**INTERNATIONAL PEACE.**

Having by its agitation and by electing to Congress one man, Charles H. Randall, accomplished its first two objects, Prohibition and Woman Suffrage, the Prohibition party now champions International and Industrial Peace. It wants Prohibition of Warfare with other countries and among ourselves at home, Peace on Earth, Good Will to Men.

If elected to Congress, I'll advocate Peace with all the World.

I believe that if we had entered the League of Nations, we could have corrected its defects, just as the U. S. Constitution has been beneficially amended 19 times. Our sacrifice of blood and treasure, of mothers' tears and wives' heartaches in the War to End War would not have been in vain. But such matters are for the Senate. Our party offers for the U. S. Senate, Rachel C. Robinson, a wife and mother, against a major and a colonel.

If elected to the House of Representatives, I shall favor elimination as far as possible of all taxes for Army and Navy.

Light taxes will attract foreign capital and employ our own. Immigration laws should be amended to encourage home-builders. Aid for mothers and children would increase our American population. Increased numbers of contented, healthy citizens are more powerful than armies and navies.

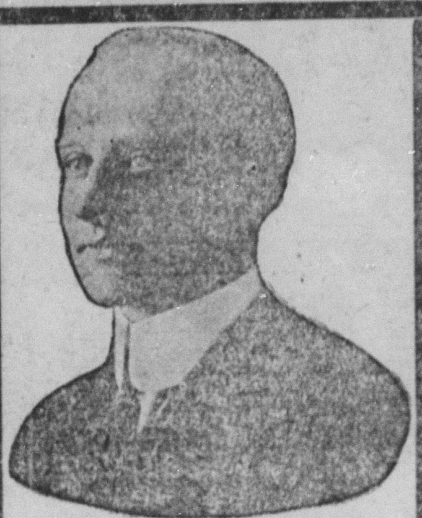

See my article on Government Work for Hard Times. Also on Laborer's Plight.

Independent of either Republican or Democratic caucus, I may be able to promote measures which neither of them will be sponsor for.

I'll write next on Industrial Peace. Write, sending self-addressed envelope to

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. **WHEN the One-Room School House Gives Place to the Consolidated School, Is Proper Attention Given to Pupil Transportation?**

The old-time one-room school house brought the school to the children. The new-time Consolidated Rural School calls for bringing the children to the school. That's how vital it is that proper consideration be given to the factor of pupil transportation.

MOTORIZED TRANSPORTATION of pupils is the biggest incentive towards rural school consolidation. Without it the consolidated school could not be a 100 per cent. success.

—THE—  
**Reo-Wayne School Wagon**

Prices reasonable.
