Miss Miriam Huyett, daughter of Mr. and Mrs. E. M. Huyett, was taken the Gelsinger hospital, Danville, for treatment. The removal of the tonsils will probably be the extent of an operation.

Morris Burkholder, tenant on the Spayd farm at Earlstown, just completed harvesting a twelve hundred bushel potato crop. T. F. Delaney, at Old Fort, also had a potato crop of six or eight hundred bushels. The best price offered to date is six cents per bushel.

Mr. and Mrs. Andrew Jodon, of near Bellefonte, came to Centre Hall on Sunday and were accompanied to Penns Cave by Mr. and Mrs. G. W. Tressler. After visiting the cavern they went on to spend a part of the day with Mr. and Mrs. Clayton T. Musser, east of that point.

W. F. McKinney, the state forest ranger in the Seven Mountains, constructed a log lean-to at the concrete bridge in the Seven Mountains, just beyond Potters Mills, at a point long known as the Locusts, along the state highway. A fire place has also been built for the convenience of sportsmen and campers.

The fire built on the street, in the alley, or on the back lot is a very dangerous one. It is built, of course, to burn leaves and rubbish, but the sparks from it may cause great destruction—it has done so before and is likely to do so again. Before building a fire in the open be sure you can control the flames and embers.

Mrs. Clayton H. Homan and little daughter, Mildred Irene, arrived at the home of Mrs. Homan's parents, Mr. and Mrs. H. G. Strohmeler, in Centre Hall, Wednesday of last week, and will remain here for a while. Mr. Homan expects to join them here provided he can induce his Cleveland employers to give him time off at some near future date.

The Men's Organized Bible Class of the Lutheran Sunday-school, Sunday, 1:30 p. m., will again be taught by a Penn State student. A soloist has also been secured, who will sing during the Sunday-school hour and probably at the evening service. All class members are urged by the officers to attend. Anyone who cares to come will be welcomed.

September remained warm and dry to the end. Farmers are beginning to complain. In the immediate section, however, the drought has done no harm except to retard the germination of the late sown wheat. In many sections of the state there was a lack of moisture during the past few months, reducing the corn crop, browning the pasture fields and making it very difficult to prepare a seed bed.

Mr. and Mrs. James Goodhart, of Lewistown, and their son, Hugh, of Syracuse, New York, motored from the former place, on Saturday, to Centre Hall, here they visited Mr. and Mrs. F. V. Goodhart and Mrs. Mary Goodhart. The senior Mr. Goodhart, a few days previous, had passed his eightieth birthday. From Centre Hall the party drove to Lemont where they will visit Mrs. Charles Thompson, a daughter of Mr. and Mrs. Goodhart.

After a three weeks' visit to various points in Ohio, James H. Smetzler returned to his home in Centre Hall. He was accompanied by Miss Catharine Bradford, a trained nurse, who came back with him as far as Pittsburgh where she stopped to visit an uncle, Charles Bradford. Among other places visited by Mr. Smetzler was Clyde, Ohio, where a brother, David Smetzler, lives, and Cleveland, where he visited Mrs. Carrie Pecht, a sister.

PUT ONE OVER ON BUTCHER

Incident Proves That Art of Shopping Has Not Been Altogether Thrown in Discard.

A dignified-looking woman stepped up to a showcase in the meat market, and after she had bought several pieces of meat, she asked:

"Have you any shinbone that I could use for soup stock?"

"Just the thing," responded the obliging clerk as he took up a long shinbone and knuckle and balanced it on his left hand.

"What is it worth?" asked the woman.

"Just a half-dollar," said he.

"It is such a large piece, would you mind cutting it at the joint?"

"Sure, I will," he replied.

After cutting off the large knuckle he again balanced the long, slim shinbone on his hand and said:

"You may have this for 40 cents."

The woman looked at the piece for a moment, then at the knuckle and said:

"Is that piece you cut off worth only 10 cents?"

The clerk hesitatingly replied:

"Yes, madam."

"All right," said the woman. "I'll take that knuckle."

The clerk waited a moment, looked at the woman, then actually laughed aloud. But he was game and willingly wrapped up the 10-cent soup bone.

NO WONDER THEY LAUGHED

American Soldier in Paris Had Made a Small Mistake in Copying the Street Name.

During the war, while I was on leave of absence in Paris, relates a returned soldier, I decided to take a walk alone. I thought it advisable to copy down the name of the street in which I was staying, so I wrote down some words printed on the sidewalk.

When I was ready to return I found that I could not locate the street where my hotel was, so I approached a woman, showed her what I had written in my book, and tried to learn from her where the place was. She laughed and said something in French, which, of course, I did not understand, and passed on. A number of times I did the same thing, and every one I stopped laughed, and passed on until a man said in English, "What is it you want?"

Delighted to find that I had discovered one person who spoke English, I said, "That is the name of the street where I am staying, and I am lost. Will you please direct me?"

"You haven't written down a street name," said the man, "but 'post no bills.'"

Skidding is Overcome.

Attention is called in a circular report from Sydney, Australia, to a new invention of a front-drive vehicle which entirely prevents skidding. A test over 16,000 miles of rough road has been made, it is claimed, with no signs of wear. The front wheels are pivoted in the center, which enables the steering of the car with much greater ease than in the rear-wheel-driven machine. The device is now attached to an old worn British car which, prior to the attachment of the device, weighed 32 cwt., with a speed of thirty-eight miles an hour traveling fifteen miles on one gallon of gasoline. After alteration and application of the front drive device, the car weighs 35 cwt., has a speed of forty-five miles an hour and will go seventeen and one-half miles on a single gallon of gasoline.
