Efficient Number is Between 150 and 500, Say Ohio Poultry Experts.

At least 150 laying hens should constitute the farm flock, say poultry experts at the Ohio experiment station. The most efficient flock is between 150 and 500. The flock containing fewer than 150 hens is not efficient, while flocks of more than 500, though perhaps too large for the general farmer, may be better adapted to those specializing fruit and poultry farms.

## PROPER FERTILIZER TO BUY

Most Economical Material is That Containing Highest Percentage of Plant Food.

The most economical fertilizer to buy is the one containing the highest percentage of the plant food needed. It will cost more per ton, but may be used at a lower rate per acre because it does not contain so much useless material.

## CARING FOR TOMATO PLANTS

Four or Five-Foot Stake Should Be Driven Alongside Each Vine When Soil is Soft.

Secure a four or five foot stake for each tomato plant and be ready so the stakes can be driven down by each plant when the ground is soft. If the tomatoes are to be trellised similar to grapes, secure posts and two wires for each row.

## SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound. Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

A man says, "I will do better tomorrow," and when tomorrow comes he does just about the same.

Most of the experience that a man gets comes too late.

## LADIES CAN WEAR SHOES

Established a Record.  
An Irishman, who was to return to his native land by a certain steamer, arrived on the pier just as the vessel was starting—in fact, she was already on the move.

Taking a flying leap, he covered the intervening space of six or eight feet at a bound, but tripped on alighting and hit his head, temporarily stunning himself.

When he recovered his senses, the vessel was a couple of hundred yards out at sea.  
"Be jabbers!" he exclaimed, not realizing what had happened, "what a jump!"

Limited Audience.  
"I'll tell the world!"  
"That's a poor expression. You'll never have much of an audience."

## No Soap Better For Your Skin Than Cuticura

Soap 25c, Ointment 25c and 50c, Talcum 25c.

## Gray Hair

Is not of fashion is unnecessary—  
for you can have abundant hair by using Q-Ran Hair Color Restorer—safe as water—try it. At all good druggists. 75 cents, or direct from MESSING-ELLS, Chemist, Memphis, Tenn.

Too Optimistic.  
"I like optimists. They are good men to follow."  
"Not always at the races."

We Hope Not.  
"He drinks like a fish."  
"Gosh. I hope a fish doesn't drink bootleg."—Louisville Courier-Journal.

## Baby Specialists.

THAT there are Physicians who specialize on Infant ailments you know. All Physicians understand Infant troubles: all Physicians treat them. It is his profession, his duty, to know human ills from the Stork to the Great Beyond.

But in serious cases he calls in the Specialist. Why? He knows as every Mother knows, or ought to know, that Baby is just a baby, needing special treatment, special remedies.

Can a Mother be less thoughtful? Can a Mother try to relieve Baby with a remedy that she would use for herself? Ask yourself; and answer honestly!

Always remember that Baby is just a baby. And remembering this you will remember that Fletcher's Castoria is made especially for Infants and Children.

## Children Cry For Fletcher's CASTORIA

Exact Copy of Wrapper.

The False and the True.  
Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in your home, perhaps, many articles that today have been discarded, as you will readily admit. Do you recall anything that has more modestly appealed to the public than has Fletcher's Castoria: modest in all its claims, pleading at all times—and truthfully—for our babies?  
The big splurge, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.  
Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little-one.  
To them: to these true mothers no argument can induce them to set aside their bottle of Castoria, their old friend, that they might try even another and unknown remedy for babies. Then, would YOU think of going to YOUR OWN medicine chest to find relief for Baby's troubles? Can you not separate the false from the true?  
MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

## GENUINE CASTORIA ALWAYS Bears the Signature of

## Putnam Fadeless Dyes

10c per Package WHY PAY MORE FOR ANY DYE?

## ATLAS PORTLAND CEMENT

PROBABLY the first place you ever noticed concrete was in concrete sidewalks. This was only about twenty-five years ago. Today hardly any other kind is built.

Concrete has proved its economy, its suitability, its permanence. Even though most of those first walks were built before concrete construction was properly understood, some of them are still giving good service.  
Today your dealer is able to give you the same cement that has stood the test of over twenty-five years' use on all types of work. For more than a quarter century Atlas Portland Cement has been the standard by which all other makes are measured.

## THE ATLAS PORTLAND CEMENT COMPANY

Sales Offices: New York—Boston—Philadelphia  
Hills—Northampton, Pa.—Hudson, N.Y.—Leeds, Ala.

## Wanted Ginseng Spotters

We need a wide-awake representative in your county and adjoining counties to tell us of crops of Ginseng that are for sale. We will buy any crop, give highest price, and pay you handsome commission for "spotting" it. A rare opportunity to earn money without investing a cent or carrying samples. We are the biggest Ginseng buyers in the country. We handled one-third of all Ginseng raised last year, and can sell ten times as much this year. Business liberal cash commission for spotting the Ginseng. We offer three big cash prizes. Write today for full particulars how to become one of our Ginseng Spotters. Just say "Send details," giving your name and address, and we will write you fully.

## New World Ginseng Co.

159-163 W. 25th Street New York City
