A goodly number of Boy Scouts and some of their friends enjoyed an evening of games and eats at the Presbyterian Manse, Friday last.

Mrs. Robert Bailey, of Boalsburg, and her mother, Mrs. Thomas Houts, of Lemont, spent Thursday at the home of Mrs. D. F. Smith.

Any time you care to go to Bloomsburg from Centre Hall, buy gas for seventy-five miles, that will leave gas in your tank for four and one-half miles after you reach the capital of Columbia county. Last week the county fair was on, and it was to witness the sights of it that the writer and his wife and Mr. and Mrs. Warren Homan made the trip. The fair was all right and was largely attended. On the return the party stopped at the Geisinger hospital where Mrs. T. M. Gramley, of Spring Mills, and Miss Miriam Huyett were found being cared for. The latter had undergone two operations—one for the removal of the tonsils and the other for appendicitis. Mrs. Gramley had been in the hospital for over two months, and undoubtedly has improved since being cared for there. The hospital, erected by Mr. Geisinger in memory of her husband, George F. Geisinger, is a splendidly equipped and managed institution. The big heart of this woman has brought relief from suffering to many hundreds of unfortunate persons. After all, some of the rich are rich in other respects than in this world's goods.

The Millinburg Telegraph announces that hereafter notices of church suppers, etc., will be charged for. The Telegraph like all other newspapers is willing to help along every good movement, but why should it do this advertising gratuitously? A newspaper, it is argued further, has but two sources of income—advertising and subscription—and it certainly is not business to give away your product free. The Telegraph is altogether right. Newspapers have too long been boosting the interest of others at the expense of their own meagre incomes.

Scoutmaster W. P. Woods, of Lewistown, can show real results for his boys. They have already credited to them the planting of 100,000 trees in various sections of the Seven Mountains and definite plans have already been laid for the planting of sixty-five thousand more trees next spring in the vicinity of the scout camp in New Lancaster Valley. The Boy Scout movement is a great one, all that is needed is a head that can put the wasted energy to work in the right direction.

Tuberculosis in France.

That of 393 anti-tuberculosis dispensaries in France only ten per cent are situated in Paris was hailed as a "happy omen" at the second international conference. Only a few organizations were actively engaged in anti-tuberculosis work in France before the war. Today, largely through the activity of the Rockefeller Foundation, in addition to the dispensaries mentioned, there are 10,000 sanitarium beds for tuberculous patients; many hospitals have provided isolation wards; the boarding out of anemic children in rural homes has been organized on a large scale, and there is national co-operation of all the agencies concerned.

British Soldiers and New Roads.

Some seven and a half million dollars' worth of new road construction has been taken in hand by various British cities to provide work for the unemployed. According to a report of the British information service of the Bankers' Trust company, the ministry of transportation contributes one-half of the cost—probably out of funds accumulated for that purpose for many years by the development commission—and lends to the municipalities the other half for five years, repayable in annual installments. Ex-service men, after due registration at a labor exchange, receive preference among applicants.
